

MARIUS A. DICU

Destin, FL | U.S. Citizen

(850) 733-6699 | marius.mdicu@gmail.com

PROFESSIONAL SUMMARY

Results-driven and AWS-certified Software Development Engineer in Test (SDET) with 6+ years of experience in automation and manual testing across Agile and Waterfall environments. Proficient in Functional, Regression, Smoke, API, Mobile, and Database Testing. Demonstrated success in designing and maintaining automation frameworks using Selenium, Appium, Cucumber (BDD), and TestNG. Skilled in REST API testing with Postman and REST Assured. Adept at CI/CD implementation via Jenkins and Azure DevOps. Strong Java programming background and SQL proficiency with hands-on experience across MySQL, Oracle, Microsoft SQL, and cloud-based testing environments (AWS, Azure). Collaborative team player with excellent communication and documentation skills, experienced in Agile Scrum Ceremonies including Sprint Planning, Daily Stand-Up, Grooming, Demo, Sprint Review, and Sprint Retrospective.

TECHNICAL SKILLS

- **Languages & Scripting:** Java, SQL, HTML, XML, JSON, Gherkin
- **Testing Tools:** Selenium WebDriver, Selenium Grid, Appium, Appium Inspector, Playwright, JMeter, Postman, REST Assured, JDBC
- **Frameworks:** Data Driven Testing (DDT), Behavior Driven Development (BDD), Page Object Model (POM)
- **Build/CI Tools:** Maven, Jenkins, Azure DevOps
- **Test Management & Bug Tracking:** Jira, Jira Xray, PractiTest
- **Version Control:** Git, GitHub, Azure DevOps
- **IDEs & Development Tools:** IntelliJ IDEA, Visual Studio, Sublime, Android Studio, Xcode
- **Cloud Platforms:** AWS (EC2), Microsoft Azure
- **Reporting Tools:** HTML Reports, Cucumber Reports, Extent Reports, Log4j2, Allure Reports
- **Databases:** MySQL, PostgreSQL, Oracle, Microsoft SQL Server, AWS RDS, Azure
- **Methodologies:** Waterfall, Agile (Scrum, Kanban)

WORK EXPERIENCE

Jackrabbit Technologies

Charlotte, NC

Software Development Engineer in Test (SDET)

Aug 2022 – Present

- Collaborate with QA Engineers to develop effective strategies and test plans.
- Prepared Test Plans, Test Scripts and Test Cases based on functional specifications and user requirements. TestNG Maven POM BDD DDT HTML
- Reported bugs and errors to development teams.
- Coordinated with developers and recorded defects in Jira/PractiTest to track until they are resolved.
- Generated detailed test reports using TestNG, Cucumber and Extent Reports, providing insights into test outcomes and areas for improvement.
- Designed and implemented automation frameworks for UI using Selenium.
- Developed and execute Mobile automation tests with Appium for both Android and iOS applications, ensuring functionality across devices.
- Leverage REST Assured for comprehensive API testing.
- Conducted database testing using SQL queries to verify data integrity and interactions between applications and database.
- Configured CI/CD pipelines in IntelliJ IDEA with integration to Azure DevOps, automating the execution of test suites.

Rotech Healthcare

Orlando, FL

Software Development Engineer in Test (SDET)

May 2020 – Aug 2022

- Followed the Agile methodology and participated in all the Scrum ceremonies such as Grooming, Sprint Planning, Daily Standup, Demo, Review Meeting and Sprint Retrospective to understand the business and testing requirements.
- Involved in various meetings with Business analysts and developers.
- Conducted Functional Testing, Regression Testing using Selenium with a Data Driven Framework. API Backend POM HTML Selenium WebDriver POSTMAN REST
- Created automation test scripts using a Data Driven Framework and Page Factory model to test the web application using Selenium WebDriver with Java and Maven.
- Involved in developing Cucumber BDD Framework with JUnit from scratch.

- Used Selenium web elements locators such as ID, Name, Class Name, Tag Name, Link Test, Partial Link Test, XPath and CSS Selector in HTML code to test the web applications under test. Smoke Regression CICD
- Involved in Web Services Testing using REST API with REST Assured and Postman.
- Conducted Database testing using SQL Queries and JDBC libraries.
- Experienced in Mobile Automation testing using Appium, with proficiency in utilizing Android Studio and Xcode.
- Implemented automated execution of Smoke and Regression testing using CICD tool Jenkins. Jenkins JDBC AWS Git GitHub
- Performed parallel browser functional testing using Selenium Grid with Docker containers.
- Utilized Visual Studio as the primary IDE for developing, maintaining, and version-controlling automated test scripts using Git for seamless collaboration.

Verizon

Tampa, FL

Software Development Engineer in Test (SDET)

Feb 2018 – May 2020

- Involved in analyzing system requirements, design, development and execution of Test Plans and Test Cases for Manual and Automation Testing.
- Experienced in IntelliJ IDEA to develop Java codes to automate tests.
- Used Git Version Control tool and GitHub as a remote repository.
- Designed, developed and implemented Page Object Mode (POM) based on an automation testing framework utilizing Java, Selenium WebDriver, Maven in TestNG.
- Tested applications in different types of browsers such as Internet Explorer, Firefox and Google Chrome. Web Services Testing
- Performed API Backend testing by using REST Assured libraries for automation and POSTMAN for manual testing with Get, Post, Put, Patch and Delete methods.
- Utilized Apache POI jar file to read test data from the excel spreadsheets.

CERTIFICATIONS

- **AWS Certified Solutions Architect – Professional**
- **Professional Scrum Master™ I (PSM I)**
- **Professional Scrum Master™ I (PSM II)**
- **PractiTest Certify User**
- **JMeter**
- **Devops Fundamentals for SDET**

OTHER COMPETENCIES

Flutter apps, Deep Links, BrowserStack, Homebrew, Node.js, NPM, Appium Doctor, UIAutomator2, XCUITest, Allure Reports, TestNG Reports, PDF Reports, JSON Reports, Code Signing, WebDriverAgent (basic automatic/manual configuration), Appium CLI Driver Management, WebView Automation, Ability to Build Framework from Scratch, Postman Automation Scripts, Bash Scripting, Scrum Framework, Organizational Design and Culture, Product Backlog Management, Product Backlog and Product Goal, Forecasting and Release Planning, Microsoft 365, Problem-solving using Data-driven Insights, Process Improvement, Data Analysis and Reporting, Technical Troubleshooting, CRM Software, Oracle Database, Microsoft Access, Slack, Canva, Salesforce, Project Management Tools (Jira, Confluence, MS Project), Miro, Discord, Notion, TeamViewer.

SOFT SKILLS

Verbal and Written Communication Skills, Excellent Interpersonal Skills, Organization Skills, Ability to Prioritize, Decision-making, Multitasking, Creativity and Innovation, Strategic Thinking, Networking, Stress Management, Self-Motivation, Conflict Resolution, Stakeholder, Cross Functional Teams, Teamwork and Collaboration, Leadership Skills, Problem-Solving & Critical Thinking, Time Management & Organization, Work Ethic & Professionalism, Adaptability & Resilience, Active Listening, Scrum Values, Facilitation, Navigating the Workplace with Emotional Intelligence, Navigating Other People's Emotions, Navigating Your Own Emotions
