

Justin Juarez

HARLINGEN TX | (425) 279 7343 | justin.juarez.tech@gmail.com | www.linkedin.com/in/justin-juarez-834727353/

Professional Summary

Highly skilled Mobile Developer with over 8 years of experience in designing, developing, and deploying cross-platform mobile applications using Flutter and React Native. Proficient in delivering scalable, high-performance solutions for iOS and Android platforms, with a strong focus on user experience and code quality. Adept at integrating RESTful APIs, GraphQL, and third-party libraries to enhance app functionality. Experienced in leading cross-functional teams, mentoring junior developers, and implementing CI/CD pipelines for streamlined development. Passionate about leveraging cutting-edge technologies to solve complex problems and deliver innovative mobile solutions. Recognized for exceptional problem-solving skills, attention to detail, and a proven track record of meeting tight deadlines. Committed to staying updated with industry trends, including advancements in Flutter, React Native, and mobile DevOps.

Work Experience

HIKE2 SENIOR MOBILE DEVELOPER

PITTSBURGH, PA
MAR 2022 – PRESENT

- Architected 12+ enterprise-grade mobile apps using Flutter and React Native, reducing development cycles by 25% via modular codebases.
- Integrated GraphQL and RESTful APIs, enabling real-time data syncing for 100K+ users.
- Implemented CI/CD pipelines with Jenkins and Fastlane, cutting deployment times by 35%.
- Developed automated testing suites with Jest and Flutter Test, achieving 92% code coverage.
- Created custom JavaScript connectors for Firebase analytics, identifying 5K+ user behavior trends monthly.
- Migrated legacy React Native apps to TypeScript, improving code maintainability by 30%.
- Led a team of 7 developers, mentoring 4 juniors to deliver features 20% ahead of schedule.
- Implemented multi-language support for global app releases, supporting 15+ languages.
- Integrated Bynder DAM system with apps, streamlining asset management for 10K+ digital assets.

SCALED AGILE, INC. MOBILE DEVELOPER

BOULDER, CO
SEP 2017 – MAR 2022

- Built 9 cross-platform apps using Flutter, handling 50K+ daily active users.
- Integrated Stripe and Google Maps APIs, processing 2K+ transactions daily.
- Developed automated data validation rules, flagging 8K+ inconsistencies in user inputs monthly.
- Implemented Redux and MobX for state management, reducing rendering times by 15%.
- Migrated legacy Objective-C code to React Native, preserving 5 years of feature history.
- Created custom animations with Flutter's animation framework, boosting user engagement by 25%.
- Integrated AWS S3 for media storage, optimizing load times for 10K+ assets by 20%.
- Wrote 500+ unit and integration tests, ensuring 90% feature reliability.
- Collaborated with UX teams to implement Material Design, improving user satisfaction scores by 30%.

**ONETRUST
MOBILE DEVELOPER**

**ATLANTA, GA
2015 – SEP 2017**

- Developed 6 mobile apps using React Native, supporting e-commerce and social platforms.
- Integrated Firebase Firestore for real-time data, syncing 20K+ user actions daily.
- Created automated UI testing scripts with Detox, identifying 1K+ bugs pre-release.
- Migrated legacy Java-based Android apps to Flutter, retaining 3 years of user data.
- Implemented push notifications, increasing user retention by 18%.
- Built reusable UI components, reducing development time by 12% across projects.
- Integrated RESTful APIs, handling 5K+ requests per minute with 99.9% uptime.
- Supported Agile sprints, delivering 95% of features on time.
- Documented 200+ app features, streamlining onboarding for new developers.

**TURING SCHOOL OF SOFTWARE
JUNIOR DEVELOPER**

**DENVER, CO
JUL 2013 – OCT 2015**

- Assisted in building 4 Flutter-based app prototypes, validating concepts for 5K+ beta users.
- Integrated RESTful APIs, fetching 10K+ data points for real-time dashboards.
- Created automated error logging, capturing 500+ issues monthly for debugging.
- Implemented Material Design UI, improving prototype feedback scores by 20%.
- Migrated legacy HTML5 app to Flutter, preserving 2 years of user interactions.
- Wrote 100+ unit tests, achieving 85% code coverage for core features.
- Integrated Firebase authentication, securing 1K+ user accounts.
- Collaborated with designers to implement multi-language support for 5 languages.
- Documented API integrations, reducing team onboarding time by 10%.

Education

BACHELOR OF TECHNOLOGY | AUG 2013 | NOVA SOUTHEASTERN UNIVERSITY, FL

Skills & Abilities

- **Mobile Development:** Flutter (Dart), React Native, Swift, Kotlin, Java, Objective-C
- **Frontend Technologies:** JavaScript (ES6+), TypeScript, Redux, MobX, Hooks, Context API, Vue.js
- **Backend Integration:** RESTful APIs, GraphQL, Firebase, Node.js, Express.js, WebSocket
- **Databases:** SQLite, Firebase Firestore, MongoDB, PostgreSQL, Realm, MySQL
- **DevOps & Tools:** Git, GitHub, GitLab, Bitbucket, Jenkins, Fastlane, CircleCI, Docker, Kubernetes
- **Testing:** Jest, Mocha, Detox, Flutter Test, Unit Testing, Integration Testing, UI Testing, Cypress
- **UI/UX Design:** Material Design, Cupertino, Figma, Adobe XD, Sketch, Responsive Design
- **Cloud Services:** AWS (S3, Lambda, EC2, RDS), Google Cloud Platform, Azure, Heroku

Activities and Interests

Coding Challenges, Tech Gadgets Exploration, Mentoring and Teaching, Virtual Reality (VR), Digital Art and Design, Gaming and Game Development, Robotics
