

PRASHANT GUPTA

(513) 370-0429 | prashantmgupta@hotmail.com | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Typescript, C#, SQL, Python, Shell, Bash, Groovy
- **Technologies/Frameworks:** JUnit, TestNG, NUnit, PyTest, Mocha, Jasmine, Chai, Linux, WSL, Maven, TDD, BDD
- **Containerization & Orchestration:** Docker, Jenkins, Kubernetes, Terraform, Istio, Splunk, Grafana, Datadog
- **Tools:** Eclipse IDE, Visual Studio Code, Visual Studio, Android Studio, Git, Bitbucket, Jira, X-Ray Confluence
- **Database :** MySQL, NoSQL, DynamoDB, Redshift
- **Libraries:** NumPy, Pandas, Scikit-learn, Matplotlib, Plotly, Seaborn, Pytorch
- **Cloud Technologies:** AWS (EC2, S3, EKS, Lambda, DynamoDB, Glue, R53, SQS), Azure
- **Automation & Test tools:** Selenium, Appium, Cucumber, Playwright, Cypress, Postman, Gherkins, SoapUI, RestAssured, RestSharp, JMeter, K6, TestRail, Burp Suite, Nmap, SonarQube

CERTIFICATIONS

AWS Solutions Architect Associate

Graduate Certificate in Data Analytics – University of Cincinnati

Linux Administration - Udemy

EXPERIENCE

Michigan Health Information Network – QA Automation Intern – MI, Remote Aug. 2024 – Present

- Developed a reusable, cloud-based BDD automation framework for UI and API testing using Selenium WebDriver, **PyTest**, **Behave**, and **AWS**, ensuring compliance with HIPAA while reducing test execution time by 70%.
- Developed and maintained internal Python libraries, reducing code redundancy by 40% and significantly improving development efficiency across projects.

Mastek – Associate Specialist II - Mumbai, India Feb. 2023 – Aug. 2023

- Directed the testing lifecycle for multiple features, including initial test planning, test creation, and execution within an **Agile SCRUM** team, while mentoring junior team members on best practices and test strategies.
- Managed deployment pipelines, code reviews, and defect tracking using **Azure DevOps** and collaborated with cross-functional teams to ensure timely resolution of issues, leading to a more efficient sprint cycle.
- Implemented **C#** and **RestSharp** for functional and end-to-end test case scripting using a **TDD** approach within in-sprint automation, ensuring comprehensive validation of REST services and contributing to a **98%** defect-free product release.
- Managed bug triage sessions, analyzing and prioritizing defects, leading to a **30%** improvement in resolution times for critical production issues.

Mahindra Logistics – Software Engineer – Mumbai, India Jul. 2021 – Feb. 2023

- Developed BDD framework using **Cucumber**, **Java**, **Selenium WebDriver**, **Appium**, and **TestNG**, promoting collaborative and user-centric testing of Web and mobile app, and reducing testing cycles by **25%**.
- Engineered a robust **CI/CD** pipeline using **Jenkins** and **Docker**, automating build, test, and deployment processes, which resulted in a **30%** reduction in build time.
- Utilized Postman to efficiently manage and test SOAP and REST APIs, streamlining API validation processes and ensuring robust integration and functionality across services.
- Enhanced security by conducting **VAPT**, identifying and mitigating **30+** critical vulnerabilities, improving product reliability by **30%**, and ensuring compliance with industry standards.

Teamlease Edtech – Senior Software Development Engineer in Test – Mumbai, India May 2019 – Jul. 2021

- Automated regression testing for a **SaaS** product's front-end, and web services using **Selenium**, **Rest Assured**, and **Java**, cutting execution time by **65%**.
- Utilized **Jira** for managing customer-reported issues, incorporating them into test planning and execution processes, resulting in a **15%** increase in test coverage and a **20%** reduction in average issue resolution time.
- Automated responsive design verification using **BrowserStack**'s real device cloud, reducing manual testing efforts by 50% and ensuring a **99%** consistency rate across mobile and desktop platforms.
- Led to a **30%** reduction in application response times and a **20%** decrease in **AWS** infrastructure costs by performing performance testing with **JMeter**, **Groovy** and optimizing L7 load balancer.

Veracitiz Solution Pvt. Ltd. – BI Consultant – Mumbai, India Jul. 2017 – Jun. 2018

- Developed complex SQL queries to extract and transform data, increasing data analysis efficiency by 40%.

EDUCATION

University of Cincinnati Carl H. Lindner College of Business Cincinnati, Ohio

Master of Science in Information Systems (GPA – 3.96)

Relevant Coursework: Generative AI, Database design techniques, Data Analysis, Machine Learning, Security etc.

University of Mumbai Mumbai, India

Bachelor of Engineering – Computer Science
