

SRIKANTH SANGISETTI
ssrikantsaptec@gmail.com | +1 (732) 318 7785
SAP ABAP Technical Consultant

PROFESSIONAL SUMMARY:

14+ years of experience in SAP as ABAP Technical Consultant and has hands-on Experience on SAP S/4HANA and ABAP, BI/BW and IS-Retail. Experience on working with Implementation, Support, S/4 HANA Brownfield and On-premise projects in geographical zones of Malaysia, China, USA, LATAM and India.

Highly focused on career and growth, keen on learning, exploring skills in S/4HANA as per latest Net weaver 7.4/7.5 versions, SAP upgrades and organizational requirements.

SAP SKILL SET: -

ABAP Expertise:

- 14+ years of experience in SAP as ABAP Consultant and ECC, S/4 HANA, SAP BI/BW and has been a part of multiple implementations, support, upgrade, rollout and S/4 HANA Brown field and on-premise migration projects.
- Developed the objects using Objected oriented ABAP and latest Net Viewer 7.4/ 7.5 and above.
- Extensively worked on Creation of Custom Tables and Reports including all the RICEFW Objects.
- Experienced in Analysis, design and development using ABAP/4 Reports, ALV, SALV, Dialogue Programming, Screen Painter, Menu Painter, SAP Script, SMARTFORMS, Adobe Forms, BDC, LSMW, Data Dictionary Objects, Function Modules, Function Groups, RFC Function Modules, User Exits, Enhancement Framework, BADI, Webdynpro and Workflow.
- Extensively worked on IDOC both Monitoring and Extended IDOCS like config, development, installation and mapping for DESADV, INVOIC, ORDERS, SHPCON, DEBMAS, MATMAS and MBGMCR etc.,
- EDI/ALE including setting up the EDI Configuration (Output Determination), setting up the ports, setting up the RFC Destinations, User Exits and Workflow to handle IDOC extensions or errors.
- Worked on web services to fetch the data from concur system and send back the response like MyService, CDEx, Smart GEP, PCML, RAPID, FERP, RAPID KL, MISC(MyPassport), SHEILD, OpenText using EAI, Data Structures and Muelesoft systems.
- Worked on PI/PO Proxy interfaces to fetch the data from DB Schenker, ESB, MSIC, SHIELD etc., into SAP and send back response.
- Experience in working with Update and RFC function modules.
- Experienced in Background job scheduling, analysis of errors and fixing the same.
- Expertise in developing CDS basic views, composite and consumption views.
- Worked on ODATA creation (crud operation) for Purchase Order and Invoice Receipt creation.
- Minor Development of FIORI Applications by creating and consuming CDS Views using UI annotations.
- Good Knowledge on FIORI Launch pad Configuration, ODATA Creation, Redefinition and Activation
- Good Knowledge in creation of association and navigation properties of ODATA Services. Extension of FIORI Apps or ODATA Services.
- Knowledge on SAP BTP and SAP RAP.
- Worked on all the kind of tickets P1, P2 and P3.
- Extensively worked on ATC checks on all the development objects using standard and custom variants.
- Worked in Lead Capacity managing both onshore and offshore teams.
- Debugging SEGW projects through extending DPC Classes.
- Worked on parameterized CDS views, expression types, code push down, VIM annotations.
- Knowledge on AMDP functions.
- Good understanding of FIORI Applications by creating and consuming CDS Views.
- Experience on consuming OData, SOAP services on SAPUI5 application and activation of ODATA services on Gateway server.
- Good exposure on BRF+ Workbench in designing application, data objects, functions and ruleset and rules.
- Experience in working with SAP Workflow for user decisions(approval/rejections).
- Experience in enhancing FPM Web-Dynpro programs.
- Experience in working with BAPI's, Proxy Interfaces and RFC Function modules.
- Knowledge on html5, CSS, java script and jQuery.
- Committed team player with interest and zeal to learn new skills and technology.
- Exceptional ability to build productive relationships with colleagues, clients, and vendors across all functional and technical disciplines.

- Extensive experience working within Agile frameworks, including Scrum. Demonstrated ability to collaborate effectively with cross-functional teams, manage sprints, and deliver high-quality results in iterative cycles.
- Excellent time management, communications, decision-making, leadership, and planning skills with the ability to learn quickly and efficiently-task in a result-oriented environment.
- Have good exposure on upgrade activities like SPDD, SPAU, SPAU_ENH and S-note implementations.
- Exposures to Modules like SD, MM, HCM, FICO, PP, TRM, EHS, SRM, IS-oil, IS-retail and EWM.

BI/BW Expertise:

- Refine / update or prepare fresh documentation for assessed environment.
- Experience in Process chains and scheduling.
- Managing Info cubes/DSO and simulating the transformation rules.
- Experience in Bex Analyzer and BO Reporting tool.
- Experience in using Standard Cubes and other standard functionalities.
- Experience in Data transfer process, Transformation Routines and Data loading into BW data sources.
- Experience in Data extraction from ECC into BW.

IS-RETAIL (POSDM) Expertise:

- Understanding of configuration of SAP POSDM Business transaction types: Sales, Financials, Totals, Inventory and Reversals.
- Ability to read XML data structures for retail point of sale transaction data, and create SAP mapping specifications to convert the XML POS data into the necessary RFC structures for SAP POS DM.
- In depth understanding of ALE/IDOC processing to pass data from SAP POSDM.
- Understanding of the SAP POS DM Pipe processing module.
- Good Exposure on POS workbench.

SAP CERTIFICATIONS:

- SAP Certified Development Specialist – ABAP for SAP HANA 2.0 SPS05
- SAP Certified Development Associate – SAP Fiori Application Developer

ACADEMIC DETAILS:

- Master of Computer Applications (MCA) from Kakatiya University, India aggregate of 71% (2006-2009).

PROJECT EXPERIENCE:

Client: Intel Inc., USA

Jan 2024 to Present

Role: Senior SAP ABAP Hana Consultant

Responsibilities:

- Worked in Lead Capacity managing both onshore and offshore teams.
- Assigning the work to the team members and monitoring to complete the work in scheduled time.
- Code review for the objects developed by both onshore and offshore team members.
- Review the objects as per the standard provided by the client using code inspector tool.
- Transported the created objects from development to quality using the Rev-Trac tool (Charm).
- Handling and Involving Sprint Planning, daily DSUs, Retros, Grooming and Sprint reviews.
- Developed the objects using Objected oriented ABAP and latest Net Viewer 7.5 and above for RICEF objects.
- Extensively worked on ATC checks on all the development objects using standard and custom variants.
- Worked on enhancements using latest kernel BADI, Enhancement spot and Enhancement Section.
- Extensively worked on RFC Function modules.
- Extensively worked on UI Annotations using CDS views.
- Extensively worked on RICEFW areas.
- Extensively worked on both Inbound and outbound ALE/IDOCs.
- Developed proxy interfaces to fetch the Shipment data from sales force system into SAP and send back the response.
- Created a functions and rules for determining the incoterms based on plant code and storage location using BRF+.
- Worked on enhancements for custom workflows in Sales and IS-oil modules, including the creation of PO contract approval workflow including sending emails to the respective DLs.

Environment: SAP ABAP, EWM, SD, MM, SAP S/4HANA, ECC 6.0 EHP 7.4, Rev-Trac, Jira, ServiceNow

Client: Sealed Air, USA**Jan 2022 to Dec 2023****Role: Lead SAP ABAP Hana Consultant****Responsibilities:**

- Extensive experience working within Agile frameworks, including Scrum. Demonstrated ability to collaborate effectively with cross-functional teams, manage sprints, and deliver high-quality results in iterative cycles.
- Developed multiple OData services, providing them to the front end for consumption on UI5/Fiori.
- Worked on ABAP proxy development, creating robust interfaces and communication channels to facilitate efficient data exchange within SAP landscapes and with external systems.
- Developed Web Services using RFC to transmit data to the .Net system and handled WSDL files within the Enterprise Portal.
- Engaged with Function Modules, Interfaces, Smart Forms, and Adobe Forms, with a primary focus on Web Services and Middleware.
- Worked on enhancements for custom workflows in SD and MM, with the creation of Delivery and PGI approval workflow including sending emails to UPS team.
- Designed and implemented IDOC-based interfaces to facilitate smooth data exchange between SAP systems and external applications.
- Worked on FI Substitution exits and SD Routines.
- Resolution of EDI/IDOC for inbound and outbound interfaces.
- Proficient in leveraging Business Add-Ins (BADI) and User Exits to tailor SAP functionalities, ensuring seamless customization to meet specific business requirements.
- Established custom tables related to MM and utilized a table maintenance generator for maintaining entries in these tables.
- Proficiently navigated SAP Solution Manager for various tasks and responsibilities.

Environment: SAP ABAP, ECC 6.0, EHP 7.4, PI/PO, FI, EWM, SD, MM, SAP S/4HANA, MuleSoft, UPS, Charm, ServiceNow**Client: Petronas, Malaysia****Mar 2018 to Dec 2021****Role: Lead SAP ABAP Hana Consultant****Responsibilities:**

- Managed both onshore and offshore teams
- Work allocation to the team members and monitoring to complete the assignments within the deadlines.
- Code review for the objects developed by the team members using custom ABAP review and PA review programs.
- Analyzing the Functional specifications and Preparation of Technical specifications.
- Preparing Unit Test plans for developed Objects.
- Extensively worked on ATC checks on all the development objects using standard and custom variants.
- Enhanced multiple workflows for Vendor Invoice and Credit memo using multilevel approval processes.
- Worked on several Adobe forms and Smart Forms for SD, FI, MM, REM, CRM modules.
- Extensively worked on RFC Function modules.
- Proficient in SAP ABAP Debugging.
- Created and consuming CDS Views to use in OData service.
- Experience working with WSDL, Rest APIs and proxy to fetch the data via third party systems like MuleSoft, EAI.
- Worked on parameterized CDS views, expression types, code push down, VIM annotations.
- Generated custom ODATA services for CRUD operations.
- Worked on VOFM routines and created exits for Data transfer, Requirements (Pricing, Output controls) and formulas.
- Worked on Module pool programming objects.
- Involved in upgrade activities like SPDD, SPAU and SPAU_ENH after completion of this SUM phase.
- Extensively worked on BADI, User exit, Screen exit, customer exits and enhancement spots for SD, FI, SRM and MM.

Environment: SAP ABAP, SD, MM, FI, PP, P2P, CRM, SRM, HCM, EHS, SAP S/4HANA, ECC 6.0, SRM 7.0, EHP 7.4, PI/PO, EAI, MuleSoft, Active Control (Solman), Mygenie+**Client: Weir Minerals, LATAM countries (Argentina, Peru, Bolivia and Brazil)****Jun 2017 to Mar 2018****Role: ABAP Hana Consultant****Responsibilities:**

- Analyzing the Functional specifications and Preparation of Technical specifications.
- Delivered the objects within the delivery date based on monthly releases.
- Extensively developed interfaces for MM, SD and FI.
- Modified and Developed Reports as per client requirements.

- Preparing Unit Test plans for developed Objects.
- Worked on Module pool for HR module in customizing CATM and for EP portal as well.
- Worked on web-Dynpro for HCM module.
- SQL Traces, Runtime Analysis, Debugging.
- Good exposure on inbound and outbound IDOCs.
- Developed the objects using Objected oriented ABAP.
- Experience in Smart forms and Scripts.
- Worked on workflow to trigger custom workflow when a document is parked.
- In-depth analysis of the errors in the custom programs, standard programs, IDOC's through debugging.

Environment: SAP ABAP, SD, MM, P2P, FI, HCM and EWM, SAP Hana, PI/PO, AWS

Client: 7 Eleven, Japan

Sep 2016 to May 2017

Role: ABAP/BI Consultant

Responsibilities:

ABAP Responsibilities:

- Refine / update or prepare fresh documentation for assessed environment.
- Created and Involved in Job scheduling.
- Another sensitive area in 7E, Stocktake (Inventory Refresh), Need to debug/validate the custom programs whenever issue was raised in stock take.
- Developed a proxy program for Asset Integration Management (ITSM) from PI to ECC.
- Developed RFC for Non-Cash Tender for pickup data from PI to BW DSO.
- Involved in data migration by using BDC, LSMW.
- Worked on IDOCs for Non-Cash tender (MOL).
- Developed custom reports and forms for IS Retail.

BI/BO/BW/POSDM Responsibilities:

- Acquire knowledge of SAP BI system through Existing/available documentation
- Maintaining and Scheduling Process chains.
- Involved DSO creation for non-cash MOL.
- Managing Info cubes/DSO and simulating the transformation rules.
- Handled highly sensitive area i.e., Daily SMS activity. It involves end-to-end process from head to tail of 7 eleven business.
- Handling the issues in Process chains, POSDM, Daily, MTD ABAP Programs, BO reports and Bex-Analyzer.
- Need to maintain the daily chain for SOQ. Need to analyze the issues and monitor the chain.
- Need to fix errors and find out the RCA in POSDM.
- Daily chain Master data chain which involved both Process chains and ABAP programs.

Environment: SAP ABAP, SD, MM, FI and IS-Retail, SAP Hana, BI, BW and BO, Bex-Analyzer, POSDM (IS-Retail)

Client: Ministry of Finance - JANM(1GFMAS), Malaysia

May 2015 to Aug 2016

Role: ABAP Consultant

Responsibilities:

- Developed an alv report to Generate Bank Reconciliation Report. (FI-GL)
- Developed a Report for Federal Loan principal amount of loan, disbursement and balance Loan. (TR-LMS)
- Developed an alv report for Summary Item Status Outstanding in Bank Reconciliation. (FI-GL)
- Developed a report to display Summary Rating Cash by Month wise based on year. (FI-CM)
- Developed smart form of AK55 form format to transfer fund through BNM account via E-Pintas.
- Developed reports for Laporan Ringkasan Item Tertunggak Penyata Penyesuaian Bank and Laporan Terperinci Item Tertunggak Penyata Penyesuaian Bank. (FI-GL, FI-CM, Treasury)
- Developed smart forms for Loan Production Notification Letter (FI-CM) and Loan Verification Letter of Foreign Affairs.
- Developed module pool programs for fund transfer process from HO to HO, AO to HO. (FI-GL, AA, CM).
- Developed a modulepool program for LMS system to provide "minitberasingan" of checking original budget.
- balance of the year before disbursement can be done for Federal Loan. (Treasury)
- Developed a BAPI to upload the FI Post Document without Rujukan (FB01 posting for AR). (FI-AP and AR).

Environment: SAP ABAP, FI, TRM, LMS, ECC 6.0

Client: Sime Darby, Malaysia

Jul 2013 to May 2015

Role: ABAP Consultant**Responsibilities:**

- Understanding the Functional specifications and developed the custom programs.
- Worked on ALV Reports like AR aging report, Customer Aging and Debtors Aging reports.
- Developed a Customized BAPI for FI Reposting.
- Developed a Payment interface for CitiBank to Sime Darby and vice versa.
- Developed a BDC to extract Sime Darby 's Vendor Master data and Sales Reposting.
- Developed Smart forms for Credit/Debit note statement report.
- Developed a Smart form for Official Receipt print program and Original Tax invoice used by Sime Darby Motors.
- Developed a BAPI to automate P-Card Auto Posting Program for Citi Bank.

Environment: SAP ABAP, SD, MM, FICO, ECC 6.0

Client: RBNL (Reliance Broadcast Network Limited)**Mar 2012 to Apr 2013****Role: BI/BW Consultant****Responsibilities:**

- Actively and regularly involved in Load Monitoring of Daily, weekly, and Monthly, Data Loads using Process Chains.
- Involved in development and maintenance of Info Cubes, Multi Providers, Data Store Objects (DSO), Info Objects, Data Sources, and Info Sources.
- Involved in validated data consistency in reporting with data target against PSA after loading them to data targets.
- Worked on data extractions.
- Involved in Writing Object Level Routines, Start Routines and End Routines.
- Good understanding of Data Modeling using BW Extended Star Schema.
- Handled and analyze the errors in the data loads.
- Created Queries in Bex Query Designer which involved using Conditions, Exceptions, Calculated and Restricted key figures and variables.

Environment: BI/BW, MM, SAP BI7.0, BW3.5, ECC 6.0

Client: RBNL (Reliance Broadcast Network Limited)**Aug 2011 to Mar 2012****Role: BI/BW Consultant****Responsibilities:**

- Developed Classical, Interactive and ALV reports for MM module.
- Developed a smart form for Customer Statement form by E-mail/spool.
- Worked on Userexits and BADIs.
- Prepared BDC for Month End GL Balance Reposting Program.
- Developed load strategy and created process chains to schedule the loads on daily, weekly and monthly.
- Fixed errors related to transformations.
- Created and maintenance of Info Objects, DSO, Cubes, Transformations, DTPs, Data Sources
- Involved in Writing Routines, Start Routines and End Routines. And Created views in the process of Generic extraction.

Environment: SAP BI/BW, SD, MM, ECC 6.0, SAP BI 7.0

Client: Krishak Bharati Cooperative (Kribhco)**Feb 2010 to Aug 2011****Role: ABAP Consultant****Responsibilities:**

- Understanding the Functional specifications and developing the custom programs.
- Developed a Classical Report 'General Approval Document' for Direct PR and Non – Direct PR.
- Report and enhancements for settlement, billing, invoicing, payment distribution and financial conditions.
- Developed a download program for Pricing Master from POS to SAP in VK11.
- Modified logic to calculate Open Quantity in Open PO and Rescheduling Report.
- Developed new report in block list Display (ALV) for Key Performance Index for Notification Order, Work Center and Project Work Order Type.
- Worked on LSMW Conversions.
- Worked on Scripts, Smartforms.
- Enhanced few BADIs and User-Exits.

Environment: SAP ABAP, SD, MM, ECC 6.0
