## Professional Summary

Detail-oriented Product Designer with a solid background in creating intuitive digital experiences. Skilled in UX research, wireframing, and high-fidelity UI design, with hands-on experience in user-centered methodologies. Adept at collaborating with cross-functional teams to deliver solutions that enhance user engagement and satisfaction. Passionate about continuous learning and contributing to exceptional user experiences.

---

## Professional Experience

### Lead Product Designer

*Insurigo Inc*

Jan 2023 – Present

- Spearheading the end-to-end redesign of the Insurigo Inc website, conceptualizing and designing a vehicle buying platform under Insurigo LLC, using competitor analysis and customer insights for intuitive workflows.
- Transforming customer experience (CX) strategies by addressing feedback-driven pain points, leading to a 20% improvement in user satisfaction scores and higher retention.
- Partnering with engineering, product, and marketing teams to implement scalable, user-focused design systems aligned with business objectives, resulting in a 15% growth in adoption.
- Conducting usability testing sessions to enhance the platform's UI.

### Lead Product Designer

*Plus Capital / HUEX Pvt Ltd, Remote (Palo Alto, CA)*

Mar 2020 – Apr 2022

- Designed the UI and UX of the Plus Cash fintech application from 0 to 1, leveraging user interviews and iterative prototyping to address key customer pain points.
- Developed high-fidelity wireframes and UI prototypes using Tailwind CSS, implementing a cohesive design system that enhanced brand consistency and streamlined collaboration with developers.
- Created the Plus Cash marketing website, boosting initial lead generation by 20% through usability-focused content and visuals.
- Collaborated with a Wharton graduate and VC founder with three successful startups.

### Founding Product Designer

*Locoflow, Remote (Palo Alto, CA)*

Aug 2019 – Feb 2020

- Designed a geofence app and dashboard from the ground up, including visual identity and logo design, establishing a foundation for usability and appeal.
- Developed end-to-end user flows and interactive prototypes to enable seamless geofence tracking and actionable insights.
- Worked closely with engineering and product teams to ensure SDK integration and user interface components were scalable and aligned with the product vision.
- Contributed to a founding team with backgrounds at Google, Microsoft, and NVIDIA.

### Graphic Designer

*Sakshi, Remote (New Delhi, India)*

Aug 2018 – Nov 2019

- Collaborated on a project in partnership with the World Health Organization, contributing to the development of impactful visual communication materials.

- Created marketing and awareness campaign assets, ensuring brand consistency across print, social media, and event collateral.
- Introduced a standardized design workflow, reducing asset creation time by 25% and improving overall design quality.
- Conducted user feedback sessions on design prototypes, leading to optimized layouts that increased content reach and engagement.

### Design Generalist

*Zaveri Craft LLP, Remote (Bengaluru, India)*

Jun 2018 – Aug 2019

- Illustrated digital assets that boosted user traction by aligning design elements with emerging market trends.
- Supported brand and visual identity initiatives, creating cohesive design guidelines and templates for consistent customer-facing materials.
- Led the redesign of the company's e-commerce landing pages, resulting in a 15% increase in product page views and online conversions.
- Conducted A/B testing on color palettes and typography, fine-tuning visuals to enhance user satisfaction and brand recall.

### Package Designer

*Gomaata Organics*

Jan 2019 – Aug 2019

- Designed packaging for a new organic product range, aligning visual aesthetics with sustainability and brand messaging.
- Introduced eco-friendly solutions, reducing material costs by 10% and cutting packaging waste by 15%.
- Partnered with production teams and suppliers to ensure the packaging process complied with environmental regulations and maintained product freshness.
- Incorporated user feedback on packaging ergonomics to increase shelf appeal and improve the unboxing experience.

---

## Education
