

NATHAN YOUNG

GEOSPATIAL ANALYST

nyoung8499@gmail.com

512-568-5873

Montgomery, TX

www.linkedin.com/in/nathan-young-438t734t9824

SKILLS

ArcGIS Pro, ArcGIS Online

Remote Sensing and Digital Image Processing

Cartography and Visual Design

Morphological Spatial Pattern Analysis (GuidosToolbox)

R Programming Language

Python Programming Language

Quantitative & Qualitative Research and Analysis

Technical Writing

Systems Dynamics

Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)

Part 107 (Drone Pilot) Certification

EDUCATION

M.S., Geography
Texas A&M University
College Station, TX
2021 – 2023

B.S., GIST
Texas A&M University
College Station, TX
2019 – 2021

A.A., Geography
Blinn College
Bryan, TX
2017 – 2018

SUMMARY

GIS technology proficient with experience with landscape planning and land systems science; capable of collaborative, cross-functional teamwork that delivers performance-based results. Strong written and oral communication skills, including soon to be published research papers on the spatial distribution of energy resources and associated infrastructure as well as their respective landscape and habitat

RELEVANT EXPERIENCE

GRADUATE STUDENT RESEARCHER

2021 - Present

Texas A&M University, Department of Geography

- Assessed land management strategies to relocate oil and natural gas infrastructure to mitigate habitat fragmentation (Funded by the Centers of Environmental Health Monitoring and Management - **paper to be published**).
- Quantified the pressure of infrastructure on Permian Basin landscapes and local native species that have suffered declines in both population and spatial range (**paper to be published**).

GRADUATE TEACHING ASSISTANT

2021 - Present

Texas A&M University, Department of Geography

- Teaching multiple physical geography and GIS courses and laboratories.
- Received the Excellence in Teaching Award – 2024.

UNDERGRADUATE RESEARCHER

Jan., '21 - Aug., '21

Texas A&M University, Geospatial Exploration and Resolution (GEAR) Lab

- Collaborated on research that sought to measure the exposure of various U.S. locations to floods.
- Visualized locational exposure to floods using GIS datasets of FEMA flood zones and various GIS analytical techniques.

COVID-19 INFORMATION CURATOR

June, '20 - Dec., '20

Texas A&M University, GeoInnovation Center

- Collaborated in the development of a CDC grant-funded database meant to inform the public on local, state, and federal COVID-19 civil orders and testing resources.
- Geolocated available COVID-19 testing centers and collected other relevant information for public consumption on the database.

UNDERGRADUATE RESEARCHER

Jan., '20 - June, '21

Texas A&M University, Hazard Reduction and Recovery Center

- Collaborated on qualitative research as a GIS-support role that tracked the growth and influence of emergent civilian-organized rescue groups in the U.S. post-Hurricane Harvey.
