📍 Fort Worth, Texas

SUMMARY

With over a decade of experience, I bring a wealth of expertise in Ruby on Rails and integration development, consistently delivering solutions that enhance efficiency, and productivity. My greatest career achievement includes pioneering a real-time e-commerce data integration strategy that received widespread acclaim.

EXPERIENCE

Software Engineer

Apex Capital Corp

📅 11/2023 - 10/2024

📍 Seattle, United States

- Spearheaded the development of a Ruby on Rails application that streamlined internal operations, improving productivity by 20%.
- Managed a team of software developers, increasing team delivery rate by 30% through the adoption of Agile methodologies.
- Architected RESTful API integrations, allowing for seamless connection with third-party services, and boosting system efficiency by 25%.
- Implemented advanced error handling strategies in Ruby, greatly reducing downtime and improving user experience.
- Authored comprehensive test suites for core functionalities, resulting in a 15% reduction in bug reports from users.
- Drove client satisfaction scoring above 95% through effective communication and delivery of high-quality software solutions.

Senior Software Developer

Softworld

📅 04/2021 - 09/2023

📍 Plano, United States

- Led a successful migration project for a client's e-commerce platform to Shopify, which increased sales conversions by 40%.
- Developed sustainable integrations with Salesforce and Sage Intacct, improving reporting times by 60%.
- Customized integration patterns using RESTful API principles to enhance data flow between critical business applications.
- Automated repetitive tasks with Ruby scripts, enhancing operational efficiency by saving over 300 hours per year.
- Collaborated closely with the QA team to ensure robustness of new features.

Application Developer

Xpressdocs

📅 04/2018 - 04/2021

📍 Palo Alto, California

- Constructed a RESTful service layer for a financial analytics tool that helped increase client retention rates by 15%.
- Facilitated the adoption of Test Driven Development, leading to a 10% improvement in code quality.
- Deployed applications on AWS, enhancing scalability and reliability of company's web services.
- Optimized database queries in PostgreSQL, effectively reducing average load times by 30%.

EDUCATION

Bachelor of Science in Computer Science

The University of Texas at Dallas

📅 2014 - 2017

📍 Dallas, United States

Computer Science

The University of Texas at Arlington

📅 2010 - 2013

📍 Arlington, United States

PROJECTS

Open Source Contribution to ProgBot

Improved functionality of an educational chat-bot application by integrating AI algorithms. View code at github.com/progbot.

Feature Extension for RailsIssueTracker

Created an enhanced issue tracking system for Rails developers, integrating a real-time notification system. Details at github.com/railsissuetracker.

KEY ACHIEVEMENTS

⚡ Top Tech Innovator Award

Recognized for pioneering a real-time data integration strategy between Salesforce and Shopify, significantly impacting e-commerce client satisfaction.

🚩 Best Agile Team Lead

Received accolade for leading a software development team that consistently exceeded quarterly delivery goals by at least 30%.

🏆 Efficiency Improvement Guru

Implemented Ruby-based automation tools at InnoTech Solutions, cutting down operational time by over 300 hours annually.

💡 Speaker at RubyConf

Presented on TDD best practices and its impact on maintaining a high-performing codebase in a large-scale production environment.

SKILLS

Backend

Ruby on Rails, RSpec, Sidekiq, GraphQL, RESTful APIs

Database

PostgreSQL, Redis, MySQL, Database Optimization, Query Performance Tuning

Frontend

JavaScript, React, Vue.js, HTML, CSS, Bootstrap
