PROFESSIONAL EXPERIENCE

Digital Workspace Engineer I (Remote) at Ferroque Systems Inc, Mississauga, Canada

Sept 2023 – Aug 2024

- Managed incidents and service requests within SLA's using ServiceNow & HALOPSA, addressing critical/high-severity incidents (P1/P2). Serves as a technical escalation point for troubleshooting and resolving problems with RCA.
- Led remote customer change review board meetings, prepared change tickets, and performed both scheduled and emergency changes, including Citrix infrastructure upgrades and Windows Server patch management.
- Monitored production environments using Control Up, Citrix Cloud Console, and Logic Monitor, investigating alerts and optimizing environment performance. Leverage monitoring tools to generate reports and implement solutions to prevent recurrence. Enforce established processes and procedures using ITIL foundation.
- Generated weekly, monthly, and quarterly reports for decision-making, presenting key metrics and actionable insights.

Cloud Engineer I Managed Services (Remote) at Forthright, Weston, FL

Feb 2022 – Sept 2023

- Delivered cloud infrastructure support and enhancements for US and Latin American clients, ensuring SLA adherence and documenting incident resolutions.
- Administered Citrix Cloud, Microsoft Azure, and Google Cloud Platform environments, including provisioning, configuration, and user management.
- Maintained cloud-based Office 365 infrastructure, virtual environments using VMware, Hyper-V, and Nutanix, and managed security systems (Cisco Meraki, MFA tools like OKTA & DUO, and Sentinel One).
- Leveraged ITIL practices to enforce operational processes, and led the onboarding of clients to Microsoft and Citrix technologies.
- Perform regular system backups, patches, and updates to ensure servers and applications are secure and up-to-date.

Senior Consultant Managed Services at Citrix Guaynabo, PR

July 2012 – Nov 2021

- Administered, deployed, and optimized Citrix XenApp/XenDesktop environments, supporting both cloud-based and hybrid infrastructures for a client base of over 4,000 concurrent users.
- Provided full lifecycle support for Citrix technologies including Provisioning Services (PVS), and Workspace Environment Management (WEM), Storefront, MCS, Delivery Controllers, Netscaler, Cloud and hybrid environments.
- Worked with clients to ensure environments were secure and up-to-date, leading migrations, upgrades, and day-to-day administration of Citrix Virtual Apps and Desktop services.
- Engaged with customers to develop relationship, understand their business/technical needs and assess, design and deploy Citrix solutions following recommended practices.
- Worked closely with customer's stakeholders to determine planning, implementation, and integration of system-oriented projects.
