Profile

Experienced Senior Data Analyst skilled in R Programming, Power BI, and data visualization. Proven success in delivering impactful insights for the Care Quality Commission and the United Kingdom Health Security Agency. Adept at synthesizing complex data into actionable recommendations, demonstrating critical thinking and project management abilities. Known for developing a risk model for urgent and emergency care metrics and enhancing bio-security risk assessments during the COVID-19 pandemic, influencing decision-making processes. Proficient in presenting to non-technical audiences and providing data interpretation training. Excels in automating data workflows and developing visual representations of data trends, contributing to informed decision-making.

Employment History

Senior Data Analyst, Care Quality Commission, London

OCTOBER 2022 – AUGUST 2024

- Conducted in-depth analysis using data analytics tools like R, Power BI, and ArcGIS to derive actionable insights from both quantitative and qualitative data sources.
- Produced comprehensive reports for hospital and care home inspections, synthesizing results into actionable recommendations.
- Delivered presentations to stakeholders, ensuring clear understanding of complex information by non-technical audiences and provided training on data interpretation.
- Developed a risk model on urgent and emergency care (UEC) metrics to facilitate routine monitoring of UEC sites across England.
- Supported organizational upskilling by serving as a 'Power BI Champion' and a 'Stats Champion', facilitating dashboard development and statistical tests.
- Collaborated with stakeholders and subject matter experts to define project scope and objectives

Data Steward, Ministry of Defence, London

JANUARY 2019 – OCTOBER 2022

- Supported the creation of metadata for importation onto the new search and discovery system combining 4 separate data repositories into one single repository.
- Provided technical expertise and training for stakeholders in the new system and metadata creation.
- Developed semi-automated methods for creating, updating, and quality-checking metadata using XML/XQuery and Python coding.
- Coordinated with other teams and assistant directors to prioritize the provision of Geospatial Intelligence based on competing Requests for Information and Air Safety requirements.
- Analyzed data trends to identify areas for improvement in departmental reports.
- Managed a team of 8 Junior Data Stewards, ensuring clear priorities, a positive environment, and adequate resourcing.

Data Scientist (Secondment), United Kingdom Health Security Agency, London

APRIL 2021 — OCTOBER 2021

- Automated data workflows using SQL and Python to extract, cleanse, and analyze data from diverse sources, such as Amazon S3 and open source platforms.
- Developed reproducible code in R and Python to generate visual representations of COVID-19 variant transmission trends in England.
- Presented insights and analyses to the Secretary of State and Chief Medical Officer, featured on televised BBC newscasts.
- Maintained a Qlik Dashboard for international variant analysis using open-source GISAIID data.
- Compiled detailed reports on bio-security risks for countries, informing travel risk categories using R, Python, and foreign government data.

Education

Master of Computer Science with Data Analytics, Keele University, Online

MARCH 2022 — DECEMBER 2023

Graduated with Distinction (Estimated GPA 3.8-4.0)

Relevant Coursework

- Statistical Data Analysis and Databases
- Mathematics for A.I. and Data Science
- Research and Consultancy Skills
- Visualization for Data Analytics
- MSc Project - Topic Modeling and Sentiment Analysis of British Airways Customer Reviews

Bachelor of Physical Geography, Swansea University, Swansea

SEPTEMBER 2014 — JULY 2017

Graduated with 2:1 with Honors (Estimated GPA 3.5-3.7)

Courses

Microsoft ESI DP-605 (Power BI), Care Quality Commission

JULY 2024 — JULY 2024

Microsoft PL300 Power BI Data Analyst, Care Quality Commission

JUNE 2024 — AUGUST 2024

Advanced Microsoft Excel, Ministry of Defence

JULY 2019 — JULY 2019

Mental Health First Aider (MHFA England), Ministry of Defence

NOVEMBER 2019 — NOVEMBER 2019
