Professional Summary

Master's degree holder and results-driven **SAP FICO Consultant** with around 5 years of progressive experience in delivering comprehensive SAP solutions in **S/4HANA and ECC environments**. Specialized in configuring FI and CO modules including AP, AR, GL, AA, COPA, and new GL with document splitting. Adept in solution design, cross-functional integration with SD, MM modules, and end-to-end business process optimization. Strong collaborator with **ABAP developers** for technical realization when IMG configuration is insufficient. Proven expertise in **IDoc/EDI** integration, revenue recognition, foreign currency valuation, and third-party tax tools like Vertex/Sabrix. Skilled in training, QA support, and documentation, a problem-solver committed to optimizing SAP processes, troubleshooting issues, and enhancing operational efficiency through agile & waterfall methodologies.

Education

University of Central Missouri

Master of Science in Computer Science

01/2023 – 12/2024

Lee Summit, Missouri

Vignan Foundation for Science, Technology, Research

Bachelors in Electronics and Communication Engineering

06/2017 – 04/2021

Andhra Pradesh, India

Technical Skills

SAP Modules: SAP SD/OTC, SAP FI (AP, AR, GL, PCA, CCA, ML), SAP MM, SAP PS

Processes & Tools: Revenue Recognition (RAR), DMEE, IDoc/XML integration, EBS, Lockbox, Withholding Tax, Search Strings, Credit Management, Dispute & Collection Management, Convergent Invoicing

Tax & Reporting: Vertex, Sabrix, Withholding Tax, Intercompany processing, Special Purpose Ledger, GAAP Reporting, Foreign Currency Valuation & Translation

Project Management & Testing: JIRA, ServiceNow, Agile (Scrum), Waterfall, Unit testing, Integration testing, UAT

ERP Tools: SAP S/4HANA, SAP ECC 6.0, SAP GUI, BTEs, User Exits

Experience

Walmart

02/2023 – Present

SAP Functional Consultant (FI/CO)

- Participated in full lifecycle **S/4HANA implementation projects** with configuration of Accounts Payable, Receivable, General Ledger, and Profitability Analysis.
- Configured Automatic Payment Program with **DMEE tree structures and XML formats** for global payment execution. Integrated 3rd party tax solutions like **Vertex** for indirect tax determination and automated tax reporting
- Supported **Convergent Invoicing (CI)** process, ensuring alignment between billing, invoicing, and revenue recognition. Led the identification and analysis of process gaps between current-state (**As-Is**) operations and future-state (**To-Be**) SAP solutions, prioritizing gaps based on business impact, feasibility, and compliance risks.
- Managed revenue recognition and validation logic through CI, FICA processes, contributing to accurate P&L reporting.
- Designed and implemented custom enhancements using **ABAP (BTEs, User Exits)**, and collaborated with **ABAP developers** where **standard IMG configuration** was insufficient, ensuring end-to-end custom process automation.
- Developed test plans and supported **UAT, integration testing**, and defect resolution in SAP FI/CO modules.
- Coordinated **IDoc-based integration** between FICO and SD/MM modules, facilitating automated postings for intercompany transactions and vendor/customer updates.

Tata Consultancy Services

01/2021 – 12/2022

SAP Consultant

- Led the **full implementation lifecycle for SAP S/4HANA projects** by configuring and enhancing the Sales and Distribution (SD) and Finance (FI) modules, supporting end-to-end Order-to-Cash (OTC) processes including sales order management, delivery scheduling, pricing procedures, billing, and payment processing.
- Actively participated in **QA cycles**, reviewed and approved test plans, documented test cases, and supported integration and UAT phases, ensuring scenario coverage and defect resolution.
- Designed and implemented SAP enhancements using **Function Modules, User Exits, and BTEs** to fulfill custom reporting and automation needs. Supported tax on sales and purchases, withholding tax configurations, and ensured regulatory compliance through EDI-IDoc based third-party interfaces.
- Developed functional specs for custom reports and reconciliations, enhancing transparency in intercompany clearing and period-end activities. Integrated with SD and MM for smooth data exchange across modules, validating touchpoints such as **GR/IR, billing, and account determination**.
- Provided continuous **functional support and troubleshooting** for production systems, reducing downtime and ensuring timely resolution of incidents affecting the AR and billing operations.
