

CAREER SUMMARY

Experienced Senior Software Engineer with over 8 years of software development experience, specializing in the Microsoft stack, including .NET Framework, ASP.NET, C#, MS SQL Server, and WCF Web Services. Strong background in object-oriented development, application deployment, maintenance, and technical documentation. Adept at working in full-cycle development environments, including after-hours support, and experienced with .NET Core and Web API technologies.

EXPERTISE

.NET Framework (1.1 – 4.6.x) | ASP.NET / C# Development | WCF Web Services | Object-Oriented Development (OOD) | MS SQL Server (Design, Optimization, Querying) | Visual Studio | .NET Core / Web API | Technical Documentation & Support | Software Deployment & Maintenance | After Hours Support | Agile Methodologies

TECHNICAL SKILLS

C# | JavaScript | SQL | Python | ASP.NET | Web API | HTML | CSS | JavaScript | MS SQL Server | SQL Server Management Studio (SSMS) | Visual Studio | Git | Jenkins | Azure DevOps | .NET Framework | .NET Core | Microsoft Azure | NUnit | MSTest | Selenium | Git | GitHub | Bitbucket

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER | Sage Intacct, Inc. | San Jose, CA

Apr 2022 – present

- Led the design and development of web APIs and .NET Core applications to support data-driven features for clients.
- Developed and maintained WCF Web Services for internal and external application integration.
- Optimized MS SQL Server stored procedures and queries for improved performance.
- Worked on ASP.NET applications, including integration with third-party services.

SENIOR SOFTWARE DEVELOPER | StorySlab | Syracuse, NY

Jul 2020 – Mar 2022

- Supported the development of C#-based web applications for enterprise solutions.
- Assisted in the development and maintenance of WCF Web Services and MS SQL Server database operations.
- Enhanced existing applications, providing bug fixes and improvements in ASP.NET features.

JUNIOR SOFTWARE DEVELOPER | Jungo | San Diego, CA

Aug 2017 – Jun 2020

- Assisted in the development and optimization of backend data processes and API integrations for enterprise-level applications.
- Worked with MySQL and MongoDB databases to build scalable data systems and enhance the performance of querying.
- Implemented data integration solutions, ensuring high-quality and consistent data across various internal and external sources.

FULL STACK DEVELOPER | New York Software Developers | Manhattan, NY

Oct 2015 – Jul 2017

- Contributed to the development of scalable e-commerce platforms using C# and ASP.NET.
- Worked on SQL Server database management, enhancing performance through indexing and query optimization.
- Assisted in the deployment and support of applications with a focus on system reliability and uptime.

EDUCATION

Bachelor of Science | Computer Science | University of Washington

2008 – 2012

KEY PROJECTS

- Enterprise Data Solutions
 - Developed and deployed .NET Core applications for a data-driven enterprise platform, integrating Web API services and SQL Server databases.
- Service Optimization
 - Led efforts to optimize WCF Web Services and MS SQL Server database queries, resulting in a 30% performance improvement for data retrieval.
