PROFESSIONAL EXPERIENCE

CURRY CONSULTING GROUP, LLC., Round Rock, Texas

September 2020 - Present

Learning, Performance and Change Management Consultant

Highly technical, results-driven professional with expertise in learning, performance, and change management. Partners with organizations to drive strategy to tactical operations across diverse industries and functions by implementing technology solutions and change management (adoption) initiatives.

- Supports the alignment of workforce skills to drive organizational goals and client success for growth and competitiveness
- Develops and facilitates technology programs in higher education

VISA, Austin, TX

July 2021 – January 2025

IT Service Manager

As a Service Manager within the IT Merger & Acquisition Integration space, I bridged the gap between technical IT teams and their customers, ensuring seamless IT integration into the Visa environment. Advocated for the best user experience by defining user requirements, supporting business needs, adapting to change, and continually improving processes. Partnered with technology and cross-functional teams to co-create value across the organization through design, delivery, and optimization. Drove oversight across departments to simplify, optimize, automate, and promote visibility to maximize value. Key functions included:

- **IT Technological Integration:**
 - Managed 12 IT transitions and 3 M&A integrations with minimal disruption, achieving a 0.16% Hypercare rate, developing onboarding templates, and leading cross-functional teams to create a RACI for M&A role alignment and accountability.
- **User Experience and Operational Efficiency:**
 - Simplified technical concepts, advocated transparency, championed AI adoption as a top ChatGPT user and Microsoft Copilot Ambassador, implemented 11 SIOs saving 2,569 person-hours, achieving \$178,954 in efficiencies, and improving service value by 20%.
- **Stakeholder Engagement and Communication:**
 - Advocated a 'user first' approach, built cross-functional partnerships, provided concise updates, reduced Mac downtime by 244 hours, established transparent protocols, and managed major incident communications for acquired entities.
- **Organizational Change Management:**
 - Integrated AI solutions, led IT integrations for three entities with 98% uptime, drove change initiatives, reducing inefficiencies by 25%, and improved user experience and process efficiency as a Relationship Manager.

- **Continuous Improvement and Outcome-Driven Results:**

- Tracked user metrics, addressed adoption barriers, achieved high satisfaction with minimal disruptions, elicited requirements, optimized deliverables, enhanced processes, and communicated effectively.
- Participated in resource sharing to expand business acumen and to advocate for client-centric approaches, recommended system enhancements.

IBM, Austin, TX

July 2018 - September 2020

Client Enablement Leader

Led the strategy, design, and delivery of transformational, standardized onboarding for Enterprise Cloud Solutions. Facilitated 3-5 global sessions weekly for 200 internal clients and 20+ external client sessions per three-month period. This initiative improved alignment on product features and roadmap during internal client onboarding, helping clients maximize the business value they receive from the product.

- Delivered standardized live and self-paced demos for consistent and effective user experiences, enabling Client Onboarding reps to stay updated on agile features being implemented bi-weekly.
- Spearheaded a global training transformation initiative, enhancing learner engagement and reducing time to proficiency by 50% through innovative digital learning tools and techniques.
- Led and facilitated workshops with cross-functional teams to gather feedback and implement improvements, resulting in content updates and an Enterprise Design Thinking Project Initiative.
- As a certified Enterprise Design Thinking Co-Creator, identified knowledge gaps and improved communication by initiating a weekly blog and monthly podcast, enhancing product knowledge and engagement for over 200 internal and 20+ external clients.

ABBOTT LABORATORIES, NUTRITION DIVISION, Columbus, OH

December 2015 - January 2018

Healthcare Education Operations Manager

Designed and implemented education initiatives to support global Brand Managers & Commercial Operations for Abbott Nutrition Health Institute (ANHI.org) business strategies. Directed team of two in educational and digital programs in collaboration with branding, R&D, marketing, and education team. Responsible for \$500K digital budget, oversight of technical operations for \$750K ANHI grant program.

- Directed oversight of monthly content development and maintenance projects for ANHI.org website. Led digital strategy for LinkedIn, YouTube, and Twitter initiative for brand awareness and continuing education via social media with focus on healthcare providers.
 - 12% increase in LinkedIn followers over 9 months and phasing in new digital trends.
- Led data collection automation into central database for data consistency, cutting manual processes, and increasing data distribution.
 - Strengthened feedback and request processing from 4 to 10/day response to 24 to 48/hour response by cross-training backups and implementation of FAQ document on website.
 - Reduced tickets by 35% and provided users with immediate access to resolution, using FAQs.
- Directed allocation of \$500K budget for website, Technology Platform (LMS), and social media improvements, collaborating with R&D leadership to align programs with ANHI goals.
 - Oversaw grant application system extracting submission, creating scorecard quarterly for review by Medical Education Grant Review Council. 20 to 30 quarterly grants submitted with funding of ~\$500K to \$750K based on ANHI.org areas of interest.
