SUMMARY

Full Stack Developer with over 4+ years of experience in designing, developing, testing, and deploying web applications in dynamic, high-pressure environments. Proven expertise in Java, JavaScript, React.js, Node.js, and cloud technologies, with a focus on the financial and healthcare industries. Adept at building scalable and secure microservices architectures and optimizing customer experiences through clean, production-ready code. Skilled in continuous integration and deployment (CI/CD), using tools such as Jenkins, Docker, and Kubernetes, and experienced with cloud services (AWS EC2, Lambda, S3) to drive digital transformation.

PROFESSIONAL EXPERIENCE

OPTUM | Full Stack Java Developer
USA

Oct 2022- Present

- Led the development of a healthcare data exchange platform, optimizing performance, adding new features, and ensuring compliance with the latest healthcare regulations (HIPAA).
- Designed and developed RESTful APIs to enhance communication across the platform.
- Automated data collection and analysis for the threat intelligence platform using Python, SQL, and Apache Airflow.
- Maintained a secure, scalable healthcare management system using Java, React.js, and Redux.
- Utilized AWS (EC2, Lambda, S3) to deploy, scale, and manage cloud-based solutions.
- Performed system analysis and provided optimization suggestions for legacy code and database queries to improve system reliability and performance.
- Collaborated with cross-functional teams to ensure agile delivery of features aligned with business goals.
- Conducted code reviews and mentored junior developers to ensure code quality and best practices in performance and security.

CTS | Java Developer
India

Jan 2019- July 2021

- Developed and enhanced an online banking platform, focusing on delivering secure, scalable solutions to handle high transaction volumes.
- Created responsive, user-friendly interfaces with React.js, ensuring seamless interaction between the frontend and backend.
- Automated CI/CD pipelines using Jenkins and Docker, accelerating the deployment process and minimizing downtime.
- Integrated third-party APIs while ensuring compliance with security best practices.
- Performed root cause analysis and implemented solutions to enhance system performance and prevent downtime.
- Collaborated with DevOps teams to implement continuous integration and deployment practices, ensuring the rapid release of new features and patches.

TECHNICAL SKILLS

Web Technologies: HTML/HTML5, CSS3, CSS, XML, JavaScript, AJAX, jQuery, JSON, Bootstrap

Methodologies: Agile/Scrum, Waterfall

Languages: Java, C++, Python, C#, TypeScript

Front-End Technologies: Angular.js, Vue.js, React.js

Databases: MySQL, PostgreSQL Server, JDBC, NoSQL, MongoDB

Frameworks: Spring Boot, Angular, Docker, Hibernate, Kubernetes

Back-End Technologies: Node.js, Java, .NET, Express.js

Development Tools: Visual Studio Code, IntelliJ, Eclipse, Spring Tool Suite, Postman, SOAP UI, Jenkins, JIRA, Confluence

Cloud Platforms & Version Control: Amazon AWS, Microsoft Azure, Google Cloud, Git, GitHub, GitLab

EDUCATION

Bachelor of Technology
Jawaharlal Nehru Technological University

May 2019
Hyderabad, India

Master of science in Information Studies
Trine University

Dec 2022
MI, USA

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Oracle Certified Java Programmer (OCPJP)
- Certified Scrum Developer (CSD)
