

RISHIKA KANUGULA

✉ Oviedo, FL 📞 (386) 804-9416 ✉ rishikakanugula@gmail.com [linkedin.com/in/rishika-kanugula](https://www.linkedin.com/in/rishika-kanugula)

EDUCATION

University of Central Florida

Master of Science in Computer Science, GPA: 4.0/4.0

Aug 2023 – May 2025

Florida, USA

Sreenidhi Institute of Science & Technology

Bachelor of Technology in Electronics and Communication Engineering

Aug 2018 – Jun 2022

Hyderabad, India

SKILLS

Database Management & Querying: Oracle, SQL, PL/SQL, MySQL, PostgreSQL

Data Analytics & Visualization : Power BI, Tableau, Excel, Matplotlib, Seaborn

Programming Languages: Python, SQL, Java, Shell Scripting

Big Data Technologies & Cloud : Hadoop, Apache Spark, Kafka, Hive, AWS, Azure, Flume, Sqoop

Data Management & Pipelines : ETL, Data Pipelines, MySQL, PostgreSQL, MongoDB, Cassandra

Machine Learning & AI: TensorFlow, Scikit-learn, Deep Learning, IoT Data Processing

Soft Skills: Data Storytelling, Cross-functional Collaboration, Problem-Solving

EXPERIENCE

Programmer Analyst Trainee

Jul 2022 – Jul 2023

Cognizant Technology Solutions

Hyderabad , India

- Designed and automated interactive reports using SQL and Power BI, enhancing data accessibility for stakeholders.
- Developed SQL-driven validation frameworks, reducing reporting errors by 20% and improving data integrity and Partnered with cross-functional teams to translate business needs into data-driven insights, improving operational efficiency.
- Optimized data workflows using Hadoop and Spark, reducing data processing time by 30% for large datasets.

AI-ML Engineer Intern

Feb 2022 – Apr 2022

AWS Academy

Hyderabad, India

- Built predictive models leveraging AI/ML techniques to identify trends, improving accuracy by 25%.
- Automated data preprocessing workflows, reducing manual effort and ensuring high data quality.
- Collaborated with data engineers to refine data integration pipelines, improving efficiency by 30%.

Networking Intern

Mar 2021 – May 2021

CISCO NETWORKING ACADEMY

Hyderabad, India

- Diagnosed and resolved 90% of network-related issues, optimizing the performance of over 50 LAN and WAN systems for improved uptime and reliability.
- Configured and secured over 200 Cisco devices with protocols such as VLANs, ACLs, NAT, and QoS, ensuring compliance with industry security standards.
- Researched and presented insights on emerging networking trends, strengthening the team's technical knowledge and contributing to strategic decisions.

PROJECTS

Sentiment Analysis & Business Insights Pipeline | *Python, Spark, SQL, Tableau*

Nov 2024 – Dec 2024

- Engineered an ETL pipeline to collect and analyze social media sentiment from Twitter and Reddit. Designed interactive dashboards in Tableau to visualize sentiment trends, driving marketing insights. Optimized data storage using SQL, ensuring fast and efficient retrieval of business intelligence data.

Data Concern Resolution & Optimization in Oracle | *Oracle, SQL, PL/SQL*

Jun 2024 – Jul 2024

- Identified and resolved data inconsistency issues, ensuring accuracy across Oracle databases.Developed and optimized PL/SQL scripts to automate data validation and reporting.Improved query performance by 30%, enhancing system efficiency for business applications.

Churn Analysis & Customer Retention Strategy | *Python,Machine Learning, Data Analysis*

Mar 2020 – Apr 2020

- Identified key churn drivers by analyzing banking datasets, leading to a 20% increase in customer retention.Developed predictive models using logistic regression and decision trees to forecast customer behavior. Created visual analytics dashboards in Tableau, helping business teams strategize retention efforts.
