SUMMARY

Software Developer with a strong background in designing and developing scalable, responsive applications and optimizing performance, contributing to projects used by 200+ users. Experienced in creating dynamic user interfaces, integrating APIs, and collaborating within team-oriented environments. Also skilled in teaching technical concepts to over 500 students, fostering an understanding of programming and IT fundamentals. Recognized for academic excellence and a commitment to delivering practical, effective solutions.

EDUCATION

Heartland Community College

Web Design Skills Certification

Bloomington, IL, USA
August 2022- December 2023

Heartland Community College

Adult Education | Academic English Language Program

Bloomington, IL, USA
August 2021 – August 2022

Acharya Nagarjuna University

Master of Computer Applications (MCA)

Guntur, Andhra Pradesh, India
August 2003- July 2006

Acharya Nagarjuna University

Bachelor of Science in Computer Science

Guntur, Andhra Pradesh, India
August 2000- June 2003

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, TypeScript, PHP, Python, C, C++, jQuery

Frameworks/Tools: React, NodeJS, Git, Agile/Scrum, MySQL, Postman, AWS (CodeCommit, CloudWatch, Code Pipeline, DynamoDB, Lambda, S3), Bootstrap, Adobe Creative Cloud

Spoken Languages: Telugu and English

PROFESSIONAL EXPERIENCE

Gen3 Learning

Software Developer

Bloomington, IL
December 2022 – present

- Built complex forms using React.js components such as Steppers, Quill and other input elements to handle dynamic user input and validation
- Created responsive web pages using Formik and Yup to handle dynamic form elements and complex validations
- Developed scalable and maintainable code using TypeScript and React-Redux for state management
- Integrated APIs seamlessly into the frontend, implementing actions, reducers, and sagas for effective data flow
- Utilized Lazy Loadable to optimize routing and reduce the application's bundle size for faster load times
- Employed Git commands and Git Bash for version control and pushed commits to AWS CodeCommit
- Collaborated with the team to leverage AWS Cloud services for deployment and resource management
- Developed Lambda functions to integrate AI agents for tasks such as text generation, data processing, and event-driven automation.
- Utilized AWS services like API Gateway, S3, and DynamoDB to build scalable and event-driven workflows.
- Optimized Lambda function performance by leveraging CloudWatch for monitoring.
- Implemented RESTful APIs with API Gateway to expose AI functionalities for seamless frontend-backend integration.

Ziraff Technologies Pvt. Ltd.

Software Developer

Hyderabad, Telangana
March 2019 – May 2021

- Provided view models to API team
- Utilized Postman to manually test APIs
- Created front-end, business logic, client-side, and server-side validations
- Reviewed design documents of team members

Holy Mary Degree College
Computer Science Instructor

Hyderabad, Telangana
July 2017 – August 2018

- Taught Introduction to IT to Bachelor of Business Management (BBM) students, providing foundational knowledge in Information Technology to over 20 students.
- Conducted courses on C++ Programming for Bachelor of Computer Science (B.Sc.(CS)), focusing on object-oriented programming concepts and practical applications to 120+ students.
- Delivered lectures on Management Information Systems and E-Commerce for 100+ Bachelor of Commerce (B.Com. (Computers)) students, integrating business and technology concepts.
- Designed and taught a comprehensive syllabus on Database Management Systems (DBMS) for over 40 students in Bachelor of Computer Applications (BCA), emphasizing relational database design and SQL.
- Fostered an interactive learning environment that encouraged critical thinking and problem-solving skills across diverse student groups.

D.A.V. Public School
Computer Science Teacher

Hyderabad, Telangana
April 2016 – April 2017

- Taught foundational courses in HTML and QBASIC, introducing students to programming and web development concepts to over 200 students.
- Provided instruction on Microsoft Office and Open Office, equipping students with essential skills in word processing, spreadsheets, and presentations.
- Delivered lessons on Computer Essentials, covering topics such as operating systems, hardware basics, and internet safety.
