## SUMMARY

Results-driven IT professional with 25+ years of experience across infrastructure, cloud, and systems administration. Proven record of driving cost savings, improving uptime, and leading digital transformation in enterprise environments.

## PROFESSIONAL EXPERIENCE

### IT Director

Empresas Puertorriqueñas de Desarrollo, Inc. | Sep, 2020 – Present

- Tasked with managing the IT department and modernizing technology infrastructure, delivering a 99.9% uptime.
- Designed and implemented a Windows Hybrid Network, successfully migrating the Exchange Server to the Cloud to improve accessibility and scalability.
- Implemented the ITIL Framework using Freshworks for IT service management, enhancing service delivery and operational efficiency.
- Identified and replaced high-cost technologies, resulting in a 27% reduction in expenses.
- Virtualized the IT environment using VMware, optimizing resource utilization and performance.
- Upgraded outdated 3Com and Cisco equipment to current models, improving operational capabilities and security.
- Migrated the IP phone system from 3Com NBX to 3CX, enhancing communication efficiency and leveraging new features for improved collaboration.

### IT Consultant

Empresas Puertorriqueñas de Desarrollo, Inc. | Sep, 2007 – 2020

- Spearheaded the implementation of the first enterprise-wide wireless network utilizing Meraki products.
- Migrated backup solutions from Backup Exec to Veeam, integrating Amazon AWS Tape Libraries and implementing restores with EC2 instances for enhanced data recovery and management.
- Developed a Power BI application to effectively manage tenant data, enhancing reporting and data visualization capabilities.

### Network Administrator & Consultant (Early Career)

Various Firms | 1998 – 2007

- Supported Exchange 5.5/2000 environments, deployed cyber attack simulations for 3Com's TippingPoint, and assisted with IT strategy and infrastructure upgrades.
