

Khush B Sultana

ServiceNow Developer | ServiceNow Admin

(360) 539-1269 | Khushsultana1@gmail.com | Houston, TX 77494 | [LinkedIn](#)

Professional Summary

Senior ServiceNow Developer/Admin with over 10 years of experience designing, developing, and supporting enterprise ServiceNow solutions across ITSM, ITOM, ITAM, CMDB, HRSD, CSM, SecOps, IRM/GRC, HAM, SAM, Service Catalog, Knowledge Management, Virtual Agent, and Service Portal. Experienced in hands-on development, platform administration, integrations, workflow automation, and CMDB/CSDM governance, with a strong focus on building scalable and business-driven solutions. Progressed from foundational ITSM and CMDB implementations into advanced areas such as ITOM, asset management, security operations, customer and employee service delivery, and risk management as the ServiceNow platform evolved. Strong background collaborating with cross-functional business and technical teams, leading solution discussions, improving operational efficiency, and delivering stable, high-quality implementations across enterprise environments.

Certifications

- ServiceNow Certified System Administrator
- Certified Application Developer
- Certified Implementation Specialist- IT Service Management
- Certified Implementation Specialist - Hardware Asset Management
- Certified Implementation Specialist - Software Asset Management
- Certified Implementation Specialist- Discovery
- Certified Implementation Specialist - Data Foundations (CMDB and CSDM)
- ITIL V4 Foundation Certified
- Micro Flow Designer
- Micro Integration Hub
- Micro Predictive Intelligence
- Micro Service Portal
- Micro Automated Test Framework

Technical Skills

- **Platform & Development:** Scoped Applications, Flow Designer, Script Includes, ACLs, Business Rules, UI Policies, Client Scripts, Service Portal, Catalog Development.
- **Modules:** ITSM, ITOM, CMDB, HAM Pro, SAM Pro, HRSD, GRC/IRM, CSM, SecOps.
- **Integration:** REST/SOAP APIs, MID Servers, SCCM, Active Directory, Azure, AWS, Workday.
- **Tools & Technologies:** JavaScript, HTML, CSS, AngularJS, Performance Analytics, ATF.
- **Practices:** Agile, DevOps, Platform Governance, CSDM, CMDB Health Dashboards.
- **Soft Skills:** Communication, Team Collaboration, Problem Solving, Stakeholder Management, Time Management, Adaptability, Attention to Detail, Leadership, Conflict Resolution, Agile Mindset.

Professional Experience

Speedcast | Houston, TX

March 2022 – Present

Sr. ServiceNow Developer/Admin

- Led enterprise-grade implementations across ITSM and CMDB, establishing a CSDM-aligned data model and enforcing governance to improve service visibility and data integrity.
- Engineered integrated solutions across ITOM and SecOps, enabling real-time event correlation with security incident response for faster detection and remediation.
- Led ITAM implementations as a Senior ServiceNow Developer/Admin, configuring HAM, SAM, CMDB integrations, and lifecycle automation to improve asset visibility, compliance, and operational efficiency.
- Designed and implemented governance frameworks across IRM and ITSM, aligning risk, policy, and compliance controls with operational processes and audit requirements.
- Delivered scalable solutions across SecOps and IRM, automating vulnerability response workflows and enhancing risk prioritization through standardized scoring models.
- Implemented AIOps-driven use cases to reduce alert noise, enable predictive insights, and improve operational decision-making.
- Delivered FSO solutions, configuring case workflows and automation to improve financial service operations and efficiency.
- Automated complex workflows using App Engine, Flow Designer, IntegrationHub, and scripting, significantly reducing manual effort and improving process efficiency.
- Implemented Source-to-Pay solutions by configuring procurement workflows, approvals, and vendor processes to streamline end-to-end purchasing operations.
- Built and maintained ERP integrations (SAP, Oracle, Workday) with ServiceNow using REST APIs and IntegrationHub to enable seamless data exchange and process automation.
- Leveraged Now Assist to enhance development efficiency and user experience through AI-assisted code generation and contextual knowledge delivery.
- Built and enhanced agent-based solutions, including Virtual Agent and workspace experiences, to drive self-service adoption and streamline user interactions.

Ally Financial | Detroit, MI

May 2020 – Feb 2022

ServiceNow Developer/Admin

- Delivered HRSD enhancements, improving employee service workflows and case management to streamline HR service delivery and operational efficiency.
- Integrated SecOps with ITSM, enabling streamlined security incident response workflows and improved visibility into vulnerability remediation.
- Implemented HRSD and ITSM capabilities, aligning employee service delivery with core IT processes to provide a unified service experience.
- Developed Service Portal enhancements and integrated Discovery with Service Mapping to improve service visibility, operational monitoring, and overall user experience across enterprise applications.
- Developed Virtual Agent use cases integrated with ITSM, automating common requests and improving self-service adoption across business users.
- Implemented WSD space and reservation workflows to improve workplace operations and employee experience.

- Implemented ITAM and FSO capabilities, enabling effective asset lifecycle tracking and streamlined financial service workflows to enhance compliance and operational control.

Bridgeview Partners | Philadelphia, PA

Jan 2018 – Mar 2020

ServiceNow Developer/Admin

- Configured ITAM solutions for client engagements, establishing standardized processes and improving asset visibility and operational control.
- Configured ITAM modules within ServiceNow, including asset models, stockrooms, contracts, and normalization processes, while integrating asset data with CMDB and ITSM for improved tracking and reporting.
- Supported ITOM Discovery implementations, onboarding infrastructure data and enhancing CMDB accuracy through automated CI population.
- Delivered Service Catalog and HRSD solutions, enabling streamlined request management and basic employee service workflows for clients.
- Configured FSM capabilities including work order management, dispatching, mobile agent workflows, and asset-based field operations to improve technician efficiency and service delivery.
- Assisted in SecOps integrations by onboarding vulnerability data and supporting remediation tracking workflows within ServiceNow.

UMB Bank | Kansas City, MO

Sep 2014 – Dec 2017

ServiceNow Admin/Developer

- Administered core ITSM modules, including Incident, Problem, and Change Management, improving service delivery consistency and process efficiency.
- Established and maintained CMDB foundation, defining CI classes, relationships, and implementing data governance practices to support operational reporting.
- Developed Service Catalog and ITSM request workflows, automating routine service requests and reducing manual effort.
- Administered core ITSM modules, including Incident, Problem, and Change Management, improving service delivery consistency and process efficiency.
- Built integrations between ITSM and external systems using REST and SOAP services, enabling data exchange with monitoring and identity platforms.

Zurich Insurance | Schaumburg, IL

Jan 2012 – Aug 2014

JavaScript Developer

- Developed responsive web applications using JavaScript, AngularJS, and REST APIs.
- Built modular, reusable components and optimized performance through code splitting and lazy loading.
- Participated in Agile development cycles and collaborated with cross-functional teams on UI/UX improvements.

Education

Bachelor of Engineering
