

UTKARSH DAVE

utkarshkdave@gmail.com | 4694730516 | Plano, TX 75025

Summary

With Overall 17 years of experience in IT Service/Product Based Companies. Expertise in working with Domains like Telecom and Enterprise resource planning. With Java certifications like Sun certified Java Professional, Enterprise Resource Planning Solution certification and many more. Worked in Agile and waterfall methodologies and tools like Jira, Confluence, SharePoint, Versata Framework. Some of the prominent clients which I have worked with are **T Mobile and Cisco**, US State Governments and county spanning various geographic locations.

Skills

- Java/J2EE
- XML/HTML
- Oracle/PL-SQL
- Project goals and milestones
- Client relationship management
- Documentation management
- Project framework engineering
- Meeting participation
- Schedule coordination
- Agile methodology
- Requirements gathering
- Cross-functional coordination
- Training and mentoring
- Technical monitoring
- Quality control
- Cross-functional communication
- Scope management

Tools-Technologies

Java Tools & Software:

Databases:

Programming & Scripting:

Methodologies & Frameworks:

Documentation & Office Tools:

Development Environment login Tools:

Version Control Tools:

Jenkins, Eclipse, Tomcat Apache, Junit, Java Development Kit, JavaDoc, Javac

Oracle (9g, 10g, 11g), MS SQL Server (2003, 2005), Teradata, Exadata, Hadoop

Python, Java, PL/SQL, SQL, Shell scripting (Unix Linux),

Agile/Scrum, SAFe (Scaled Agile Framework), SDLC (Software Development Life Cycle).

MS Office Suite (Word, Excel, PowerPoint), MS Visio, Technical Documentation, Sharepoint, Confluence, Jira

Putty, Box, Citrix

Jenkins, GitHub, VisualSourceSafe6.0 and Clear Case.

Experience

Unites State Government and Council | Fairfax,
Virginia

Senior Developer

08/2022 - Current

- Managed and developed medium to large-scale Java projects, adhering to PMI and PMBOK methodology, and collaborating with stakeholders to define scope and formal plans.
- Facilitated and actively participated in Scrum ceremonies, including daily stand-ups, backlog grooming, sprint planning, sprint reviews/demos, Progressive Integration Planning, and sprint retrospectives, across multiple Agile teams.
- Worked closely with Product Owners throughout project phases, including development, planning, scheduling, and status reporting, ensuring alignment with business goals.
- Involved in the software development lifecycle (SDLC) by managing and tracking progress across environments such as Dev, QA, UAT, and Production.
- Monitored and maintained Agile metrics, including team velocity and

sprint/feature progress, within the SAFe framework, and communicated updates to Release Train Engineers, Product Leads, and Engineering Leaders.

- Led cross-functional teams through all project phases, from initiation to completion, ensuring the successful delivery of projects on time, within scope, and on budget.
- Applied risk management techniques to identify potential risks early in the project lifecycle, developed mitigation strategies, and ensured that issues were promptly addressed to minimize project disruptions.
- Managed scope changes and controlled project deliverables through structured change management processes, ensuring that all modifications were aligned with the project's goals and business objectives.
- Mentored and coached junior team members on development and unit testing best practices, helping them grow in their roles, and deliver high-quality results.
- Utilized project management tools such as Jira, Confluence to track tasks, milestones, user stories, defects, and project metrics, ensuring team accountability and transparency.
- Collaborated with Product Owners and Release Train Engineers to manage dependencies, track delivery progress, and ensure timely releases, and continuous delivery of value to the client.
- Led strategic planning sessions with senior leadership and clients to ensure project alignment with business goals and objectives, and drive improvements in overall business performance.
- Provided updates to Scrum master on the detailed project using SDLC/PLC and Agile/Scrum methodologies, leveraging MS Word, MS Excel (Gantt Charts), MS PowerPoint, SharePoint, and JIRA to ensure timely project delivery and alignment with business objectives.
- Led the adoption of Agile practices, including Test Driven Development (TDD) which resulted in improved software quality and faster time to market.
- Environment: Versata Framework , Scrum, Dev, QA, UAT, Agile, SAFe, Risk Management, Jira, BOX, MS Word, MS Excel, MS PowerPoint, SharePoint, Power BI, TDD.

Cisco Developer | San Jose, California, US
Consultant

09/2013 - 08/2022

- Designed and developed Java applications deployed in Tomcat server. These applications were call based on VOIP.
- Coordinated release preparation activities, ensuring timely and efficient delivery of reports and solutions.
- Performed peer testing of Java projects and applications and associated documentation to ensure accuracy and quality.
- I wrote PL/SQL queries to generate and load test data for system validation and analysis.
- Experienced with JUnit for test planning, management, and execution.
- Delivered presentations to the ODC team on the feature related to Solicitation Bidding highlighting key features and implementation techniques.
- Collaborated directly with clients to gather and document requirements for both query-based and standard Business Objects reports
- Contributed to installing and configuring Data Objects and MS SQL Server 2005 for business intelligence implementations
- Authored test cases to validate business views and ensure their alignment with reporting requirements

Rajiv Gandhi Technical University | Bhopal, India
Bachelor of Engineering in Computer Science.
