PROFESSIONAL EXPERIENCE

Brooks Automation, Chelmsford, MA

2019-2025

Technical Writing Manager

2023-2025

- Managed a global group of technical writers, overseeing projects, defining scope, and gathering team metrics.
- Acted as an individual contributor technical writer, creating and releasing manuals and procedures for atmospheric robots and systems as well as contamination control product lines.
- Reviewed and approved all documents coming through the Technical Publications team, working with the team to drive 95% on-time delivery and a less than 2% ECO rejection rate.
- Developed and completed the following process improvements:

Online Documentation Portal - Modernizing content delivery

Training Management - Setting a standard for the team

Quick Start Guides - Serving different customers in different ways

China Compliance Project - Investigating Intellectual Property

Technical Writing Supervisor

2022-2023

- Supervised a regional group of technical writers, meeting with direct reports on a weekly basis to ensure on-time deliverables and continue professional growth.
- Acted as an individual contributor technical, with a focus on systems documentation.
- Assisted in the development and implementation of continuous process improvements.

Technical Writer

2019-2022

- Served as a full-time technical writer for the following Brooks product lines: vacuum and atmospheric robots and systems, collaborative robotics, and contamination control.
- Documented user, installation, software, and maintenance manuals as well as field replace unit (FRU) procedures, upgrade procedures, and any additional requests from the customer.
- Served both an internal and external audience, consisting of field service engineers (FSEs), technicians,

and manufacturing engineers (MFES).

- Developed tier-level training sessions for the training department to use with customers.

Rocket Software, Inc., Waltham, MA

2018-2019

Technical Editor / Writer

- Restructured legacy software documentation and developed a content modernization initiative, minimizing content redundancy and suggesting changes to user interface.

UMass Amherst Writing Center

2016-2018

Writing Tutor

- Tutored other UMass Amherst students one-on-one on a variety of writing projects.
- Completed senior thesis on how subject-matter expertise contributes to successful writing.
