

Sai Kumar Alamuri | Software Engineer

Hayward, CA | Email: saikumaralamuri126@gmail.com | Contact: +1 (510) 361 9916 | [LinkedIn](#)

Summary

- Results-driven **Software Engineer** with **3+** years of experience in designing and developing scalable applications, focusing on delivering high-quality solutions that meet business needs.
- Proficient in **Java**, **Kotlin**, and **Python**, with a strong foundation in object-oriented programming and software development best practices.
- Extensive knowledge of web technologies including **HTML5**, **CSS3**, and **JavaScript**, complemented by experience in frameworks such as Angular and React for creating responsive user interfaces.
- Skilled in backend development using **Spring Boot** and **Hibernate**, ensuring the delivery of robust, maintainable solutions with a focus on performance and reliability.
- Familiar with database management systems like **MySQL** and **MongoDB**, optimizing data access and storage for improved application efficiency.
- Experienced in cloud computing platforms (**AWS**, **GCP**) and **CI/CD tools (Docker, Kubernetes)** to streamline deployment processes and enhance collaboration within Agile team

Skills

Languages	Java (8/11/17), Kotlin, Python, JavaScript
Web Technologies	HTML5, CSS3, JavaScript, Angular, React, Node.js
Frameworks	Spring (Spring Boot, Spring MVC, Spring Cloud), Hibernate, Microservices, RESTful Web Services, JUnit, Mockito
Tools	Git, Docker, Kubernetes, Jira, CI/CD Tools (Jenkins, GitLab CI)
Databases	MySQL, Mongo DB
Cloud Computing	AWS (S3, EC2, Lambda, API Gateway), GCP, Azure
Methodologies	Agile, Scrum
Others	Object-Oriented Design, Data Structures and Algorithms, Design Patterns, Testing (Selenium, TestNG), GraphQL

Work Experience

Oracle, USA | Software Engineer | Oct 2023 - Current

- Led the development of a cloud-native **micro services** architecture using Spring Boot and AWS, improving system scalability and reducing deployment time by **30%**.
- Designed and implemented **RESTful APIs** for a multi-tier web application with **Angular** and **Node.js**, resulting in a **20%** increase in user engagement and satisfaction.
- Streamlined **CI/CD** pipeline by integrating **Docker** and **Kubernetes**, enhancing deployment efficiency and reducing release cycles by **40%**.
- Collaborated with cross-functional teams using **Agile** methodologies, ensuring project milestones were consistently met and improving team velocity by **25%**.
- Enhanced code quality by implementing automated testing frameworks (**JUnit** and **Mockito**), achieving 95% code coverage and reducing production defects by **25%**.
- Mentored junior developers on **Object-Oriented Design** and **Design Patterns**, elevating team competency and reducing onboarding time by **15%**.
- Developed a real-time data processing system with **GraphQL**, decreasing query complexity and improving data retrieval speed by **50%**.

One Advanced, India | Java developer | Dec 2019 - Jul 2022

- Developed enterprise-level applications in **Java** with **Spring MVC** and **Hibernate**, optimizing business processes and enhancing application performance by **30%**.
- Spearheaded the migration of legacy systems to a modern **microservices** architecture, achieving an exceptional system reliability and uptime of **99.9%**, which significantly enhanced performance and overall user experience.
- Collaborated with **UI/UX** teams to create interactive web applications with **HTML5**, **CSS3**, and **JavaScript**, ensuring alignment with business objectives and increasing user retention by **15%**.
- Optimized database interactions with **MySQL** and **MongoDB**, resulting in faster query responses and improving overall application efficiency by **20%**.
- Actively engaged in **Agile** project management practices, contributing to daily stand-ups and sprint reviews, which enhanced communication and project visibility.
- Improved software quality by implementing automated tests with **Selenium** and **TestNG**, reducing regression testing time by **30%** and accelerating release cycles.

Education

California State University – East Bay, Hayward, California, | Aug 2022 – May 2024

Master's in Computer Science (CGPA 3.8/4.0)

Koneru Lakshmaiah Education Foundation, Vijayawada, India | Jun 2016–May2020

Bachelor's in Computer Engineering (CGPA 8.79/10)
