Rodney Sanders

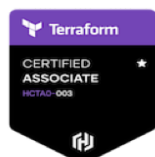

Cloud DevOps Engineer

CompTIA CLOUD+ PROFESSIONAL
9/2024 - 9/2027
Code: MXTJJSYZNE141JS8
Criteria: CV0-004

CISCO DEVNET ASSOCIATE
7/2024-7/2027
Candidate ID: CSC014373671

TERRAFORM CERTIFIED ASSOCIATE
4/2024- 4/2024
Lisc. #: 0a892065-4be4-48d2-b533-801a3ecabafe

AWS CLOUD PRACTITIONER
2/2024- 2/2027
9753f8be92ba4e6da289fff0d0b5a610

CompTIA A+ CERTIFIED PROFESSIONAL
6/2004 (Grandfathered)
COMP001002182085

Initiative:

To ascend as a professional in becoming an elite cloud expert. I am committed to staying abreast of current and new technology solutions, and prioritize Dev-Ops lifestyles and culture.

Specialized Competencies

Cloud Infrastructure & Management:

Crafty with designing and optimizing high-performance cloud environments using AWS and Azure.

Network Automation:

Dexterity with RESTCONF, NETCONF, YANG, and tools like Ansible, Puppet, and Chef for Orchestration and automation.

Data Formats & Development Methodologies:

Knowledgeable in XML, JSON, YAML, with experience in Agile, Lean, and Waterfall methodologies.

Cisco Technologies:

Familiar with Meraki, Cisco DNA Center, ACI, Cisco SD-WAN, and NSO.

IT Support & Troubleshooting:

Extensive experience in on-site, remote, and help desk support for hardware, software, and networks.

Network Design & Administration:

Astute with diagnosing LAN/WAN issues, configuring devices, and creating network topology diagrams; proficient with MAC/IP addressing, switches, routers, firewalls, load balancers, and IP services like DHCP, DNS, and NAT.

Scripting & Programming:

Well versed in Bash scripting, Python, and utilizing REST APIs and Postman for API testing.

DevOps & Containerization:

Intuitiveness with micro services, Terraform, Docker, DevOps practices.

Version Control & Collaboration:

Comprehensive in Git and GitHub for version control and repository management.

Technical Documentation:

Proficient in creating and maintaining technical documentation and providing user training.

Professional Experience

Cobb County School District

9/2007 – 9/2022

Enterprise Technician

Marietta, GA

- Managed monitored, troubleshoot district-wide Campuses with over 20,000+ core and edge switches, 6,000+ wireless access points , VOIP devices and network components across approximately 116 schools and administrative facilities.
- Constructed,calibrated Hybrid Optical fiber/Copper structured cabling systems for public/private network connectivity within Cobb county properties.
- Led troubleshooting for LAN/WAN issues, ensuring minimal downtime enhancing performance and scalability.
- Delivered on-site support for hardware, software, and network issues.
- Maintain documentation of network configurations and operational procedures.
- Generate performance reports and track incidents for management review.
- Collaborate with IT teams to coordinate system upgrades and migrations.
- Engage with vendors for equipment procurement and service support.
- Assist in planning and executing IT projects, including network upgrades and disaster recovery initiatives.

Fry's Electronics

9/2006 – 9/2007
