SUMMARY

- With over 10 years of IT experience in SAP ECC, S/4 HANA platforms as SAP ABAP S/4HANA/FIORI consultant.
- SAP Project Experience in 8 End-to-End Implementations, 3 Upgrade & 3 Support Projects. Having End to End experience in implementing S/4 HANA (Brownfield implementation) & support Business Process flows with strong understanding of Business Requirements, and System Analysis.
- Strong expertise in application development using **ODATA, FIORI, REST APIs, CDS Views, AMDP Methods, RAP framework, SAP NetWeaver Gateway, SAP HANA and ABAP 7.4/7.5 Syntax**.
- Strong experience in SAP Functional Modules like Finance & Controlling(**FICO**), Materials management(**MM**), Sales and Distribution(**SD**), Plant maintenance(**PM**), Supply Chain management(**SCM**), Order to Cash(**OTC**), Quality management(**QM**), IS-U Retail Modules..
- Extensively worked on various areas of ABAP such as Data Dictionary, Data Migration, Reports, Enhancement Framework, BADI, BTE, OSS note implementation, ALV, USER Exits, Module Pool programming, Smartforms, Adobeforms, Conversions, Interfaces.
- Strong expertise in **ABAP Objects, Performance Tuning, ABAP Debugging, SQL Tracing, Runtime Analysis and Web Services**.
- Expertise in developing **NetWeaver Gateway** Services and integrating Gateway **OData/JSON** services with **UI5 Apps**.
- Collaborated with BASIS and Security team for setting up all authorization and roles, establishing Connections between SAP HANA Server and Frontend ABAP server and Web Dispatcher.
- Expertise in SAP UI5 and **Fiori Launch pad configuration** including Transactional, Factsheet and Analytical & Smart Business apps and creating catalogs and groups assigning to Roles.
- Developed complex **Workflows, Webdynpro** and **Adobeform** for various applications and expertise in troubleshooting workflows.
- Native HANA XS application development to read tables in HANA database using HANA Studio.
- Mentored and trained junior developers on coding standards in ABAP.
- Good exposure in full development lifecycle (SDLC) implementation of R/3 and S/4HANA using Agile, SCRUM, ASAP, Waterfall methodologies.
- Strong experience with sustain activities like go live and production support.
- Good working knowledge in Solution manager, ADO, CHARM process.
- Good exposure in **HCP(Hana Cloud Platform), BTP**.

TECHNICAL SKILLS

- **ABAP:** Data Dictionary (Tables, Views, Search Helps, Lock Objects, TMG, Authorization), Reports (ALV, Classical, Interactive), Enhancements (User Exits, Customer Exits, Menu Exits, Screen Exits, BADIs, Enhancement Framework, BTE, OSS Note Implementation), Module Pool Programming.
- **S/4HANA:** Complex CDS Views, AMDP Stored Procedures, UDFs, Performance Optimization, HANA Database, ABAP 7.5 Syntax.
- **Web Services:** OData Services, RESTful APIs (RAP), BAPIs, RFCs, ALE/IDocs, SOAP.
- **Workflow:** SAP Workflow, BRF+.
- **UI Technologies:** FIORI, UI5, Web Dynpro ABAP, Neptune Software, ITS Mobile for RF Devices.
- **Advanced ABAP:** BTP, HCP, OOABAP, RAP (RESTful ABAP Programming), ABAP on HANA, Debugging, SQLScript, DDL, DCL, DQL, EML, BDL.
- **Warehouse Management:** RF Device Configuration, Label Printing, Goods Movements postings.
- **Data Migration:** LSMW, BDC, Data Extraction, Conversions, Direct Input, Batch Input.
- **Forms:** SAP Scripts, Smartforms, Adobe Forms.
- **Functional Areas:** FI/CO, SD, MM, WM, PP, HR, PM, QM, IS-U.
- **Testing & Tools:** ABAP Unit Testing, Code Inspector, SAP Query, ATC Checks, SLIN, Eclipse ADT, SAP Web IDE, Postman, Solution Manager, ADO, CHARM.
- **Performance Tuning:** Excellent Debugging, Runtime Analysis, SQL Tracing, Extended program checks, Query Optimization, Parallel Processing, Memory Consumption Analysis.

WORK EXPERIENCE

I am working as Senior Technical Consultant at **Quadrant Technologies** from Nov 2023 to present.

I worked as Application Development Technical Lead in **Accenture Technology Solutions** from Oct 2017 to July 2022.

I also worked as Technical Consultant in **Cognizant Technology Solutions** from Sept 2015 to Oct 2017.

Previously I worked as Technical Consultant in **CapGemini** from Sept 2012 to Sept 2015.

WORK HISTORY

QUADRANT Technologies (Implementation&Upgrade)

Nov 2023 to Present

SAP Senior ABAP HANA FIORI Developer

- Worked on **ABAP, ABAP on HANA, RAP, CDS Views, ODATA Applications, FIORI**, and **SQLSCRIPT**, well versed with Eclipse ADT, BTP.
- Developed Applications as part of **SAP S/4HANA migration** for data processing, enabling faster and more efficient reporting

across business functions using **CDS views**, CDS Functions with Annotations, Associations & Joins, and managing roles & authorization.

- Designed and implemented a sales order management app using CDS and RAP that allows users to view, create, modify, and delete sales orders which reduced the processing time and improving operational efficiency.
- Developed Custom **ODATA Services** and integrated with **FIORI apps**.
- Developed various data dictionary objects as compatible to S/4HANA.
- Analyzing ABAP ECC programs and converting select Query into Procedures and consuming the same in ABAP through creating the HANA Procedure proxy.
- Developed AMDP procedures for saving harmonized data to HANA tables.
- Creating CDS views, External views, Creating AMDP for the storing the data into the tables.
- Designing, developing SAP UI5 Custom applications for Warehouses and Inventory modules.
- Configured SAP Fiori apps for FICO, MM and HCM Modules using Fiori Designer and SAP Web IDE.
- Conducted **performance tuning** and optimization for ABAP code, leveraging HANA-specific features like **Parallel Processing**, **Stored Procedures**, and using **ABAP 7.4 New Syntax**.
- Documented TS, UTCs and UTRs for custom Reports.

HALLIBURTON (Support & Upgrade)

May 2017 to July 2022

SAP Senior ABAP HANA FIORI Developer

- Worked on **ABAP & Web Dyn Pro, Neptune, BRF+, FIORI List reports, CDS Views, AMDP Methods, ODATA Applications**, and **ABAP 7.5 Syntax**.
- Data modeling using Custom **CDS views** and well versed in **REST/API services**.
- Design and develop CDS views, CDS Functions with Annotations, Associations & Joins, and manage Roles & Authorization.
- Integrating **FIORI apps** with **SAP backend systems**, ensuring seamless data flow and performance.
- Designed Business Objects (BOs) to manage customer-related entities like Address, Contact Information, and Customer Preferences.
- Worked on **S/4HANA** and **ECC integration** with BTP ABAP using RFC and **ODATA** services.
- Optimized the performance of ODATA services by implementing query **filters** and **pagination**.
- Implemented **SQL procedures** in SQL Script to push down the data fetching logic from application layer to HANA database layer.
- Implemented table, table types, and types, internal table in SQL editor in HANA Studio.
- Achieved the **nested selects in SQL scripts with scalar variables**, creating the Analytic privileges for the Authorization's in views.
- Implemented Attribute views for simple join conditions, Analytical views for the currency conversion and for Multiply Quantity and Amount and Calculation views for complex logic on tables with Union operations.
- Worked on critical issues in **Neptune** applications being used in project, enhanced and fixed the issues in time.
- Implemented ODATA apps in **HANA Studio** and by consuming Attribute views for the SAP UI5 implementation for final client output on Browser.
- Have worked on critical **BRF+** application enhancements, approval route enhancements, enhanced and developed new routes, new conditions.
- Have enhanced the MM01 T-Code to add the additional cable flag checkbox to indicate if the material is whether cable type or not.
- Developed **User Exits** for triggering proxies using function modules in Background tasks for LT01 upon PO creation & for LT06 T-code.
- Developed **Custom search help enhancement** for Equipment Bin location IE01 characteristics.
- Have designed and **developed a Report** to update classification data, Functional Location, Measuring Point and Partner details of an equipment number.
- Designed and developed a report to create request based on availability of HAL material and migrate the HAL materials to our materials by using BAPI's.
- Have created the **Transformations** for storage location and bin location details to convert into XML format and developed reports to Call the Transformations and to display as ALV or save XML data as Unix files.
- Have worked on **Proxies and application logs** creation and developed tools for migrating the entire Cable data of Summit such as equipment and batches into Halliburton, also developed tools for shipping goods from Summit, Returning, Receiving, Post receiving activities from Summit to Halliburton.
- Worked on migration of materials data of Summit into Halliburton.
- Developed interactive **module pool programs** for the batch and equipment ARTL characteristics update.
- Performance optimization of reports, reusable function modules.

ADNOC (Abu Dhabi National Oil Company)(Implementation&Upgrade)

Nov 2017 to May 2018

SAP ABAP HANA ODATA FIORI Developer

- Worked on **ABAP, WORKFLOW & FIORI** team responsible for developing Objects for the project.
- Developed ODATA services for FI module.
- Worked on Analysis of Business requirements, initial set up of **SAP Gateway**, Fiori Launch pad, trusted Connections b/n SAP System to SAP Gateway, Activating OData services using Task lists.
- Have done required Configurations for enabling **My Inbox**, Workflow Apps for **PR/PO** approval.
- Configured FICO and MM Apps including **Transactional, Factsheet, Analytical** and **SmartBusiness** apps on **Fiori launch pad**.
- Setting up all authorization and roles using PFCG.

- Developed an **SRN Service Entry Sheet workflow** enhancement on workflow design and logic with new additions in business logic.
- Worked on defects raised in **AFE workflow** to automate the AFE Carry-Forward process and AFE Surrender Issue validations and enhancements, Fixing AFE workflow errors.
- Developed Customer ageing report & Vendor ageing report to capture the invoice ageing details of Customer & Vendor.
- I have **implemented the SAP notes** 2615065 to rectify the short dump occurring upon Project/ WBS creation CJ20N.
- Have **implemented the SAP note** 1391319 and manual corrections for HR payroll screen to have an edit option on BCM flag in T-Code OPBM5.
- Developed a **Supplier Invoices Payment Cycle Report** to fetch details of suppliers open and closed documents and to display in ALV and additional style
- Formats in Excel download option using OLE functionality.
- Have enhanced the **OPEX budget report** to fetch yearly and monthly actual, consumed, commitment, total budget values and new additions in business logic.
- Worked on support tickets such as changing Royalty & Tax Report Reports.
- Worked on other support issues such as PP, FI objects and estimating the timelines to modify the reports to support multiple organizations.

AGILENT Technologies (Implementation&Support)

December 2016 to October 2017

SAP ABAP & WEB DYN PRO Developer

- Worked on **Ariba interface program** Preferred Supplier Tool **web dyn pro application**.
- PS Supplier tool had critical defects reported by the user, fixed all the defects and also re designed the tool at item level Start date re design/ disable functionality, also worked on PS Ariba interface program to send only required suppliers to Ariba system.
- Worked on FI02& XK02 Swift field **implicit enhancement** to disable the edit access.
- Implemented **OSS Note** 2056384/2039502 to fix the F110-Payment Run screen error, OSS Note 2088382 to fix the VF03 error when cancelling the Billing Invoice and releasing to accounting.
- Worked on report FBL3N enhancements to add Time Stamp on output by enhancing BKPF table and BTE.
- Had developed a new report for FBB1 TCode to post Journal Voucher documents.
- Enhanced the Trial Balance Report for India Gaap, US Gaap and Cost Center Wise.
- Worked on **Transit Time Accrual Report and Shipped Not Invoiced report**, which are BIG Reports from FI Module.
- Worked on to add Deactivation Date on **Depreciation Simulation Standard Report**.
- Worked on Revenue deferral report to add fields in output and to add company code on selection screen for sales, Enhanced Revenue distributor commission report.

COMMSCOPE(Implementation)

September 2015 to November 2016

SAP ABAP Data Migration Consultant

- Data Migration for various operations in FI.
- Developed **FI BADI** to update the Customer name and Vendor name in the FBL3N standard report.
- Adding new tab through FI BADI to update posting key from input file while posting FI open items for FB01. Implemented **SD User Exit** to pass Item Category based on items in VA01.
- Developed custom **reports for Accounts Receivable/Accounts Payable** data loads with BAPI for F-43 F-21 and also to upload GL Open Items and GR/IR items
- Developed **EHSM Report** to retrieve the Purchase Order, Material, Vendor details for incoming period.
- Have developed Check print for BANAMEX Mexico Bank, SCOTIA Mexico Bank.
- Post **Go-Live activities** and load, loading General Ledger Open Items into production system after Go-live and GR/IR items into production system.
- Have loaded Accounts Payables and Accounts Receivables open items into production system as a Go-Live Sustain activity.
- Modified custom Program to segregate postings of the CFOM project and Non CFOM - added functionality to post the FI documents for Inter Entity and External user.

VIRIDOR IS-U Module (Implementation&Support)

February 2015 to September 2015

SAP ABAP ISU Consultant

- Development of ENCO SAPScripts, Smartforms, Enhancements for IS-Utilities
- Member of billing team for providing post implementation SAP support to Business Users.
- Handling billing batches in the processing of EDIs as well as resolving processing queries.
- Worked on multiple **BADIs, SAP HANA systems, Applying OSS Notes**.

ITT CANNON (Implementation)

July 2014 to January 2015

SAP ABAP Data Migration Consultant

- Developed numerous data migration objects as part of this implementation project using **BDC, BAPI, LSMW** for **Material Master, Routings, Inspection Plans, Bill of Materials, Production versions, Product groups, Quality info records, Price list Master, Internal order balances** in MM, PP, QM, SD, CO areas.
- Also developed major Smart forms such as **Sales Quotation, Packing list, Certificate of conformance, Export compliance, Invoice, Credit/Debit, Pro-forma Invoice and sales order acknowledgement forms** in SD, MM, FI, GTS modules.
- **Radio Frequency device screen enhancements** in Warehouse management are Goods movement to scrap, Bin to Bin and Receive Production Order, **RF Guns device configuration** to activate the link to mobiles

- Integrated **RF devices** with SAP to streamline goods movement processes, ensuring real-time data synchronization.

NOVELL (Implementation)

December 2013 – July 2014

SAP ABAP WORKFLOW Developer

- Designed and developed Custom **Workflows** on Travel Management and Journal Document Posting.
- Implemented BTEs for FI Module.
- Implemented Interfaces, **BADI, BAPI, RFCs**, had an exposure in **OOPS**, Interacted with Onshore counterparts during **functional testing**.

LOUISIANA-PACIFIC (Implementation)

June 2013– September 2013

SAP ABAP Developer

- Implemented **USER EXITS** for EDI enhancements, Data upload using BDC programs using CALL Transaction and Session method for Routings, Bill of Material, Production versions.
- Data uploads using **LSMW** (Legacy System Migration Workbench) with the aid of Direct Input Programs and Batch Input sessions, Smart forms and driver programs, and had an exposure in **ALE/IDOCs**.

EDUCATION & ACHIEVEMENTS

B. TECH (Computer Science) From J.N.T.U Hyderabad with an aggregate of 78%.

Received **FY18 Q4 Outperform** award from Accenture.

Received **ABCD** (Above and Beyond Call of Duties) award from Cognizant.

Corporate Training: ABAP
