PROFESSIONAL EXPERIENCE

Fintilect (formerly Connect FSS, PSI) - Salt Lake City, UT

Senior Software Developer

Feb 2003 – Sep 2024

- Developed and maintained web-based, multi-layered, financial account opening products, used internally and externally; including web applications for Account Opening, Loan Application, Account Funding, and Electronic Statements.
- Executed Unit Testing and comprehensive debugging while creating new features and enhancing existing products to keep products compliant with the latest security requirements and client (Credit Union) specifications.
- Created integrations with a variety of vendors for Credit Screening (Equifax, TransUnion, Experian, Deluxe), Funding (USAePay, Federal Reserve, FDR PayEZ, TSys, Clover), Document (iMM, DocuSign), and others.
- Coded, maintained, and updated integrations for the company's products to the client's (Credit Union's) Core Hosting platforms, including Spectrum, Episys, DNA, Corelation.
- Executed advanced SQL queries and efficient understanding of legacy code to maintain seamless integrations and troubleshoot performance issues.
- Collaborated with implementation teams to ensure successful installation and configuration of products in the client (Credit Union) environment, enhancing system reliability and client satisfaction by utilizing Team Foundation Server for version control.

Computer Consultants Corp. - Salt Lake City, UT

Manager / Software Developer / Programmer

Feb 1996 – Feb 2002

- Managed current product line of Credit Union Management software, including product development, enhancement and maintenance of both software and data integrity.
- Developed new Loan Document software, which increased company revenue by approximately \$2000 monthly, and reduced custom loan document creation from 1 week to 2 hours.
- Developed tools to increase efficiency; one tool reduced the amount of time needed to create electronic check signatures from 3 days to 3 hours.
- Created project and status reports for supervisors and other departments to ensure that critical deadlines were met.
- Collaborated with a team to develop Credit Union management software.
- Developed software to convert current Credit Union data to be compatible with Computer Consultants' products.

EDUCATION

University of Utah - Salt Lake City, UT

Bachelor of Science (B.S.) | Electrical Engineering

Jun 1993

Emphasis on Electronics, Computer Science, Computer Programming and Software Development.
