## Experience

### Salesforce Developer

*FocalCXM*

*Chantilly, CA*

*Jan 2023 – Present*

- Led the implementation of Salesforce Experience Cloud to create self-service portals for life sciences clients, improving customer engagement.
- Designed and deployed Salesforce Health Cloud solutions, streamlining patient-provider interactions and optimizing scheduling efficiency.
- Developed OmniStudio FlexCards and DataRaptors to handle complex case workflows for healthcare and service industries.
- Automated multi-level approval processes using Salesforce Flows and Apex, reducing manual intervention.
- Integrated Salesforce Data Cloud with external systems for real-time analytics, improving decision making for healthcare professionals.

### Salesforce Developer

*Engineering Square*

*Fremont, CA*

*May 2022 – Aug 2022*

- Implemented Salesforce Sales Cloud to optimize sales operations, increasing productivity.
- Reusable LWC components built for dashboards and real-time reporting tailored to client needs in the life

sciences and service sectors.

- Developed Apex triggers and batch jobs to process large datasets, ensuring scalability and efficiency for healthcare use cases.
- Configured complex role-based permissions, profiles, and security settings to ensure compliance with healthcare data regulations.
- Worked on integrations with Mulesoft and Databricks to support seamless data sharing across platforms.
- Designed and executed data migration strategies using Salesforce APIs and Data Loader, reducing transition time.

### **Associate Software Engineer**

*Rubikforce Software Services*

*Hyderabad, India*

*Jun 2019 – Dec 2020*

- Contributed to the development of a Salesforce-based self-service scheduling portal, improving appointment booking efficiency.
- Created email templates and automated email workflows using Salesforce Marketing Cloud.
- Developed custom reports and dashboards to provide actionable insights for clients in the healthcare and life sciences sectors.
- Assisted in implementing Salesforce Service Cloud for a customer support platform, improving ticket resolution times.
- Conducted unit testing and debugging of Salesforce solutions, ensuring smooth deployments.

## **Projects**

---

### **Self-Service Scheduling Portals**

*Jan 2023 – Present*

- Designed and implemented a self-service portal for healthcare professionals to book appointments, report adverse events, and manage schedules seamlessly.
- Integrated Salesforce Health Cloud and OmniStudio to provide real-time updates and advanced case management features.
- Tools used: Salesforce Health Cloud, OmniStudio, LWC, Apex, Flosom

### **Labpulse Application**

*May 2022 – Aug 2022*

- Built a Salesforce-based application to streamline workflows for life sciences researchers, including specimen management and protocol tracking.
- Developed and deployed as a Second Generation Managed Package with AppExchange readiness.
- Tools used: LWC, Apex, Salesforce ANT, Jenkins, Bitbucket

### **Global Medical Specific Affairs (GMSA)**

*May 2022 – Aug 2022*

- Designed a content management system for healthcare professionals with region-specific access controls.
- Integrated Salesforce with Veeva using REST API for seamless data synchronization.
- Tools Used: LWC, Apex, REST API, Auto Rabbit

### **B2B Rebates**

*Jun 2019 – Dec 2020*

- Developed and deployed a Rebate Management Application to streamline the creation and management of contracts, services, and rebates, improving operational efficiency.
- Automated rebate calculation processes using custom Apex triggers and batch jobs, ensuring accuracy and scalability for high-volume transactions.
- Configured dynamic LWC components for real-time contract creation and service tracking, enhancing user experience.
- Tools Used: Salesforce Sales Cloud, Apex, SOQL, LWC, Visualforce

## Certifications

---

- Salesforce Admin
- Salesforce Platform Developer I
- Salesforce JavaScript Developer
- Salesforce Data Cloud Consultant
- Salesforce Experience Cloud Consultant
- Salesforce Sales Cloud Consultant
- Salesforce AI Specialist

## Education

---

**California State University Eastbay**

*Jan 2021 – Dec 2022*

*MS in Computer Science*

- GPA: 3.98/4.0
- **Coursework:** Cloud Computing, Artificial Intelligence, Machine Learning, Advanced Algorithms, Web Technologies
