SUMMARY

Driven software engineering graduate student with strong proficiency in full-stack development, mobile and web app creation, and infrastructure solutions. Skilled in writing high-quality, scalable code using modern languages such as Java, Python, and C++. Eager to contribute to innovative product development, leveraging in real-time data processing, API integration, and large-scale infrastructure systems..

EDUCATION

Syracuse University - College of Engineering and Computer Science

Master of Computer Science

Syracuse, NY

May 2025

Coursework: Assured Programming using Formal Methods, Design and Analysis of Algorithm, Artificial Intelligence

University of Mumbai, Atharva College of Engineering

Bachelor of Engineering in Information Technology

Mumbai, India

May 2023

Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems

WORK EXPERIENCE

American Academy of Infection Associated Chronic Conditions

Seattle, USA

Freelancer - Data Scientist, Web Developer & Mobile Application Developer

May 2024 – Present

- Developed a healthcare cost predictor system, analyzing over 50,000 patient records to accurately forecast costs
- "Led development of a healthcare cost prediction system, analyzing over 50,000 patient records using a relational database (SQL) and integrating it with a robust Android application, demonstrating proficiency in large-scale infrastructure and mobile application interfaces.
- Created a nonprofit group website focused on raising awareness about chronic diseases, collaborating with renowned doctors to regularly update content and provide insights that support data-driven decisions in patient care.
- Implemented offline functionality in the Android application, ensuring seamless user experience in areas with limited connectivity.

Worth A Shot

Seattle, USA

Freelancer - Data Scientist & Web Developer

May 2024 – Aug 2024

- Organized and structured extensive data provided by the client, ensuring a user-friendly interface and seamless navigation across diverse causes such as blood donation drives, hand hygiene, mental health, youth engagement, long COVID, and CPR & First Aid.
- Optimized for mobile, resulting in over 200 daily users, with a steady increase in new user registrations and inquiries, thereby boosting community engagement and satisfaction.
- Integrated real-time data processing capabilities, improving web app responsiveness and user engagement.

Robokart

Mumbai, India

Full-Stack and Android Development Intern

Nov 2020 – May 2021

- Built a **full-stack web application** using **ReactJS** and **NodeJS**, integrating real-time data processing for predictive customer behavior analysis, resulting in a **15% increase in user engagement**.
- Collaborated with cross-functional teams to redesign the front-end interface for the company's e-commerce platform, increasing customer retention by 20%.

SKILLS & TOOLS

Programming Languages: C, C++, Java, Python, PHP, SQL, JavaScript, HTML, CSS, Kotlin, Flutter, Dart

Skills: Android App Development, Offline App Functionality, API Integration, Real-time Data Processing, Full Stack Web Development, iOS Application Development, Operating Systems, DBMS, Git, Linux

Tools & Frameworks: Android Studio, DJI Mobile SDK (familiar), ESRI maps, GIS solutions, Jupyter Notebook, Visual Studio Code, Laravel, ReactJS, Tailwind CSS, Bootstrap, WordPress

Soft Skills: Communication Skills, Problem Solving, Adaptability, Time Management, Teamwork, Leadership, Critical Thinking.

PROJECTS

Distributed File Storage System

- Built a distributed file storage system using C++ and RAID algorithms, allowing for high-availability and redundancy of user data across multiple servers.
- Integrated with a NoSQL database (Cassandra) for distributed data storage, achieving an uptime of 99.99% and minimizing data retrieval time by 35%.
- Implemented error-checking and load-balancing mechanisms to ensure data integrity and high throughput under heavy workloads.

Certifications

- Advanced Programming in C++
- Full-Stack Web Development with ReactJS
