

PRANAV MIRKAD

UI/UX Designer

pranavmirkad9@gmail.com | 812-785-6185 | Indianapolis, IN | pranavdesign.framer.website

SUMMARY:

UX Designer with 4 years of experience creating user-centered, responsive interfaces and scalable design systems for e-commerce, enterprise, and creative platforms. Proficient in Figma, Adobe XD, and mixed-method UX research, with a proven track record of improving user engagement, conversion rates, and design efficiency through iterative prototyping, usability testing, and cross-functional collaboration. Adept at leveraging design thinking, accessibility principles, and data-driven insights to deliver impactful solutions.

SKILLS:

Design: - Wireframing, Prototyping, Design Systems, High-Fidelity Mockups, Journey Maps, UX/UI Design, User Goals, Product Design, Personas, Interaction Design, Storyboarding, Sketching, Information Architecture, Web Design, Responsive Design, Motion Design, User Flows, Visual Design, Animation, Design Thinking, Storytelling, Typography, Graphic Design, Color Theory, Accessibility, Material Design

Research: - Observations, Surveys, Card Sorting, Usability Testing, A/B Testing, Focus Groups, Experiment Design, Heuristic Evaluation, Competitive Analysis, Contextual Enquiry, Cognitive Psychology, Market Research

Tools: - Figma, FigJam, Sketch, Adobe XD, Adobe Creative Suite, Invision, Principle, Miro, Photoshop, Illustrator, After Effects, Jira, Trello, UserTesting, Powerpoint, Word, Excel, Unity, Blender, WordPress, Microsoft Suite, Google Analytics, Framer, Webflow, Wix, Tableau

Technical: - HTML, CSS, SASS, JavaScript, jQuery, XHTML, AJAX, JSON, React, Angular, Redux, Node.js, NextJS, C, C++, Java, Python, Bootstrap, AWS, Git

EDUCATION:

Master of Science - Human-Computer Interaction

May 2024

Indiana University, Indianapolis Indianapolis, IN

Bachelor of Technology - Information Technology

Oct 2020

Shivaji University Sangli, India

EXPERIENCE:

UX Designer| DXC Technology

Jan 2025 - Present

- Created mobile-first e-commerce interface prototypes using Figma and Adobe XD, applying motion design principles, reducing user drop-off rates by 30% through A/B testing and usability feedback.
- Performed mixed-method research, including contextual inquiries and card sorting with 40+ users, to develop personas and journey maps, improving checkout conversion rates by 15%.
- Facilitated cross-functional workshops with product and marketing teams using Miro and FigJam, aligning on brand identity and creating interactive prototypes that boosted user engagement by 25%.
- Synthesized qualitative data to create low and high-fidelity prototypes in Figma for an improved wayfinding system, incorporating visibility, clarity, and consistency in signage design.

Product Designer| Cohart

Sep 2023 - Dec 2024

- Conceptualized and developed an art price-advising tool for a web and mobile app (iOS and Android) for emerging artists, resulting in 78% of art pieces being accurately valued based on current market trends for an e-commerce platform.
- Expanded and refined the existing design system by developing and maintaining component libraries, creating 5+ new reusable components, and implementing design tokens aligned with brand guidelines across multiple platforms.
- Led user research initiatives that informed design decisions through interviews and surveys with over 50+ artists globally (including canvas artists, and 3D digital artists) to identify user behavior and patterns unique to marketplace users.
- Created workflows to map customer journey and interaction points, and developed wireframes, visual mock-ups, and interactive prototypes to define end-to-end customer activities for content-driven mobile applications.
- Performed usability testing sessions with 2D and 3D visual artists to gather feedback on the tool, resulting in an 80% user satisfaction rate.

User Experience Designer - NICE Ltd.

Jan 2021 - Jun 2022

- Designed and implemented a scalable user interface for a cloud contact center enterprise product, leveraging design system principles to increase overall efficiency by 25% and ensure consistency across the platform.
- Collaborated closely with Product Manager, Software Developers, and Product Designers to ensure the platform's UI aligned with user needs and technical feasibility in an agile software delivery environment.
- Created a digital omnichannel communication platform used by over 80,000 call center agents worldwide, integrating multi-channel support across Slack Connect, Microsoft Teams, and In-App Chat.
- Maintained and optimized existing APIs to achieve 99.99% uptime.

Software Engineer - Persistent Systems

Jan 2020 - Jan 2021

- Partnered with the Salesforce team to enhance a banking application, focusing on improving user experience and functionality.
- Developed and maintained web applications using Apex, Java, and Angular, ensuring high performance and scalability.
- Completed an in-depth AngularJS workshop, applying learned skills to develop a web application for university management, which streamlined administrative processes.
