SUMMARY

Full Stack Developer with over 5 years of experience in designing, developing, and maintaining complex web and mobile applications. Proficient in both front-end and back-end technologies, including Java, Angular, JavaScript and Node.js. Demonstrated ability to lead projects, implement innovative solutions, and optimize application performance. Strong problem-solving skills, attention to detail, and a passion for learning new technologies.

SKILLS

Programming Languages: Java, JavaScript (ES6+), TypeScript, SQL, C

Front-End Development: Angular (v5 to v16), HTML5, CSS3, Bootstrap, React Native (Mobile Development)

Back-End Development: Java EE, Spring Boot, Node JS, RESTful APIs, Microservices Architecture, Hibernate, JPA

Databases & Caching: MySQL, MongoDB, Hazelcast (for caching)

Cloud& DevOps: AWS (Cognito, Lambda, SQS, S3), CI/CD Pipelines, Jenkins, Git

Additional Tools: Figma, JIRA, Puppeteer, Magnolia CMS, Stripe, LDAP, IntelliJ, Visual Studio Code

Methodologies: Agile (Scrum), Test-Driven Development (TDD)

EDUCATION

National Institute of Technology Karnataka (NITK)

Bachelor of Technology – Electronics & Communication Engineering

GPA – 8.63

Surathkal, India

July 2014 – June 2018

EXPERIENCE

Altisource

Full Stack Developer

Altisource (NASDAQ: ASPS) is a technology & services company specializing in software solutions for the mortgage & real estate industry.

Bengaluru, India

July 2018 – April 2024

- Contributed to full-stack valuation platforms (RentRange, NestRange) using Angular, Java, Express JS and MySQL integrating payment gateways like Stripe and Authorize.net and implementing secure LDAP authentication and RESTful APIs to ensure robust data protection.
- Architected and implemented scalable microservices using Spring Boot and Java 11, handling high volumes of API requests for property valuation services.
- Optimized platform performance for Equator® by refactoring legacy code and enhancing Angular front-end components, reducing page load times by 35% and improving user engagement.
- Single-handedly upgraded RentRange and NestRange applications from Angular 5/6 to Angular 10/16, refactoring codebases to align with modern best practices, resulting in significant improvements in performance, security, and user experience while reducing technical debt.
- Enhanced platform functionality by generating dynamic PDF reports using Node.js and Puppeteer, contributing to accurate market intelligence for real estate investors.
- Implemented distributed caching with Hazelcast, improving response times 2s to 500ms & reducing database load
- Developed an admin portal for monitoring users, organizations, and transactions (using Ag-Grid for interactive tables), and managing referral credits, reducing developer dependency, and boosting administrative efficiency.
- Collaborated with cross-functional teams in an Agile/Scrum environment, conducting code reviews, participating in sprint planning and retrospectives, and contributing to process improvements and best practices.

HONORS & LEADERSHIP

Two-time recipient of **Certificate of Excellence** - Altisource

Oct 2019 and Apr 2022

- Recognized for consistently exceptional performance and significant contributions to key projects.

General Secretary, Women's Affairs - NITK

July 2017 – May 2018

- Led initiatives and advocated for female students at one of India's top engineering institutions.
