

KOMAL SORATHIYA

Cumming GA 30040 | komalsorathiya@gmail.com | 941-928-8348

PROFESSIONAL SUMMARY

Highly skilled Software Developer with over 10 years of experience in designing, developing, and deploying enterprise-level applications using **.NET Core**, **Microservices**, **Azure**, **AWS**, and **VMware** technologies. Expert in building scalable, secure, and maintainable applications with **ASP.NET Core**, **REST APIs**, **Microservices** architecture, and cloud-native solutions. Proficient in **CI/CD** automation with **Jenkins**, **Azure DevOps**, and **production deployment** strategies. Deep experience with **VMware** for virtualization and cloud infrastructure management. Strong background in **Agile/Scrum** methodologies, **database management**, **SSRS** reporting, and **database indexing**.

TECHNICAL SKILLS

- **Languages:** C#, VB.NET, JavaScript, SQL, TypeScript, HTML, CSS
 - **Frameworks & Technologies:**
 - **.NET Core**, **ASP.NET Core**, MVC, Web API, Blazor, **Microservices** architecture
 - **AWS:** EC2, Lambda, S3, RDS, Elastic Beanstalk, CloudFormation
 - **Azure:** App Services, Functions, SQL Database, Blob Storage, Azure DevOps, Azure Kubernetes Service (AKS)
 - **Cloud Technologies:** **VMware vSphere**, VMware Workstation, VMware Cloud on AWS, Docker, Kubernetes
 - **Database Management:** SQL Server, MySQL, PostgreSQL, MongoDB, Redis, **Database Indexing**, **Query Optimization**
 - **Data Reporting:** SSRS, Power BI
 - **CI/CD:** Jenkins, **Azure DevOps**, Docker, Kubernetes
 - **Development Practices:** **Agile/Scrum**, TDD (Test-Driven Development), Continuous Integration
 - **Version Control:** Git, SVN
 - **Testing & Automation:** NUnit, MSTest, Selenium, Moq
 - **Frontend:** Angular, React, jQuery, Bootstrap
-

PROFESSIONAL EXPERIENCE

Senior Software Developer | OTAVA

December 2016 – August 2023

Location: Ann Arbor, Michigan

- Architected and developed **Microservices**-based applications, leveraging both **Azure** and **AWS** cloud platforms to deliver scalable solutions.

- Utilized **VMware** technologies such as **VMware vSphere** and **VMware Cloud on AWS** for virtualizing infrastructure, enhancing performance and reducing operational costs.
- Built and deployed **ASP.NET Core** applications with **RESTful APIs**, ensuring smooth integration with frontend and third-party services.
- Managed **VMware**-based infrastructure, implementing automated VM provisioning and configuration management to optimize resource utilization.
- Led **CI/CD** pipeline automation using **Jenkins** and **Azure DevOps**, ensuring continuous integration, testing, and deployment across cloud and virtualized environments.
- Deployed **Microservices** on **Azure Kubernetes Service (AKS)**, improving scalability, availability, and fault tolerance of cloud applications.
- Integrated **SSRS** for business reporting and analytics, enhancing decision-making with real-time, actionable data.
- Spearheaded the migration of legacy applications to **Microservices**, reducing complexity and improving system flexibility and uptime.

Software Developer | iGeniusDev

January 2013 – December 2014

Location: Rajkot, India

- Developed **ASP.NET MVC** applications, integrating **REST APIs** for smooth communication with external services.
- Worked on **VMware vSphere** for the virtualized deployment of applications, improving scalability and disaster recovery capabilities.
- Contributed to the development and deployment of **Microservices**, enabling a more modular approach to the architecture of the platform.
- Assisted in deploying applications to **Azure** using **App Services**, improving deployment efficiency and reducing downtime.
- Implemented **CI/CD** pipelines with **Jenkins**, streamlining deployment processes and ensuring code quality across environments.
- Participated in **Agile/Scrum** teams, working closely with business analysts and product owners to deliver high-quality features on time.

Junior Software Developer | AppGuruz

January 2011 – December 2012

Location: Rajkot, India

- Assisted in developing and maintaining **ASP.NET** applications, supporting both backend functionality and database integration.
- Provided support in **VMware**-based virtualized environments, assisting with server provisioning and system monitoring.
- Participated in the optimization of SQL Server queries, ensuring improved performance across the application.
- Assisted senior developers in managing virtual machines and configuring **VMware** infrastructure.

EDUCATION

Master of Science in Computer Information Systems (CIS)

Grand Valley State University — April 2017

Bachelor of Engineering in Information Technology

Saurashtra University — June 2010

SOFT SKILLS

- **Leadership & Mentorship:** Strong ability to lead teams, mentor junior developers, and foster collaboration in **Agile/Scrum** environments.
- **Communication:** Clear communicator, skilled in conveying technical concepts to both technical and non-technical stakeholders.
- **Problem-Solving:** Excellent at analyzing complex issues and finding effective solutions under pressure.
- **Collaboration:** Team-oriented, experienced in working with cross-functional teams to deliver high-quality results.
- **Time Management:** Effective at prioritizing tasks and meeting deadlines in fast-paced environments.
- **Customer-Focused:** Focused on understanding and delivering solutions that meet user and business needs.
- **Adaptability:** Quick to learn new technologies and adapt to evolving project requirements.
- **Attention to Detail:** Committed to delivering high-quality, error-free code and solutions.
