SKILLS & COMPETENCIES

Finance and Controlling – SAP FICO Techno-Functional Consultant – 3x SAP Certified

SOLUTION IMPLEMENTATION	PROJECT MANAGEMENT	PROMPT ENGINEERING
CONTINUOUS IMPROVEMENT	STRONG ORGANIZATIONAL SKILLS	SAP S/4HANA, ECC
PRE-SALES ACTIVITIES	EXCELLENT ANALYTICAL SKILLS	BUSINESS PROCESS MODELING
SYSTEM OPTIMIZATION	STRONG PROBLEM-SOLVING SKILLS	BUSINESS PROCESS ANALYSIS
SAP PRODUCT	CRITICAL THINKING SKILLS	SDLC PROCESSES (AGILE, WATERFALL)

PROFESSIONAL EXPERIENCE AND ACHIEVEMENTS

Deloitte

04/2019 – 02/2025

FICO Lead Consultant (03/2022 – 02/2025)

Led SAP FICO workflows across heavy manufacturing and technology industries, optimizing modules to align with client requirements. Guided design and configuration as SME, mentoring junior consultants to ensure operational excellence.

CORE COMPETENCIES: INTERCOMPANY, MASTER DATA, USER ACCEPTANCE TESTING (UAT), FI INTEGRATIONS, GL, MARGIN ANALYSIS, REPORTING, MATERIAL LEDGER, PROFIT CENTER ACCOUNTING, MTO/MTS SCENARIO, PRE-SALES ACTIVITIES

- **Achieved a 30% increase in WestRock's efficiency by seamlessly integrating SAP FICO with PS, MM, SD, PP and third-party tax engine modules;** fostered cross-functional collaboration with teams and stakeholders; delivered integrated production and logistics solutions; performed rigorous testing with Make to Order(MTO) and Stock (MTS); resolved issues, and maintained clear communication throughout
- **Boosted WestRock's efficiency by 25% through tailored marginal analysis (COPA), improving physical and financial flow;** Gathered requirements, collaborated with teams, aligned configurations with business processes, and demonstrated enhanced capabilities to stakeholders, fostering informed decision-making
- **Spearheaded Westrock's intercompany processes, boosting workflow efficiency by 40%.** Gathered requirements from stakeholders and upstream teams, configured systems for alignment, rigorously tested, and ensured seamless production deployment, delivering measurable improvements and exceeding client expectations with operational excellence.
- **Improved client financial operations by enhancing WestRock's bank payment efficiency through Multi-Bank Connectivity, increasing performance by 20%.** Supported configuration, troubleshooting, and stakeholder collaboration, ensuring rigorous testing, error resolution, and successful production deployment
- **Elevated WestRock and Sony's operations, boosting efficiency by 20% and shortening project timelines;** led critical workstreams such as GL, COPA, financial closing, data migration, and reporting. Oversaw all project phases, developed cutover plans and test cycles, executed testing, resolved defects, and ensured flawless production deployment
- **Secured business alignment for Sony's greenfield S/4HANA implementation by leading dynamic, impactful workshops;** aligning teams, gathering key insights, and defining a strategic roadmap; delivered impactful design solutions, ensuring seamless collaboration and setting the stage for operational success

FICO Techno-Functional Consultant (04/2019 – 03/2022)

Designed and tailored SAP solutions for energy, healthcare, and aerospace industries to address unique client needs while ensuring regulatory compliance. Delivered production support, documented configurations, conducted training workshops, performed testing, and ensured seamless go-live execution, significantly enhancing client impact and operational efficiency.

- CORE COMPETENCIES:** BANKING, ACCOUNTS PAYABLE, ACCOUNTS RECEIVABLE, ASSET ACCOUNTING, FINANCE CLOSING, TREASURY, CASH FLOW, FINANCIAL CONSOLIDATION
- *Elevated Suncor’s work efficiency by 40% while streamlining bank payments automated payment programs; gathered vital data, ensured seamless execution via testing and bug fixes, and provided production support during go-live and post-go-live*
 - *Raised Suncor’s credit risk management, boosting decision-making capabilities by 40% through process improvements; Automated the credit rating process, integrated with Equifax for real-time updates, deployed to production*
 - *Improved Suncor’s cash flow workflows by 20% through optimized cash receipts and payments. Collaborated with stakeholders to design, implement, test, deploy solutions, and provide post-go-live support for success*
 - *Enhanced work capabilities by 15% and optimized asset accounting for Forcepoint by gathering requirements, implementing fixed asset solutions, conducting unit tests, deploying to production, and supporting financial close activities*
 - *Enhanced integration of FICO with external systems (Concur, Blackline, Hyperion), improving operational efficiency by 25% for Terumo and Suncor. Gathered requirements, ensured team communication, deployed to production, provided production support, and delivered comprehensive end-user training sessions successfully*
 - *Enhanced Terumo’s operational effectiveness and productivity by deploying 30+ RICEF objects within a single year; Addressed 350+ defects, ensured technical feasibility with design documentation, enabled seamless production deployment, and provided production support for reliable solutions*
 - *Boosted data extraction efficiency by 30% at Terumo, implementing 20+ Analysis of Office within the FICO module for enhanced operations; reviewed modules across ITCs, cutover, production, and hyper care phases while addressing issues*

Accenture
09/2018 – 04/2019
FICO Techno-Functional Consultant

- Led a team of 3 members in the life sciences industry, overseeing FI modules and WRICEF object supervision. Leveraged expertise and insights to enhance solutions, streamline processes, and drive impactful improvements.
- CORE COMPETENCIES:** NEW MEMBER INTERVIEWS, FSCM, FIORI, O-DATA, DEBUGGING, FI SUBSTITUTION AND VALIDATION
- *Boosted Horizon Pharma’s efficiency by 20% through leading custom solutions in FI module, optimizing 10+ integration and FI Substitutions and validations, enhancing EBS processes customization, collaborating with stakeholders for high-quality, delivering timely solutions, and consistently exceeding client expectations with impactful results*

Deloitte
02/2017 – 09/2018
Business Technical Analyst

- Collaborated with clients in transportation, manufacturing, and retail industries to streamline processes, design ABAP and UI5/UX solutions, and transform legacy systems with enhancements.
- CORE COMPETENCIES:** BUSINESS BLUEPRINT, WRICEF, SAP TM, CONTAINER BILLING, ABAP ON HANA
- *Simplified Walmart, Mitsubishi SpaceJet, TfNSW, Damco, and Gallo’s operations with WRICEF deliverables; analyzed outdated invoicing processes, collaborated with the process team, implemented optimized solutions, and released Sprint into production under budget*
