WORK EXPERIENCE

Senior Data Architect Shane Co

09/2023 - Present

Denver, CO

Achievements/Tasks

- Migrated SAP BW4/HANA using a modern data stack (Snowflake, Sigma Computing, Coalesce, Fivetran), saving 68% of the budget and boosting development efficiency by 75%.
- Developed the ETL pipeline for Inventory, Sales, Purchasing, and Shop Job data in Snowflake using Coalesce.
- Reduced inventory load times in the legacy system from 3 days to 45 minutes and sales from 1 day to less than 5 minutes in the modern platform.
- Automated the employee incentive program, providing clarity, accuracy, and efficiency.
- Developed front-end reports in Sigma, guided business users in navigating them, and provided training on their effective use.

IT Sr. Reporting Architect Hunter Douglas, Inc.

06/2015 - 09/2023

Denver, CO

Achievements/Tasks

- Managed SAP HANA 2.0, SAP BW, SAP Data Services, SAP BOBJ, and SAC. Understand the Business Requirements & architecture the technical design to implement it & deliver it as a team.
- 5+ Years of developing extensive experiences in SAP ABAP CDS Views and also enchaining Standard CDS Finance & Sales view to accommodate Business Requirements.
- Implemented End-to-End Native SAP HANA that includes Real-Time Data from the S4 system, HANA Calculation views, Flow graphs, Store Procedures, HANA Admin, and Security.
- Lead the team of Developers responsible for implementing SAP HANA, Data Services, Business Objects, SAP Analytics Cloud Models, and Information Steward.
- Monitored System Performance for expensive queries and day-to-day activities, guided team to make technical changes to help consume less memory by 50% or more & run reports 5x faster. Reduced the ACDOCA storage by 30% of memory.
- Primary resource for Global Reporting Project - which combined data from multiple Companies and delivered as one Global reporting system.
