

PROFILE

I worked for 12 years in my previous company – msg Global Solutions Inc., Philippines initially as SAP AMS Service Desk, became a team leader and worked my way up and became a Global technical support analyst. After a couple of years became an Associate Consultant, which handles BW DLL Integration data loading processing using SAP Business object Data Services. I am ready to be a part of a reputable, result-oriented and dynamic institution that will provide well rounded programs for growth and opportunity for professional advancement of highly motivated individuals. I am a well-rounded person that can handle tasks with groups or as an individual and able to commit to accomplish tasks on time.
