Work Experience

Techcarrot FZ LLC | Dubai, UAE

Technical Lead | Dec 2020 – Aug 2023

Technologies : Python, Java, PHP, MySQL, MS SQL Server, JavaScript, Linux, REST API, CRM, API Integration, GitHub

- Led a team to revamp Arada Property's online presence with a custom design, increasing inquiries by 30% and sales by 15% in six months. Implemented SSL certificates to enhance system security and ensure encrypted data transmission.
- Served as the primary contact for resolving business process issues and system malfunctions by troubleshooting workflows, diagnosing software problems, and collaborating with teams to implement effective solutions.
- Integrated Google Chart library for interactive property price trend visualization and third-party API for syncing inquiry and booking data into Salesforce ERP.
- Deployed and configured Linux servers (Nginx, Apache) with LAMP/LEMP stacks, leveraging scripts for maintenance and MySQL database security using SSH and PowerShell commands. Designed MySQL databases with advanced security measures, regularly performed updates, patches, and monitored server performance using Python scripts.
- Conducted unit testing, provided QA and UAT support, and tuned performance for ingestion processes.
- Participated in designing data models for downstream reports and automated processes with PowerShell CLI scripting.
- Led root cause analysis (RCA) for client-impacting incidents, tracked action items via JIRA, and managed stakeholder communication during critical issues.
- Created detailed documentation for custom code and modules to streamline onboarding for team members.

WP Event Manager | Surat, India

Sr Web Developer | Feb 2020 – Dec 2020

Technologies : PHP, WordPress, WooCommerce, MySQL, JavaScript, CSS, HTML, jQuery, Ajax, REST API, API Integration, GitHub

- Led the development of critical enhancements for the WP Event Manager plugin, focusing on improving event registration functionalities. These enhancements included customizable registration forms, ticketing options, and attendee management.
- Developed the Online Zoom Event addon for seamless Zoom integration into events.

E-Tech Lab | Surat, India

Web Developer | May 2015 – Feb 2020

Technologies : PHP Symfony, WordPress, WooCommerce, Drupal, MySQL, Elastic Search, JavaScript, CSS, HTML, jQuery, Ajax, GitHub

- Developed and maintained WordPress websites for diverse clients.
- Resolved a critical security vulnerability for Raimondi Crane, preventing a data breach (Wordfence Plugin).
- Created dynamic class listings and optimized SEO for Wellfit Fitness, enhancing visibility and showcasing memberships.
- Diagnosed and resolved complex technical issues, ensuring minimal website downtime.

Education

Sacred Heart University

Aug 2023 – Dec 2024

MS in Computer & Information Science

Fairfield, CT, USA

Veer Narmad South Gujarat University

Jun 2010 - Feb 2014

BS in Computer Application

Surat, India

Projects

Task Tracker Pro

Technologies : Flutter, Python Django, MySQL, REST API, Figma

- Service-based businesses struggle with managing operations efficiently with user-friendly mobile applications.
- Task Tracker Pro will focus on service requests, scheduling, billing, and employee data, refined through user research and analysis.

JavaScript Quiz Game

Technologies : Node.js, React.js, HTML, CSS

- Implemented dynamic question generation to boost user engagement.
- Used data visualization for instant feedback and performance analytics, enhancing the learning experience.
