

ROHAN DARJI

Software Developer

Chattanooga, TN, USA - 37410 | +1 (423) 763-7394 | rohand5888@gmail.com

Full Stack Development | Cloud Security | System Design

Summary

Software Developer with 3 years of experience in Full Stack Development, Cloud Security, and System Design. Expert in Python, Django, Flask, Node.JS, and React.JS, with strong proficiency in building scalable, secure, and performance-driven web applications. Demonstrated experience in designing and implementing microservices architecture, DevOps practices, and SEO optimization for dynamic web solutions. Proven ability to work across the stack, delivering innovative features, ensuring security, and optimizing performance.

Experience

Software Developer | Azilen Technologies, CA, USA

Aug 2024 – Present

- Conducted unit testing with Django's testing framework and integrated continuous integration (CI) pipelines, ensuring code quality and reducing deployment errors by 30%.
- Responsible for implementing UI mockups, integrating third party react libraries, and handling/creating Redux store data and also responsible for user validations on client side as well as server side.
- Implemented automated testing strategies, increasing test coverage by 25% and reducing production defects by 15%.
- Participated in code reviews and used version control tools like Git to track changes and collaborate effectively.
- Enhanced site performance using Next.JS and SEO techniques, reducing page load time by 30%.

Software Developer | Planck Technologies, DE, USA

May 2023 – Aug 2023

- Led the development of a high-traffic E-commerce platform using React.JS, Django, and Node.JS, boosting conversion rates by 20%.
- Integrated secure payment gateways and optimized the platform for SEO, improving search engine rankings and organic traffic by 25%.
- Implemented RESTful APIs and integrated front-end components using Angular, creating dynamic and user-friendly interfaces.
- Worked with Linux file systems and permissions to ensure data security and efficient storage management, including automating backups and recovery processes.
- Automated CI/CD pipelines using Jenkins and GitHub Actions, leading to a 40% reduction in deployment time.
- Developed RESTful APIs to handle product catalogs, customer orders, and inventory management, ensuring seamless communication across microservices.

Full Stack Developer | Zensar Technologies, India

May 2019 – Jun 2022

- Led the development of an ERP portal for client companies, using Next.JS, Vue.JS, and Node.JS, streamlining internal operations for over 10,000 users.
- Implemented user authentication and authorization systems using Python and Django's authentication framework and OAuth 2.0, ensuring secure access control for multi-role applications.
- Developed complex SQL queries, procedures, Triggers, Stored Procedures, Packages and Views in various databases such as SQL Server.
- Designed and deployed microservices architecture for the ERP portal, reducing downtime and improving service deployment by 50%.
- Configured Apache, Nginx, and other web servers on Linux platforms to support scalable, secure web applications.
- Implemented continuous integration/continuous deployment (CI/CD) pipelines using Jenkins and AWS CodePipeline, reducing deployment time by 50%.
- Worked closely with stakeholders to gather requirements and delivered a fully functional ERP portal on time.
- Developed custom APIs to ensure data synchronization between the ERP system and external applications.

Skills

Methodology:	SDLC, Agile, Waterfall
Programming Languages:	C, C#, Java, Groovy, Python, C#, C++, Bash/Shell Scripting, PHP
Frameworks/Libraries:	Django, Flask, Node.JS, Express.JS, React.JS, Next.JS, Node.JS, Vue.JS, Angular, aravel, WordPress, Magento, Yii framework
Web Technologies:	HTML, CSS, JavaScript, AJAX, XML, JSON, jQuery, Bootstrap, Restful API, Redux, SASS
Database:	MongoDB, Firebase, PostgreSQL, MYSQL, Oracle DB, Redis
DevOps/ Testing:	CI/CD, Docker, Kubernetes, Jenkins, Selenium, Jest, Mocha, PyTest
Cloud technologies:	Azure, AWS, GCP, Oracle Cloud, Digital Ocean
Security Protocols:	OAuth2, AuthN/AuthZ, multi-factor authentication, single sign-on, Identity management, IAM, Encryption, Key Management, JWT, SSL/TLS, Cloud Security Best Practices
Version Control/Other Tools:	GitHub, Git, Jira, Docker, Figma, MaterialUI, NPM packet manager Google Apps Script, Docker, Gitlab, API Gateway, RabbitMQ, Kafka, SEO, MS Office, Postman, GraphQL, Jest, Jenkins
Operating Systems:	Windows, Linux (Ubuntu, CentOS, Fedora, Debian, Red Hat, Linux Mint), Mac OS

Education

Master of Science – Computer Science: 05/2024

California State University – East Bay, California, USA

Bachelor of Technology in Computer Engineering: 05/2022

LJ Institute of Engineering and Technology, Ahmedabad, Gujarat, India
