SUMMARY

Experienced IT professional with 16 years in technical support and financial analysis, seeking a role as a SOC Analyst. Skilled in cybersecurity, fraud prevention and detection, and adept at remote troubleshooting and problem-solving. Proven ability to manage confidential information and collaborate with cross-functional teams to enhance security procedures and protocols.

WORK EXPERIENCE

Tata Consultancy Services (TCS)

Louisville, KY

IT Help Desk Specialist

Jul 2024 - Present

- Serve as the initial point of contact for technical assistance via phone and email, installing and configuring computer systems.
- Perform remote troubleshooting using diagnostic techniques, guiding customers through the problem-solving process, and escalating unresolved issues as necessary.
- Record and maintain detailed logs of technical issues and resolutions, while updating customer status and information regularly.
- Collaborate with cross-functional teams to coordinate projects, manage multiple priorities, and suggest improvements to enhance procedural efficiency.

U.S. Army

Fort Knox, KY

Financial Specialist

Sep 2023 - Jul 2024

- Managed Centrally Billed Account (CBA) Cards, ensuring compliance with entitlements, contract fares, and associated rates.
- Initiated collection procedures for overcharges and unauthorized services, utilizing the Automated Travel System to streamline processes.
- Conducted research and analysis for budget formulation and execution, providing value-added financial analysis and ensuring transparency and compliance with regulations.

Department of Army

Fort Knox, KY

Military Pay Technician

Sep 2022 - Sep 2023

- Managed the establishment, maintenance, and closure of payroll accounts for armed forces personnel, ensuring accurate processing of pay entitlement actions.
- Conducted in-depth audits of military payroll, performing detailed research of historical records to resolve discrepancies and enhance accuracy.
- Provided customer assistance on payroll services, addressing issues with pay transactions, and taking corrective measures to rectify errors in pay entitlements.

US Department of Veterans Affairs

Louisville, KY

Medical Support Assistant

Aug 2021 - Aug 2022

- Scheduled, canceled, and rescheduled patient appointments and consults, ensuring compliance with national scheduling guidelines and maintaining accurate records of no-show information and electronic waitlists.
- Verified and updated patient demographics and insurance information, processed emergency and non-emergency transfers, and completed encounter forms to ensure accurate workload credit.
- Managed beneficiary travel and facilitated enrollment, eligibility, co-pays, and pre-authorization requirements for specific coverage programs, including TRICARE and sharing agreements.

Commonwealth of Kentucky

Elizabethtown, KY

Family Support Specialist

Nov 2013 - Aug 2021

- Conducted initial assessments to determine clients' eligibility for public assistance programs by interviewing applicants and reviewing documentation.
- Collected and analyzed required documentation to make informed eligibility determinations for various public assistance services.
- Communicated effectively with administrative staff, professional personnel, and clients to provide information and resolve issues efficiently.
- Facilitated access to supportive services, including financial assistance for childcare, transportation, and employment-related expenses.

Serco - Army Human Resource Command

Fort Knox, KY

Officer and Enlisted

Oct 2010 - Aug 2013

- Assisted in managing a team of 50 individuals, providing leadership and support to ensure operational efficiency and effectiveness.
- Interacted with internal and external customers to resolve routine issues and maintain seamless communication channels.
- Maintained and updated customer information using EDAS and TOPMIS systems, ensuring accuracy and accessibility of administrative records.

Delta Airlines

Cincinnati, OH

Customer Care Coordinator

May 2007 - Aug 2009

- Coordinated screening procedures and technology to effectively identify and prevent the transportation of dangerous objects in baggage, cargo, and on passengers.
- Managed terminal entry and exit points while providing customer service through ticketing, reservations, and responding to inquiries.
