

Manas Kumar Das

SAP Technical Consultant (2X SAP Certified) Mobile: +1-9084490534

e-mail: manasece@gmail.com

Professional Summary

- Over 17 years of extensive experience in SAP ISU, ABAP on Hana, Restful ABAP, SAP ISU ABAP Technical, SAP ABAP R3.
- End to end implementation experience of multiple projects using ASAP and Agile methodology. Hands on experience in Business blueprint, Realization, Go-live and Support.
- Experienced in Integration ,ABAP Proxy (SOAP Service), BOPF, RFCs,CPI Integration OData Services & RAP.
- Expert SAP ABAP RICEFW development in SAP ISU, Sales and Distribution (SD), FI, CO, MM, Appliance Service, Customer Relationship Management (CRM) , SAP C4C using Basic and Advanced ABAP.
- Experienced in Data modeling, Data Cleansing and Data Conversion.

Strong Areas:

- SAP NW Gateway, ABAP Testing Tools , SAP AIF,SAP C4C.
- SAP ABAP OOPS, CDS Views , Web APIs , HTTP Services , AMDP. Code pushdown .
- ABAP Proxy Programming, User Exits & Transport Workbench, Workflow.
- Technical Upgrade/Support pack upgrades projects.
- Performance Tuning of ABAP Codes.
- ALE-IDOCs, BADI, User Exit and BAPI RFC, Authorization Checks, Dialog Programming
- SAP ABAP RICEFW development, Interfaces, enhancements, reports, OSS notes, data conversions.
- SAP FI, MM, SD, SAP AFS integration knowledge.

Education

MS in Data Science from Saint Peters University NJ, USA ,May 2023.

B. Tech in Electronics and Telecommunication Engineering, India ,June 2004.

Certification (SAP)

- SAP Certified Development Specialist - ABAP for SAP HANA
- SAP ISU
- Member of The Upsilon Pi Epsilon Association

Technology Summary

Summary of Work Experience

Org. : Agile soft Inc

Nov 2024 – Till Date

Client : OGE Energy Corp , USA

Role : SAP S4 Hana Developer

Responsibilities:

- Develop and manage APIs and integrations between SAP systems and external applications, using SAP Gateway, OData services, and other integration tools.
- ABAP programming with a focus on modern ABAP syntax (Cloud Compatible) and best practices for the backend services for SAP C4C cloud applications.
- Enhance and build new custom ABAP Core Data Service views, AMDP and services for the front-end Fiori applications.
- Develop OData services for ISU functionalities like Move in, Moveout, Transfer.
- Develop backend objects using RESTful ABAP Programming (RAP), reusable classes, and modern ABAP SQL for frontend Fiori apps.
- Demonstrated expertise in SAP HANA technical concepts and architecture, including in-memory database processing, data modeling, and integration strategies to optimize system performance while Redesign SAP ECC programs into S4 HANA landscape.
- Developed customer search web API services from C4C data modelling using SAP HANA Studio, including creating CDS views, defining associations and compositions, and optimizing queries for seamless data retrieval.
- Optimize the Code Performance based on the SAP recommended rules and guidelines for SAP HANA for front office activities.
- Utilized Native SQL query to retrieve the time sensitive information for smart meters and customer billing history.

Org. : Agile soft Inc Client : CenterPoint Energy Role : SAP Technical Consultant Responsibilities: • Design and development of FICA backed enhancements using custom database and object-oriented programming. • Develop workflow based Inter Company Data Exchange (IDEX) objects for deregulated market transactions. • Enhance CRM backend modules to support new enhancements and interfaces using ISU enhancement options and BAPI. • Implemented ALV on HANA to display the external agency pledge data for customers. • Development and Enhancement of various objects and methods for Intercompany Data Exchange program using Switch Framework as Eligibility Determination, move in, Switch, Moveout, Drop, Customer-initiated drop. • Debug and fix the code in case of some issues or enhancement is requested.	Oct 2022 – Oct 2024
Org : Synechron INC, USA. Client : Bank Of America Role : SAP Technical Consultant Responsibilities: • Design and development of account payable area enhancements using IDOC, Proxy, and OData services. • Development and support UI5 backend services using SAP gateway services for security data logs. • Create S4 HANA CDS views and OData services to display SAP Invoice status data. • Modification of payment method and check print for various locations in SAP FI module. • Create an IP log and monitoring application by using ABAP Objects , RFC and web Dynpro. • IDOC Segment Creation/Change, Basic Type, Message Type etc. to enable inbound invoice processing.	Oct 2021 – Sept 2022
Client : Coach Inc, NY USA Org : Tata Consultancy Services Ltd Role : SAP Techno Functional Consultant Responsibilities: • Enhance S4 HANA system data model for inventory data by applying the SAP standard Data Modeling. • Create a mapping matrix describing the correlation between the data elements in the two system data models. • Develop HANA live data models to identify the material stock details for stores to be consumed by reporting systems. • Create high-level process models (data flow diagrams, workflow diagrams, system interface diagrams) to represent business processes for inventory data.	Oct 2019 – Sept 2021
Client : PSEG, NJ USA Org : Tata Consultancy Services Ltd Role : SAP ISU Lead Technical Consultant Responsibilities: • Developed Payment Interfaces using ABAP Proxy for payment collection through third party Kiosk for billing. • Worked major projects of PSEG in FICA, DM and appliance service area. • Developed new enhancement in the FICA payment module to clear the charges based on customized payment hierarchy depending on the outstanding balance in the account and the type of the charges. • Generate sales invoices using Adobe Interactive Forms for appliance service business.	Feb 2015 – Sept 2019
Client : PSEG. NJ USA– Offshore Org : Tata Consultancy Services Ltd Role : SAP ISU Technical Consultant Responsibilities: • Developed smart from based invoice output for specific type of billing document. • Developed Custom Screens and Custom Transactions for Viewing/Changing the Worry-Free Contract. Incorporate Monthly / yearly billing of the contract with the FICA invoicing to the respective contract account.	May 2011 – Jan 2015

Client : AVAYA, USA Offshore
Org : IBM India Private Limited
Role : SAP Technical Consultant

July 2009 – May 2011

Responsibilities:

- Implement BADI to update Sales data according to customer requirement
- Design and Code BDC for Change sales contract Document (VA42)
- Implement EDI and IDOC interface with middleware to send sales order interface with third party system.
- Configure inbound BAPI interface to update the order header text information.

Client : Bridgestone Firestone, Offshore
Org : IBM India Pvt Limited
Role : SAP Technical Consultant

April 2009 – June 2009

Responsibilities:

- Develop Smart forms and SAP scripts and for billing documents printing.
- Preparing Technical Design Specification and Unit Test Plan from Functional Specification.
- Coding as per Functional Specification and Unit testing of the same

Client : Medtronic, Offshore
Org : IBM India Pvt Limited
Role : SAP Technical Consultant

Jan 2007 – Mar 2009

Responsibilities:

- Develop customized table and table maintenance, data dictionary object like, domain, data element, database tables, views, lock objects, search helps, Transactions. Dialog modules, menus, message class.
- Development of IDOC /BAPI based interface with BEA middleware in Sales and Distribution module.

Org : Central Mechanical Engineering Research Institute, India
Role : Software Developer

Jan 2005- Dec 2006

Responsibilities:

- Object-Oriented Analysis, Design and development of On-board software.
