

Innovative lead.net developer having extensive experience in Software Development using Microsoft Technologies (.Net Core, REST, Microservices, Azure, MVC, SQL Server, MongoDB, Neo4j, Angular, C#, ASP.Net, VB.Net, Entity-Framework, WCF)

SAMRAT MANDAL

SKILLS

Technology | .Net Core ▪ ASP.NET ▪ Microservice ▪ MVC ▪ C# ▪ Rest API ▪ Camunda ▪ Dependency Injection ▪ WCF/Web Service ▪ Angular ▪ HTML
Databases | Microsoft SQL Server ▪ Neo4j ▪ Mongo DB
Cloud | Microsoft Azure ▪ Azure Storage ▪ Azure Functions ▪ Azure Logic Apps ▪ Azure Cache for Redis
Source Control | Git ▪ Microsoft TFS ▪ TortoiseSVN ▪ Microsoft SourceSafe
CMS Tool | Tridion ▪ Sitefinity ▪ DotNetNuke
Work/Issue Tracker | Azure DevOps ▪ JIRA ▪ Service Now ▪ Version One
Project Management Methodology | Agile
Soft Skills | Team Player ▪ Deliver results ▪ Bias for action ▪ Eager to Expand Knowledge

CAREER PROFILE

GEP NB Ventures Inc. | .Net Core 6.0, Azure, REST API, Microservice, C#, Mongo DB, Neo4j, Angular 10, Entity-Framework Core, Camunda, Git, Log4Net

Senior Software Engineer | December 2021 – Present Dallas, TX

- Working as Lead Developer of the source to Pay - Third Party Risk Management (TPRM) cloud-based software product for supplier risk management
- Led a team of 6 engineers to complete key product updates
- Architecting the Technical Solution and Design
- Work closely with PMG to gain organizational commitment for all systems and software plans
- Coordinate with the team to set priorities, update scope and estimating efforts required for delivery.
- Integrate various Azure services into application such as Azure Storage, Azure Functions, Azure Cache for Redis and more.
- Design and develop REST API and Microservices
- Setup Camunda Workflow and Rule Engine to control complex business processes
- Develop GUI using Components, Templates, Custom Directives, Services, Pipe modules of Angular
- Design, develop and perform database related activities
- Automate the manual process by writing jobs to improve the productivity and systems stability

Mastech Digital Consulting Inc. | .Net Core 3.0, REST API, C#, MVC, Angular 12, JSON, Kendo UI, MSSQL, EF Core, Window Service, LINQ, Git

Software Developer | March 2020 - December 2021 Coppel, TX

- Evaluation of existing software architecture, proposing new directions, developing change management plans, and leading change
- Work closely with clients to gain organizational commitment for all systems and software plans, as well as evaluate and guide the selection of technologies required to complete those plans
- Provide software solution and implementation of new features based on the business requirements
- Coordinate with team to identify priorities, update scope and delivery schedule
- Design, develop and implement new software components to ensure system-wide efficiency, reliability, and compatibility and to maximize system performance

EDUCATION

MCA (Master of Computer Applications) | West Bengal University of Technology (2004-2007) | DGPA: 8.62/10

BCA (Bachelor of Computer Applications) | West Bengal University of Technology (2001-2004) | DGPA: 8.25/10

ACHIEVEMENTS/CERTIFICATIONS

- Microsoft Certified Azure Developer(AZ-203)
- Neo4j Certified Professional
- 2015 WebAward for Outstanding Achievement in Web Development in Transamerica Plan Navigator project
Awarded "Certificate of Excellence" for providing outstanding contribution to HBC Application Maintenance & Support project.
- Awarded TCS "On the Spot" for providing quality deliverable and commitment in MetLife AEGIS UPGRADE project.
- Awarded TCS "On the Spot" for Best Transformation Project in WNL AWD Migration project.

INTERESTS

Travelling with family ▪ Cricket ▪ Listening Songs ▪ Watching Movies

- Design and develop REST API and databases
- Develop GUI using Components, Templates, Custom Directives, Services, Pipe modules of Angular
- Implement JWT based authentication
- Automate the manual process by writing jobs to improve the productivity and systems stability
- Monitor system performance to detect and resolve problems during deployment and support change management
- Provide production support and enhancements to maintain the system up

Tata Consultancy Services | .Net Core, REST API, Angular, JSON, MSSQL, C#, Entity-Framework, Dependency Injection, LINQ, HangFire, Swagger, JWT, SVN, JIRA, xUnit, Moq, Classic ASP, Tridion, AWD Framework

Associate Consultant | July 2011 - March 2020 Atlanta, GA

- Understand business requirements, study existing application landscape, and identify redundant/ineffective systems
- Work closely with clients to gain organizational commitment for all systems and software plans, as well as evaluate and guide the selection of technologies required to complete those plans
- Coordinate with onshore/offshore team(s) to identify priorities, distribute the works, and update scope and delivery schedule
- Design and Development of new Rest API of the system using .Net Core
- Automate the manual process to improve the productivity and systems stability
- Writing jobs to make return process automated
- Implementing SSO and JWT based authentication with AD group
- Setup unit testing using xUnit, Moq
- Status reporting and intimation of risk factors to the client
- Create data migration/system integration strategies
- Scheduling and configuring jobs using Hangfire
- Monitor system performance to detect and resolve problems during deployment and support change management
- Provide production support and enhancements to maintain the system up

24/7

Black Keyboard Softwares Pvt. Ltd | ASP.Net (C#), SQL Server 2005, XML, XSLT

Senior Dot Net Developer | June 2009 – May 2011 Kolkata, India

- Requirements Gathering, Analysis and Designing and documentation of the same
- Design and Development of new components of the system
- Entity and Database Design
- Writing Stored Procedure
- Writing code to develop Web Forms
- Unit Testing/Defect Tracking and working together with the testing team to track and close all defects

Swastik Infosystems | ASP.Net (C#), Dot Net Nuke, SQL Server 2005

Software Developer | February 2008 – May 2009 Kolkata, India

- Requirements Gathering, Analysis and Designing and documentation of the same
- Entity and Database Design
- Design and Development of new components of the system
- Implementing payment gateway
