WORK EXPERIENCE

Senior Frontend Developer, Version One Labs

Mar 2019 - Dec 2024

- Designed and developed scalable frontend architectures for multiple clients in healthcare, fintech, e-commerce, blockchain, and SaaS using React, Next.js, Vue.js, and Angular.
- Optimized performance and UX, reducing load times by 40% through advanced rendering, lazy loading, and efficient state management with Redux, Zustand, and Vuex.
- Built and enhanced NFT ArtFi platforms with React Native, TypeScript, and Web3, integrating MetaMask, smart contracts (Wagmi), and The Graph for seamless blockchain interactions.
- Led frontend modernization efforts, implementing TypeScript, TailwindCSS, and GraphQL, improving code quality and maintainability.
- Automated testing and deployment, integrating Jest, Cypress, GitHub Actions, and Vercel, ensuring 99.9% uptime and faster releases.
- Established scalable UI libraries and reusable components, increasing development efficiency by 30% and ensuring design consistency.
- Implemented motion UI enhancements using Framer Motion and GSAP, improving engagement through smooth animations and micro-interactions.
- Mentored junior developers, conducted code reviews, and enforced frontend best practices, driving a culture of high-quality development.

Full Stack Developer, Infosys

May 2016 - Jan 2019

- Designed and built a real estate platform from scratch using React.js, TypeScript, and TailwindCSS, improving user engagement and platform scalability.
- Modernized an audio streaming app using React Native and Node.js, integrating gRPC for real-time communication, boosting user experience by 25%.
- Developed advanced analytics tools with Kafka and MongoDB, resulting in a 10% increase in user retention through actionable insights.
- Implemented cloud solutions using AWS Lambda, GCP Firestore, and Pub/Sub, optimizing costs and scalability.

Junior Software Developer, Buuuk

Aug 2013 - Feb 2016

- Developed a mobile banking platform with PhoneGap and JQuery, increasing user adoption by 20%.
 - Engineered scalable backend services with Node.js and MySQL, supporting a 30% increase in transaction volume.
 - Implemented CI/CD pipelines using Jenkins, reducing deployment time by 30%.
 - Collaborated with cross-functional teams to integrate OAuth/OpenID authentication and enhance security.
-

SKILLS

- Languages:** JavaScript, TypeScript, Python, Java, C#
 - Frontend:** React, Next.js, Vue.js, Angular, React Native, Blazor, TailwindCSS, Material UI
 - Backend:** Node.js, Nest.js, Express, Django, Flask, FastAPI, Spring Boot, ASP.NET Core
 - DevOps & Cloud:** Azure, AWS, GCP, Docker, Kubernetes, Terraform, CI/CD
 - Testing:** Jest, Mocha, Cypress, Selenium, Playwright, JUnit, Pytest
 - Other:** Blockchain, NFT, Web3, Redis, Elasticsearch, Agile/Scrum, SEO
-

EDUCATION

Bachelor's Degree in Computer Science

Sep 2012

National Taiwan University

CERTIFICATION

AWS Certified Solutions Architect Associate - Amazon Web Services (AWS)

HackerRank Algorithm Certification - HackerRank
