Microsoft

Specialist

Implementing Microsoft
Azure Infrastructure
Solutions

.NET Framework 4, Web Applications
.NET Framework 4, Service Communication Applicati

Professional Summary

Senior Software Engineer and Technical Lead with 15 years of experience in software development, cloud computing, and team leadership. Proven expertise in **C#, .NET, Azure Cloud, Azure DevOps, UI/UX design, SQL Server, and Web Development**. Adept at designing innovative, secure, and robust solutions, migrating legacy systems, and driving projects to successful completion in Agile environments. Skilled in mentoring teams and fostering collaboration to deliver impactful results. Actively seeking roles such as **Senior Software Engineer, Full Stack Developer, Technical Lead, .NET Architect, and Cloud Architect**.

Key Skills

- **Programming & Frameworks:** C#, .NET (4.8-3.5), .NET Core, RESTful APIs, Microservices Architecture, Entity Framework Core, WPF, MVVM, WCF, MVC, REST APIs, Web APIs
- **Cloud Platforms:** Microsoft Azure (API Services, Bot Framework, Cognitive Services, Azure Blob)
- **DevOps & CI/CD:** Azure DevOps, GitHub, Automated Testing, Deployment Automation
- **UI/UX Design:** React.js, AngularJS, HTML5, CSS3, JavaScript, Typescript, jQuery, Bootstrap
- **Database Technologies:** SQL Server (2012–2022), Azure SQL, LINQ, Database Optimization
- **Web Development:** Full-stack expertise in building scalable web applications
- **Agile Methodologies:** Scrum Master, Jira, Sprint Planning, Agile Development
- **Leadership & Mentorship:** Technical lead experience, code reviews and mentoring developer
- **Security Practices:** Application security, authentication and authorization standards
- **Development Tools:** Visual Studio (2008–2022), Azure DevOps

Education & Certifications

- **Executive Education Program:** Digital Transformation: Leading Data, People & Technology – UC Berkeley, Haas School of Business
- **Bachelor of Technology(B.Tech)**, graduated with 80% merit from UP Technical University (2008)
- **Microsoft Azure Infrastructure Solutions Certification** issued by Microsoft
- **MCTS:** WCF 4.0, Web Application Development 4.0, and MCPDEA 2.0 issued by Microsoft
- **Certified ScrumMaster (CSM)** issued by Scrum Alliance, **Certified CUES** and **Banking101**

Professional Experience

Sonant Corporation – San Diego, CA

Senior Software Engineer | Technical Lead | Full Stack Developer (Dec 2018 – Present)

- **Juror Group Reporting – Court Talk Jury Service:** Designed and implemented a system to manage state court jury services, enabling Jury Managers to handle large pools of summoned jurors via IVR and web platforms. Migrated legacy Delphi IVR scripts to .NET for improved maintainability.
- **Court Talk AI Jury Bot:** Developed an **AI-powered chatbot** using **Azure Bot Service** and **Cognitive Services** to automate juror inquiries, improving efficiency and reducing workload for court personnel.
- **Property Tax System (California & Nevada Counties):** Developed a scalable tax management system for multiple counties, integrating IVR, web tax interfaces, and reporting features.
- **Sonant Portal & TTS (Text to Speech) System:** Led the development of a voice response system and cloud-based call recording using Azure Cognitive Services, enhancing court and traffic management solutions.
- Acted as a **Technical Lead**, mentoring a 5-member development team, conducting code reviews, and guiding team members on best practices in coding and design
- Built full-stack solutions integrating **MVC, React.js** and **AngularJS** with back-end services.
- Collaborated with stakeholders to ensure compliance with state regulations and optimized performance.

Microsoft – Hyderabad, India

SDE II (Software Development Engineer) (Feb 2015 – Apr 2018)

- **Partner Co-Sell Platform:** Developed a scalable platform integrating **React.js** and **AngularJS** with a SQL Server backend, improving partner collaboration and pipeline clarity. Automated testing pipelines and implemented **CI/CD processes using Azure DevOps** to streamline deployment
- **MDM Project (Master Data Management):** Led the migration of Microsoft's MDM platform to Azure Cloud, enhancing scalability and security. Automated testing pipelines (UAT, BVT, EVT/IVT) to streamline deployment cycles.
- Built full-stack web applications leveraging **MVC, JavaScript, and SQL Azure** for seamless functionality and scalability.
- Developed **Azure PowerShell scripts** to automate the continuous deployment on Azure Service Fabric, ensuring efficient and reliable deployments.
- Mentored junior developers, facilitated knowledge sharing through workshops & code reviews.

Key Achievements:

Awarded the **VP Excellence Award** for cloud adoption in the MDM Project.

Markit India Services – Noida, India

Software Engineering Team Lead (Feb 2013 – Feb 2015)

- Led development of National Australia Bank's financial website, building dynamic modules for stock tracking, market data, and user alerts.
- Designed and implemented **REST APIs** with **MVC5**, enabling seamless data communication between modules.
- Built full-stack features, integrating **React.js**, **AngularJS**, and back-end systems to deliver responsive and scalable solutions.
- Managed an 8-member development team, ensuring project milestones were met within time.

Fiserv India Pvt. Ltd. – Noida, India

Software Developer (Jun 2011 – Feb 2013)

- Developed web-based treasury management tools, including check management, ACH, and fund transfer systems.
- Designed scalable APIs and implemented full-stack solutions to enhance data integration and processing capabilities.

Accenture Services Pvt. Ltd. – Pune, India

Associate Software Engineer (Jul 2009 – Feb 2011)

- Implemented the **Azure Migration Accelerator**, facilitating efficient migration strategies for client architectures.
- Conducted comprehensive data analysis and actionable recommendations for cloud adoption.

Cyzent Technologies – Ghaziabad, India

Associate Software Developer (Jun 2008 – Jul 2009)

- Developed and maintained Medical Health Care (MHC), a system for managing patient records, appointments, and billing.

Achievements & Activities

- **VP Excellence Award** at Microsoft for cloud adoption in the MDM Project.
- Ranked **3rd in Hackathon Project** at Microsoft USA
- Organized Microsoft Hackathons at university campuses
- Volunteered for the **NSS** in India and led blood donation campaigns at Accenture.
- Played **volleyball tournaments** at Microsoft & participated in national-level integration meets.
