Riyadh, 12211, Saudi Arabia

Phone (M): +966 559034101, +91 7003557856

mdkausarsharib@gmail.com

Looking forward for a dynamic environment that engages my enthusiasm of developing web app
from conception to development

TECHNICAL SKILLS

• Skill in

- **Javascript**,TypeScript,,Node js,Deluge,Python
- HTML5,CSS,BootStrap,**MUI,JSON,REST API**, JWT,Wordpress
- **Firebase**,MongoDB, Google Analytics,SEO,Vercel

Framework/library experience on

- React.js,Next js, Node.js
- Angular.js

• Tools

- VS Code,Postman,Git, Swagger ,SourceTree, Zoho

Around 3+ years of experience in the Tech Industry, from early stage startups to big public multinational companies managing and empowering engineering teams locally and globally from small to large

EXPERIENCE

SOFTWARE ENGINEER

Hallek technology (Riyadh(on-site)- Saudi Arabia)

June 23 – Present

Project work on –Full Stack Developer

Description

- Developed and maintained multiple high-traffic web applications using React, TypeScript, and Node.js, improving user experience and application performance.
- Designed and implemented RESTful APIs and integrated them with front-end components, leading to a 30% increase in application efficiency.
- Utilized Firebase for real-time database solutions and user authentication, enhancing application scalability and security.

Zoho CRM/Creator Implementation and Customization:

- Implemented comprehensive CRM solutions for multiple clients, transitioning their operations from reliance on Excel for data management to fully integrated Zoho CRM systems.
- Developed **custom Deluge scripts for automation**, including profit margin calculations and approval workflows, tailored to the unique needs of each client
- Integrated client **Websites,Social Medial,Whatsapp** with Zoho CRM, enabling

seamless data synchronization and enhancing customer interaction

Integration with Third-Party Services:

- Integrated Zoho CRM with third-party services such as SignIT (a digital signature company), Oracle, and custom third-party applications using REST APIs. • Integrated e-commerce applications such as Shopify and Zid with **Zoho Books** and **Zoho Inventory**, facilitating automated order management and inventory tracking.

Zoho Creator : Custom software solutions using Zoho Creator, leveraging Deluge scripting expertise to tailor applications to specific business requirements

Client: MISpay

Project Description: Developed a web application integrated with CRM, implemented an approval process system, and integrated with a digital signature company to streamline and automate business operations, enhancing workflow efficiency and security

SOFTWARE ENGINEER

Nihilent technologies (Dec 2021 – June 2023)

- Project worked on – CMS

Client: CMS-USA:

Project Description:

- Designed and developed a web-based content management system (CMS) using React.js, Redux, and Node.js The project is a task management system for state government

- Project worked on – Open Banking

Client: Publicis Sapient

Project Description:

- The development of an Open Banking application that enabled users to securely access and manage their kyc,PAN verification financial information from multiple banks in one place.

Responsibilities:

- Identified web-based user interactions and developed highly-responsive user interface components via React concepts
- Built cross-browser compatible and accessibility compliant websites, resulting in 22% faster load time than industry average.

• I used **React.lazy** and **Suspense** to optimize the loading of large components or modules, reducing the initial load time of the application. • Developed the Front-End and User Interface of applications using

Javascript, ES6. React, and Redux

- Built Node server using Node.js with Express.js to populate the data on webpage

Used **React.js library functions** for the logical implementation part at client side for all the app, used Shallow copy

- Translated designs & wireframes into high-quality code and wrote application interface code **via JavaScript following React.js workflows** • Used **Node.js** to run **Webpack** tasks and build properly the project • **API integration and validation** of form using **formik**, **react-hook-form** • Implemented REST API using **Node.js**, **Express.js**.
- Developed Single Page web applications and a chat application using MERN stack technologies like **socket.io**

SOFTWARE ENGINEER

MedOPD Pvt. Ltd

July 2020 – Dec 2021 /Noida

Project work on – eCommerce Web Developer

Description

- Used understanding of React fundamentals to promote better component lifecycle practices, increasing turnaround speed by 23% with 100% deadline adherence.
- I used **React.lazy** and **Suspense** to optimize the loading of large components or modules, reducing the initial load time of the application
- Designed multiple dynamic and browser compatible pages using **HTML5**, **CSS3**, **Javascript** (**React**, **Redux**).
- Monitored social media and Google SEO analytics to adjust post time, location, and various media to grow target platform
- Google Cloud administrator
- Digital Marketing(Social media marketing)

TRAINING

Dec 2020: React Training in N.A technologies

EDUCATION

2016 - 2020: ACADEMY OF TECHNOLOGY, HOOGHLY

BACHELOR OF TECHNOLOGY IN INFORMATION TECHNOLOGY 7.45 CGPA

Project:

- Created News App (fetching Api) using google cloud-firebase

Achievements:

- February 2019: Winner in Inter-College Innovation tournament organized by IIM, Kolkata

2015: Children Pradise Sr. Sec School

HIGHER SECONDARY EDUCATION, 67.4%

2013: Maa Bharti public School

SECONDARY EDUCATION, 9.4CGPA

CERTIFICATIONS

- **React Certification (Full Stack Web Development) | 2021**CodeBlue
- **Google Analytics Individual Qualification | 2020** . Google
- **Certified on completion of Java training | 2019**. Oracle
