Profile

Highly experienced IT professional with over 20 years of expertise in network design, implementation and security. Proven Track record in managing complex IT infrastructure, virtualization, data center operations, and training. Skilled in Microsoft, Cisco, VMware, Mikrotik and Cloud technologies, with a strong focus on delivering secure and efficient systems. **Available to start working with a 2-week notice period.**

Work Experience

Fara Abresan Water Desalination Co. (February 2021 – December 2024)

Network and Security Team Lead

- Led the recruitment and management of a specialized network and security team to design and implement a state-of-the-art data center.
- Oversaw the management of a network infrastructure.
- Ensuring secure communication across multiple zones nationwide.

Avisa Parseh Industrial Co. (April 2015 – August 2024)

Director of Network and Infrastructure

- Headed the network and security team, leading the design and implementation of a cutting-edge data center.
- Managed comprehensive network security protocols.
- Oversaw the configuration of servers and the entire IT infrastructure.

South Information Technology Co. (Sitco) (March 2010 – November 2017)

Networking & Security Senior Manager

- Led network and security operations, ensuring high availability and secure data transmission.
- Optimized server utilization and reduced costs through VMware ESXi and Hyper-V virtualization.
- Developed and enforced security policies, including firewall management, SSL/TLS, and data encryption.

Afra Internet and Communication Co. (January 2006 – March 2010)

IT Administrator

- Implemented and managed network infrastructure for a large ISP, ensuring optimal connectivity and minimal downtime for customers.
- Oversaw a team of IT support specialists, providing guidance and training to enhance technical skills and improve customer service.
- Conducted regular system updates and maintenance to ensure security protocols were up-to-date and systems were running efficiently.
- Developed and implemented comprehensive disaster recovery plans to minimize data loss and ensure seamless business continuity in the event of outages or cyberattacks.

Freelancer/Contractor (March 2002 – December 2024)

Senior Network Administrator

- Designed and secured networks for 25+ companies, reducing costs by 30% and boosting security compliance by 50%.
- Led data center design, server setup, and network security initiatives.
- Implemented VPN, IPsec, and SSL/TLS protocols to secure remote access and enhance business continuity.
- Supported and optimized cloud-based business solutions across various industries.

Project Experience

Yaataa Post Project (Canada)

(June 2014 – August 2016)

Project Security Manager (Remote)

- Implemented robust security measures, including SSL encryption, firewalls, and advanced monitoring systems.

Fars Province Telecommunication Co.

(July 2011 – September 2021)

ISMS (ISO 27001) Project Consultant

- Contributed as a key team member in the consulting and implementation of the Information Security Management System (ISMS) project, supporting the achievement of ISO 27001 certification.

Training Experience

South Industrial Management Institute (Simi)

(February 2009 – October 2022)

Senior Network Training Specialist

- Successfully delivered over 9000 hours of comprehensive training in network architecture, security, wireless, and virtualization.
- Demonstrated expertise with over 10 years of experience in training at prestigious institutions such as South Industrial Management Institute.

Certifications

- Microsoft Certified Solutions Expert: Cloud Platform and Infrastructure (MCSE)
- Microsoft Certified Solutions Associate (MCSA Windows Server 2016, 2012, 2008, 2003)
- Microsoft Certified IT Professional: Enterprise Administrator (MCITP)
- Microsoft Certified Technology Specialist (MCTS)
- Microsoft Certified Professional (MCP)
- Microsoft Certified Application Developer (MCAD .NET)
- MikroTik Certified Network Associate (MTCNA)
- MikroTik Certified Routing Engineer (MTCRE)
- MikroTik Certified Traffic Control Engineer (MTCTCE)
- MikroTik Certified Wireless Engineer (MTCWE)
