SUMMARY

Software Flutter Developer with a Bachelor's Degree in Computer Science and 3.8 years of experience, skilled in crafting elegant mobile apps for **Android** and **iOS** using **Flutter**, **Dart**, **Firebase**, **Socket.IO**, and **Golang**. Experienced with **Git****Hub** for version control and efficient build/deployment using **Fastlane** and **Jenkins**.

TECHNICAL SKILLS

Programming Language : Flutter, Dart, Golang, C++, Kotlin, HTML, CSS
Framework & Developer Tools : JSON, Yaml, Fastlane, Jenkins, Git/Github, Figma, Postman, Thunder Client, Rive
Architectures : BLOC, Clean Architecture, MVC, MVP, MVVM
Methodologies & Principles : Object-Oriented Programming (OOP), DSA and Algorithms, SOLID Principles, Agile Methodology, SDLC
Tools & Technologies : Agora SDK, Flutter Flavors, CI/CD, Unit Testing

EDUCATION

Bachelor's Degree in Computer Engineering - SVIT Vasad	CGPA - 7 March 2015 - June 2019
Higher Secondary School - DZ Patel	70.13 (64%) June 2013 - May 2015
Primary & Secondary School - United School Vasad	93.52 (78.33%) 2013

WORK EXPERIENCE

Hostbook : Flutter Developer [Gurgaon, Haryana](#) | From Dec 2024 - Present

- **AAHAR-POS** : Mobile and desktop app development and software maintenance.

CodeHash : Flutter Developer (Remote) [Gurgaon, Haryana](#) | July, 2023 - July 2024

- Developed 8+ applications across e-commerce, shopping, fintech, marketplace and more.
- Followed the SDLC process for planning, designing, testing, deploying and maintaining software.
- Handled UI/UX design, API integration, payment gateway setup, bug fixing and unit testing.
- Delivered the project 10% ahead of schedule, achieving a 95% client satisfaction rate. Improving app development efficiency by 40% (in terms of faster feature delivery and reduced development time), and reducing bugs by 60%.

Smitech : Flutter Developer (Remote) [Remote - Vadodara](#) | May, 2022 - Feb 2023

- Created and developed high-performance, cross-platform mobile applications for Android and iOS using the Flutter and Dart framework.
- Participated in code reviews to ensure the quality and maintainability of the codebase.
- Managed the entire app development process, from design to implementation and publishing.

Kode-Creator : Flutter Developer [Ajwa, Vadodara](#) | March, 2021 - April 2022

- Developed and contributed to 15+ applications spanning e-commerce, social media, grocery, shopping, and service categories.
- Managed UI/UX design, API integration, payment gateways and state management.
- My efforts in updating, bug fixing, and unit testing helped the team deliver applications on time, boosting performance by 30% and reducing bug counts by 34%.

PROJECT

Diagnostic Elite : Hospital ticket management app for agents and clinics.

- Developed & optimized a hospital ticket management app, improving operational efficiency for agents, clinics.
- Integrated **Socket.io** for real-time **group** and **one-to-one chat**, increasing communication efficiency by **40%**.
- Streamlined **ticket management** (handover, pending, completed), reducing resolution time.
- Implemented **BLOC architecture**, enhancing performance and scalability.
- Improved **session management**, reducing issues by **30%**.
- Deployed **push notifications**, boosting user engagement by **25%**.

Technologies Used: Flutter and Dart, Firebase, BLOC architecture, Socket.io, Push Notifications.

Tercardia SmartDoc : Doctor consultant app for physicians & patients.

- App Development & Optimization: Managed full app lifecycle from design to deployment for a doctor-consultant mobile application, optimized for both performance and usability.
- Code Quality & Review: Led code reviews to ensure consistent codebase quality and best practices.
- Video Calling Integration: Integrated Agora SDK for real-time video consultations, with CallKit integration for smooth call management.
- Authentication & Session Management: Implemented Google and Apple (iOS) authentication with biometric session management for secure user logins.
- Multi-Environment Setup: Utilized Flutter Flavors to create different environments (Development, Staging, and Production) for efficient testing and deployment.

Key Features Developed :

- Virtual Signature for document signing
- Push Notifications for real-time communication
- Google Autocomplete for address and location suggestions
- Web Payment Integration for in-app transactions
- Multiple Language Localization to cater to diverse user bases

PROJECT LINK

- [EBuySugar](#) : E-commerce app for sugar sellers and buyers.
- [Tercardia Smartdoc](#) : Doctor consultation app for physicians and patients.
- [Vardimart](#) : E-commerce app for custom uniform and clothing buying.
- [Diagnostic Elite](#) : Doctor consultation app for physicians and patients.
- [Toy's App](#) : E-commerce platform for buying, sharing, and renting toys.
- [Biebol](#) : Social media and video calling app.
- [Turtle Seamen](#) : Grocery shopping and e-commerce platform.

SOFT SKILLS & INTEREST

- Communication Skill
- Intuitive sense
- Self-learner
- Problem-solving
- Adaptability
- Photography
- Gardening
- Gaming
- Travelling
