

SAI SHARATH METTA

Lowell, USA 01854 || +1-978-935-0990 || saimetta89@gmail.com || [Github](#)

Summary

Dedicated Software Developer with 4+ years of experience in designing and developing scalable web applications using Java, Spring Boot, React.js, and AWS. Skilled in building microservices, RESTful APIs, and cloud-native solutions with a focus on performance and reliability. Proficient in leveraging AWS services like Lambda, SQS, and Fargate for fault-tolerant deployments. Experienced in implementing CI/CD pipelines, optimizing code, and ensuring smooth collaboration in Agile environments. Committed to delivering high-quality, maintainable software aligned with business objectives.

Skills

- Programming Languages:** Java, SQL, JavaScript
- Front-End Technologies:** HTML, CSS, SASS, JavaScript, TypeScript, AJAX, JSON
- Frameworks:** Angular, ReactJS, Bootstrap
- Back-End Technologies:** Spring Framework, Spring Boot, Hibernate RESTful APIs, Servlets, Java Server Pages (JSP)
- Database Management:** SQL Server, MySQL, PostgreSQL, MongoDB, JDBC
- Version Control:** Git, GitHub
- Development Tools:** Maven, Gradle Testing
- Frameworks:** JUnit, Mockito, Selenium
- DevOps Practices:** Jenkins, Docker, Kubernetes
- Cloud Services:** AWS, Azure
- Web Security:** JWT, OAuth
- Microservices Architecture:** Microservices design and implementation
- Performance Tuning:** Application performance analysis and optimization
- Agile Methodologies:** Agile practices in software development
- Soft Skills:** Problem-solving, effective communication, teamwork

Experience

Software Developer **08/2023 to Present**
USA
S&P Global Inc.

- Developed RESTful APIs in Spring Boot for the microservice that enables users to set up Standing Instructions.
- Developed and maintained responsive user interfaces using React.js and Next.js, ensuring optimal performance and a seamless user experience across various devices.
- Collaborated with cross-functional teams to gather requirements and design software solutions that meet the needs of banking operations, enhancing user experience and operational efficiency.
- Implemented server-side rendering with Next.js to enhance application performance and SEO, resulting in faster load times and improved visibility in search engine results.
- Developed and maintained backend services to support various applications, ensuring efficient data processing and business logic implementation.
- Improved transaction processing time by optimizing server-side processes and database interactions, enhancing overall application performance.
- Managed cloud infrastructure (e.g., AWS) to support high transaction volumes, ensuring reliable and scalable services.
- Collaborated on dynamic user interfaces using React.js to enhance user experience and performance.
- Designed and implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Conducted code reviews and provided constructive feedback to improve code quality and maintainability across the development team.

Jr. Software Engineer **02/2022 to 10/2022**
Hyderabad, India
Cognizant Technology Solutions

- Collaborated in the development of microservices-based applications using Spring Boot and RESTful APIs, supporting scalable and maintainable service communication.
- Assisted with performing CRUD operations (Create, Read, Update, Delete) on MongoDB to ensure reliable data management and maintain high data integrity.
- Contributed to building dynamic single-page applications (SPA) using React.js, improving front-end performance and enhancing user experience through real-time data binding.
- Supported the implementation of AWS SQS for asynchronous messaging between microservices, enhancing system responsiveness and service decoupling.
- Worked on optimizing GraphQL queries to reduce data over-fetching and improve application performance.
- Assisted in setting up and maintaining Jenkins pipelines to automate the build and deployment processes for Java-based applications.
- Implemented code splitting and lazy loading strategies in React projects to improve initial load times and optimize resource utilization.
- Helped integrate AWS Lambda with API Gateway to create secure, scalable serverless APIs capable of handling high traffic.
- Contributed to improving back-end performance by implementing asynchronous processing in Node.js, reducing API response times and improving user satisfaction.

Associate Software Engineer **06/2020 to 02/2022**
Remote, India
Cred

- Collaborated with cross-functional Agile/Scrum teams to deliver 10+ project milestones on schedule, utilizing Git for version control and reducing merge conflicts by 40% through structured branching and code reviews.
- Contributed to the development of dynamic user interfaces using React.js, applying Virtual DOM and custom HTML components to enhance rendering efficiency and reduce DOM reflow by 20%.
- Assisted in designing and implementing RESTful web services using Spring MVC, enabling smooth client data retrieval from databases while maintaining 88% test coverage with SOAPUI and ensuring 75% API uptime.
- Participated in designing and deploying a microservices architecture using Spring Boot, improving system scalability by 40% and implementing Apache Kafka for reliable inter-service communication, achieving 99.9% fault tolerance.
- Supported cloud-native application deployments by leveraging AWS Fargate to enhance scalability and fault tolerance by 20%.
- Developed 20+ custom React hooks to simplify complex DOM logic and promote reusable, maintainable code.
- Helped establish and maintain CI/CD pipelines using Jenkins and GitHub Actions, enabling faster, automated deployments and reducing downtime during production releases.

Education

Masters of Science: Computers and Information System **12/2024**
Nashua, New Hampshire
Rivier University, GPA: 3.6/4.0

Bachelor's: Mechanical Engineering **06/2022**
Hyderabad, India
Institute of Aeronautical Engineering College, GPA: 84%

Certification

- Hacker Rank:** Software Engineer Intern – 2023
- Hacker Rank:** Python Basic – 2024
- Code Chef:** Logic Building Python - 2024
- AWS Cloud:** AWS Solutions Architect Associate - 2024
