PROFESSIONAL SUMMARY

- SAP Consultant with 5+ years of experience in implementing, optimizing, and supporting SAP S/4HANA Sales & Distribution (SD) and Order-to-Cash (OTC) solutions, driving process efficiency, business transformation, and operational excellence for global enterprises.
- Expert in SAP S/4HANA configurations, including Business Partner (BP) setup, Sales Document Management, Pricing, Revenue Account Determination, and Credit Management, ensuring seamless integration with Finance (FI), Materials Management (MM), and FSCM.
- Proficient in end-to-end OTC and SD process automation, covering Intercompany and Intracompany Stock Transfers, Third-Party Order Management, Consignment, Returns Processing, and Debit/Credit Memo Handling, optimizing global supply chain operations.
- Experienced in SAP Data Migration & Automation, utilizing LSMW, BDC, IDocs, and AL11 to streamline master data uploads, resolve interface errors (EDI, API integrations), and enhance system accuracy while ensuring compliance.
- Skilled in system integrations and Agile-driven SAP implementations, working with SAP OTC solutions, FSCM, EDI, and API-based integrations to improve order fulfilment, automate billing processes, and support large-scale SAP S/4HANA transformations in cloud and on-premises environments.

EDUCATION

Master of Science in Business Analytics

Saint Peter's University

May 2023 - May 2025 | Jersey City, NJ

SKILLS

SAP Modules: SAP SD, SAP OTC, SAP MM, SAP FI, SAP LE

SAP Tools & Technologies: SAP ECC, SAP HANA, SAP Fiori, SAP IDocs, BAPI

Order-to-Cash & Logistics: Sales Order Management, Pricing & Billing, Credit & Debit Memos, Third-Party& intercompany Sales, Stock Transfers, Variant Configuration

Integration & Data Migration: IDocs, Master Data Management, Data Mapping

Testing & Deployment: UAT, Regression Testing, System Integration Testing

Project Management & Support: SAP Implementations, Enhancements, Post-Go-Live Support, Rollouts, Incident Management

Reporting & Analytics: SAP Smart Forms, Fiori Reports

PROFESSIONAL EXPERIENCE

Deloitte

Jun 2025 – Present | Jersey City, NJ

SAP Consultant

- Optimized SAP OTC processes by configuring ECC-based sales order automation, advanced pricing rules, and revenue recognition models, improving order processing efficiency by 28% and enhancing financial reporting accuracy for audits.
- Led SAP ECC to HANA migration by implementing structured data transfer methodologies using IDocs and BAPI, achieving 99.9% data accuracy in master records, minimizing downtime, and ensuring a smooth transition with minimal disruptions.
- Enhanced SAP Fiori UI components, improving user experience for order management, invoicing, and real-time sales tracking, reducing manual entry errors by 25%, and increasing process efficiency across multiple business units.
- Developed and optimized complex SAP HANA queries, implementing efficient indexing strategies to reduce data retrieval time by 40%, improving reporting performance and ensuring scalability for large datasets.
- Configured and launched IDoc-driven automated order processing solutions, eliminating invoice mismatches, improving data accuracy, and reducing settlement delays by 30%, ensuring seamless integration across multiple sales channels.
- Strengthened role-based security controls in SAP ECC, refining authorization models to ensure SOX compliance, reducing unauthorized system access risks, and enhancing audit readiness for regulatory compliance teams.
- Executed comprehensive testing cycles including functional, regression, and UAT testing for SAP ECC and Fiori enhancements, increasing deployment success rates to 98%, minimizing post-go-live defects, and improving system stability.

Sonata software Ltd

Aug 2022 – May 2023 | Bangalore, India

Functional Consultant

- Delivered SAP SD solutions for client implementations, optimizing contract management, automated billing, and streamlined shipping workflows, improving operational efficiency by 30%, reducing manual effort, and ensuring better regulatory compliance.
- Developed functional requirement documents for SAP enhancements and customizations, aligning system capabilities with business needs, collaborating with cross-functional teams, and streamlining approval workflows to reduce errors by 40%.
- Investigated and resolved high-impact transaction data issues across sales orders, deliveries, PGI, and invoicing, improving financial data accuracy, minimizing reporting errors, and ensuring compliance with corporate audit standards.
- Coordinated with SAP MM and FI consultants to address cross-functional integration challenges, ensuring procurement, sales, and finance modules operated smoothly, reducing system discrepancies, and improving business process alignment.
- Led month-end and year-end financial closing activities, reconciling SAP SD transactional data with corporate financial records, improving accuracy by 20%, reducing post-closing adjustments, and ensuring regulatory compliance with audit standards.
- Configured SAP Variant Configuration (VC) for complex configurable materials, defining characteristics, dependencies, and pricing procedures for make-to-order scenarios. Reduced order processing errors by 35% and enabled accurate ATP checks across diverse product variants.

Accenture

Jan 2019 – Jul 2022 | Hyderabad, India

SAP Associate Consultant

- Configured and fine-tuned SAP SD & OTC processes by assisting in sales order automation setup, improving workflow efficiency by 25%, reducing manual data entry, and ensuring faster order fulfilment for customers in various regions.
- Implemented pricing and billing configurations using SAP Condition Techniques, optimizing discount and tax calculations, reducing errors by 20%, and ensuring accurate invoice generation across multiple pricing scenarios and business units.
- Optimized SAP query performance in SAP HANA and ECC by refining indexing strategies and SQL queries, reducing data retrieval time by 30%, enhancing system efficiency, and ensuring faster report generation for real-time decision-making.
- Conducted UAT, regression, and integration testing for SAP SD and MM modules, creating detailed test cases, identifying defects, and ensuring 98% issue resolution before deployment to production environments with minimal disruptions.
- Automated master data migration using SAP IDocs, LSMW, and BAPIs, improving data consistency by 35%, reducing manual transformation efforts, and ensuring seamless data transfer across SAP systems without data loss.
- Assisted in configuring SAP EDI and IDocs for order-to-cash (O2C) and procure-to-pay (P2P) processes, improving data exchange reliability by 25%, ensuring smooth communication with vendors, and reducing transaction disputes across global supply chains.
- Designed and supported SAP intercompany and third-party sales processes, improving order tracking accuracy, reducing invoice mismatches, and ensuring compliance with company financial policies and international trade regulations.
- Provided post-go-live SAP support by resolving functional and system-related user issues, documenting solutions, and ensuring business continuity with minimal operational disruptions, boosting user productivity by 30%.
