

Nitish Kumar Challa

Data Analyst

Houston, TX | nitishchalla97@gmail.com | +1 (616) 816 7551

SUMMARY

- Data Analyst with around 3 years of experience in data analysis, data visualization, and advanced statistical modeling.
- Proficient in using SDLC, Agile, and Waterfall methodologies to drive the successful delivery of data-driven projects, ensuring alignment with business goals and timelines.
- Expertise in programming languages including Python, R, and SQL, and adept at leveraging a variety of IDEs like Visual Studio Code, PyCharm, and Jupyter Notebook for efficient development and testing.
- Well-versed in working with powerful data science packages such as NumPy, Pandas, SciPy, and Scikit-learn to manipulate, analyze, and model large datasets.
- Skilled in creating clear, interactive data visualizations using Tableau, Power BI, and MS Excel to communicate insights and drive strategic decision-making.
- Hands-on experience with cloud technologies like AWS, Azure, and GCP, as well as managing databases including MySQL, PostgreSQL, and MongoDB for efficient data storage and retrieval.
- Proficiency in using Git, GitHub, and GitLab for collaborative development and efficient code management.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Language: Python, R, SQL

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

Packages: NumPy, Pandas, Matplotlib, Seaborn, SciPy, Scikit Learn, ggplot2

Visualization Tools: Tableau, Power BI, MS Excel

Cloud Technologies: AWS, Azure, GCP, DataBricks

Database: MySQL, PostgreSQL, SQL Server, Oracle, MongoDB

Version Control Tools: Git, GitHub, GitLab

Operating Systems: Windows, Linux, Mac

EXPERIENCE

CVS Health, USA

Jan 2024 - Current

Data Analyst

- Led data analysis projects using SDLC and Agile methodologies, delivering high-quality, data-driven insights on time and in alignment with business objectives.
- Utilized Python, including NumPy and Pandas, to clean, analyze, and manipulate 5M+ records, producing actionable insights and statistical models that drove key business decisions and improved operational efficiency by 20%.
- Created compelling visualizations with Matplotlib and Seaborn, enhancing data storytelling and supporting strategic decision-making with clear, easy-to-understand charts and graphs.
- Designed and deployed 10+ interactive Tableau dashboards, enabling stakeholders to explore key metrics and gain real-time insights, resulting in a 15% increase in data-driven decision-making across departments.
- Managed and analyzed large datasets using Excel, automating complex data processes and improving efficiency by 25% in routine reporting tasks.
- Leveraged AWS and GCP cloud platforms for data storage, processing, and analysis, streamlining workflows and improving system scalability, reducing data processing time by 25%.
- Worked with relational databases including MySQL, PostgreSQL, SQL Server, and Oracle to extract, query, and manipulate data, ensuring accurate reporting and insights.
- Executed version control with GitHub to manage code and collaborate with cross-functional teams, ensuring efficient and error-free project execution.

HCL Technologies, India

Jan 2021 - Jul 2022

Data Analyst

- Applied Waterfall methodology to manage and deliver complex data analysis projects, ensuring clear documentation, well-defined project phases, and timely delivery of insights.
- Conceptualized R and SQL for data manipulation, analysis, and reporting, working with large datasets to provide detailed insights and support data-driven decision-making.
- Produced advanced visualizations with ggplot2 in R, generating interactive and informative reports that helped stakeholders understand key trends and performance metrics.
- Developed 10+ Power BI dashboards, providing real-time visual analytics that enabled stakeholders to monitor key KPIs and track business performance, improving decision-making efficiency by 30%.
- Leveraged Azure for data storage, processing, and machine learning, and used DataBricks to process large datasets and run models, optimizing cloud workflows and enhancing analytics productivity.
- Managed and queried data in MongoDB, performing complex aggregations on 1M+ records and ensuring efficient storage and retrieval of unstructured data, reducing query processing time by 25%.
- Used Git for version control, ensuring efficient collaboration and code management across multiple team members on data analysis projects.

EDUCATION

Master's in Applied Computer Science

Grand Valley State University

Allendale, MI

Bachelor's in Electronics and Communication Engineering

R.V.R. & J.C.College of Engineering

Andhra Pradesh, India
