Senior User Experience Designer

Delivering User-Centered, Visually-Polished UX That Drives Business Impact

Five years specializing in user-centered designs. Passionate about making complex systems intuitive. Dedicated to crafting designs that simplify workflows, foster engagement, and support business goals. Using quantitative and qualitative CX data to inform design decisions. Improved efficiency by 50% for teams through optimized design libraries with products reaching an audience of over 30,000. Design B2B products based on user testing, prototyping, and iterative results. Strong foundations in both UX research and UI design. Thriving in collaborative, cross-functional teams to contribute to strategic decision-making and design solutions. Enhance usability and improve user experiences.

ACCOMPLISHMENTS

- **WORKFLOW OPTIMIZATION:** Improved developer workflow by 30% through a newly built process hub used by 1000 Schwab Technical Service developers. Translated requirements into intuitive, scalable designs that ensured regulatory compliance.
- **SCALABLE DESIGN SYSTEMS:** Spearheaded the development of a design library and asset repository in Figma. 50% decrease in project turnaround time. Ensured scalability and consistency across multiple Schwab teams. Improved collaboration between design, engineering, and product teams.
- **DESIGN TOOL MASTERY:** Decreased intranet search time 30% for 30K employees. Collaborated with business teams to create intranet upgrades by leveraging Figma, Sketch, and Photoshop to create wireframes and mockups for developers, project managers, and business leaders.
- **DESIGN & BRANDING:** Managed the design and branding for Schwab's technical education program serving over 500+ employees annually through collaborative workshops and feedback sessions with developers.
- **COLLABORATION & CONSULTATIVE APPROACH:** Led design as part of internal consulting "agency" deployed across the organization. Facilitated workshops and design and feedback sessions with product managers, engineers, and stakeholders to deliver new websites, applications, and upgrades.

DESIGN SKILLS: Visual Design, Interaction Design, Prototyping (Low to High Fidelity), User Experience (UX), User Flows, User Interfaces, Wireframing, Design Systems, Journey/Experience Mapping, Workshops, Usability Testing, Iterative Processes, User Writing, Inclusive Design

USER RESEARCH SKILLS: Usability Testing, Heuristic Evaluations, Interviews, Surveys & Questionnaires, Contextual Inquiry, Ethnographic Research, WCAG, Affinity Diagramming, Data Synthesis, Qualitative & Quantitative, Workshops, Task Analysis, Persona Development, Competitive Analysis, A/B Testing, Documentation, Iterative Testing

DESIGN APPLICATIONS: Figma, Sketch, Photoshop, Illustrator, Premiere, SharePoint, Mural, Adobe XD, Blender, Autodesk Maya, Microsoft PowerPoint, Microsoft Excel

TECHNICAL TOOLS: HTML, CSS, JavaScript, jQuery, Java, Confluence

EXPERIENCE

UX Designer

Charles Schwab, Austin, TX

5/2019 - 01/2024

Hired as junior specialist and promoted to senior specialist to create design systems, content strategy, user-centered solutions, and internal tools optimization.

- **Visual Design:** Reduced design turnaround time 50% and enhanced productivity by creating new Figma-based scalable design systems and streamlining UX processes.
- **Project Management:** Led the design team to meet deadlines to deliver branded assets for the technical proficiency program that served over 500 employees annually. Used iterative and Agile design techniques to ideate and refine brand assets.
- **UX Design & Research:** Designed intuitive, visually engaging interfaces that prioritized usability and accessibility. Collaborated with cross-functional teams, conducted comprehensive content audits, and utilized user insights to deliver a redesign that improved task efficiency and user satisfaction for 600+ HRT employees.
- **Leadership:** Led the design and implementation of a centralized hub cataloging accessibility resources, fostering inclusivity and productivity for over 30,000 employees.

- **Communication:** Delivered over 20 presentations showcasing post-redesign improvements through compelling visuals, quantitative metrics (e.g., increased page viewership), and qualitative testimonials, securing buy-in for future design initiatives.
- **Continuous Improvement:** Led a learning initiative with 5 team members, advocated for updated team processes, and encouraged professional development, fostering engagement and a culture of continuous learning.

Research Assistant

Purdue University UXP2 Lab, West Lafayette, IN

08/2018 - 05/2019

Advanced ethical design research funded by the National Science Foundation, shaping industry practices around dark patterns in UX.

- **Data Synthesis & Quantitative Analysis:** Analyzed 1,000+ user posts to identify recurring pain points and ethical concerns, synthesizing insights that informed ethical UX design strategies.
- **User Advocacy:** Identified how manipulative design techniques impact user behavior, advocating for transparency and user-first principles in interface design.
- **Multimodal Research:** Expanded the scope of dark pattern analysis to include physical artifacts, providing a foundation for ethical design in both digital and physical interfaces.
- **Presentation Skills:** Delivered actionable insights and recommendations for ethical UX design at the premier HCI conference, influencing education and professional practices in the field.
- **Communication & Ethical UX Advocacy:** Co-authored research that underscored the importance of ethical considerations in UX design and proposed strategies for improving design standards across industries. Read the paper: [“Nothing Comes Before Profit”: A**hole Design in the Wild](#).

EDUCATION

Bachelor of Sciences in User Experience Design

Purdue University, West Lafayette, IN

Minors: Communication & Psychology Dean's List

Agile MBA

2025

CERTIFICATIONS

Scrum Master

2024

Issued by ScrumAlliance.org

Professional Scrum Developer I

2021
