LinkedIn: [linkedin.com/in/shivamsinghs/](https://www.linkedin.com/in/shivamsinghs/)

EDUCATION:

M.S. Computer Science – University of the Pacific

Stockton, CA

Cumulative GPA – 4.0/4.0

May, 2025

B.E. Electronics and Telecommunication – Savitribai Phule Pune University

Pune, India

US equivalent GPA -3.11/4.0

January, 2019

SKILLS:

Programming Languages: ABAP, C, C++, Python

Cloud & Infrastructure: AWS, SAP BTP, Docker, Kubernetes

SAP Technologies: SAP HANA, SAP S/4HANA, SAP Concur, SAP PI/PO, SAP SD/MM/FI, HR ABAP (Payroll, Time Management, Org. Management), ODATA

AI & Machine Learning: NLP, Computer Vision, Data Mining

Tools & Certifications: ITIL Foundation, SAP HANA 2.0 (SPS05), SAP ABAP, Git, Jenkins, Helm Charts

EXPERIENCE:

Tata Technologies Ltd

Consultant

April 2022 – August 2023

- Managed end-to-end data migration projects from legacy systems to SAP HANA, ensuring seamless integration with Financial (FI) and HR modules. Utilized advanced ABAP skills to enhance the performance of data interfaces, ensuring high data integrity and compliance. Participated in SAP S/4HANA Brownfield implementations, leveraging expertise in HCM module key features and conversion activities such as PY-YTDs, Org. Management master data, object relationships, and evaluation paths.
- Provided ongoing technical consulting, collaborating directly with client teams to enhance system functionality and performance. Designed customized solutions and integrations using ABAP, addressing specific client needs across SAP SD/MM/FI modules. Developed and maintained SAP applications using HR ABAP, focusing on Payroll, Time Management, and Organizational Management to streamline HR processes and reporting.
- Utilized SAP PI/PO for customized interface development, optimizing integration with external systems through API configurations and web service calls, which reduced client data transfer times by 30%.

Capgemini India Pvt. Ltd.

Software Engineer

Mumbai, India

February 2019 – April 2022

- Led integration projects, aligning SAP Concur's system with various client HR and Financial systems, including SAP HCM and non-SAP platforms. Used SAP Business Technology Platform (BTP) and ABAP to design efficient and scalable custom interfaces.
- Advised clients on best practices for integrating SAP systems with external platforms, providing real-time troubleshooting during the implementation phases. Successfully managed the technical setup and configuration of SAP Concur for diverse customer needs.
- Utilized SAP PI/PO for customized interface development, optimizing integration with external systems through API configurations and web service calls, which reduced client data transfer times by 30%. Implemented ODATA service enhancements and self-service functionalities, ensuring seamless integration and improved user experience within SAP HR modules.

PROJECTS:

- Cloud-Based Microservices Architecture:** Designed and implemented a scalable microservices architecture using AWS, Docker, and Kubernetes for a web application, ensuring high availability and efficient resource management.
- Kubernetes-based CI/CD Pipeline:** Developed an automated CI/CD pipeline using Kubernetes and Jenkins to streamline application deployment, utilizing Docker containers and Helm charts for efficient release management.

HONORS & AWARDS:

- Certified in AWS, SAP ABAP, SAP HANA 2.0 (SPS05), and ITIL Foundation.
- Published two research papers on live streaming recommendations and user roles in platform growth.
- Founder & President, Sanatan Student Association & Senator of School of Engineering | University of the Pacific, CA

- Dean's List (3 Semesters) – University of the Pacific, 2023 & 2024
