

WORK EXPERIENCE

ServiceNow Developer

May 2023 – Present

Chyantech, USA

- Managed comprehensive ServiceNow platform upgrades, patching, and performance tuning to ensure scalability and uninterrupted operations across the enterprise. Designed and implemented custom applications, **workflows**, and **business rules** aligned with organizational goals while maintaining high standards of usability.
- Integrated ServiceNow with external systems using REST and SOAP APIs, enabling seamless data exchange and automating critical processes. Developed automated IT workflows using **Flow Designer** and **Workflow Editor**, reducing manual intervention by over 30% and increasing operational efficiency.
- Enhanced **ITSM** processes by implementing **ITIL**-based Incident, Problem, and Change Management workflows, resulting in a 20% improvement in SLA compliance and faster issue resolution.
- Developed **performance analytics** dashboards to track **KPIs** and **SLAs**, providing actionable insights that empowered real-time decision-making. Established role-based access controls and conducted periodic audits to improve system security and ensure regulatory compliance.

ServiceNow Developer

Jan 2022 – Aug 2022

Ensurity Technologies, India

- Designed workflows, **forms**, and **UI policies** to optimize ITSM processes and reduce task resolution times. Integrated ServiceNow with external platforms via **REST APIs**, enhancing interoperability and real-time data exchange across departments.
- Conducted requirement-gathering sessions with stakeholders to define business needs and deliver scalable solutions using **Agile methodologies**. Authored comprehensive technical documentation, ensuring clarity for future maintenance and upgrades.
- Diagnosed and resolved system performance bottlenecks, improving responsiveness and reliability for over 500 users. Implemented ITIL practices for **Incident, Problem, and Change Management**, reducing average resolution times and improving user satisfaction.
- Developed custom dashboards and advanced reports to monitor KPIs and SLAs, providing insights for operational excellence and continuous process improvement.

Junior ServiceNow Developer Intern

Sept 2021 – Jan 2022

Ensurity Technologies, India

- Configured and developed ServiceNow modules, including **ITSM** and **HRSD**, to align with organizational goals and enhance service delivery efficiency. Automated routine tasks with Flow Designer and scripted workflows, reducing manual workload by 25%.
- Conducted code reviews to ensure adherence to development standards and improve platform maintainability. Resolved recurring platform issues by diagnosing root causes and implementing long-term solutions, reducing downtime.
- Assisted in implementing ITIL-aligned processes for Incident, Problem, and Change Management, accelerating issue resolution times and boosting system usability. Designed analytics dashboards and reports to track performance and identify areas for operational improvement.
- Participated in cross-functional meetings to propose innovative automation solutions, further enhancing service efficiency and reducing response times.

Frontend Developer Intern

Dec 2020 – Aug 2021

Ensurity Technologies, India

- Designed interactive UI components, including pages, macros, and forms, improving usability and accessibility for diverse user groups. Collaborated with UI/UX designers to create responsive and visually appealing interfaces tailored to user requirements.
- Developed reusable frontend modules to ensure consistent design standards and streamline future development efforts. Conducted rigorous unit and compatibility testing to ensure platform stability and cross-browser performance.
- Implemented dynamic UI policies and scripts to automate workflows and enhance user task efficiency. Documented UI design standards and trained junior developers to promote consistent and effective practices across teams.

Technical Skills

- **Programming Languages/Scripting:** JavaScript, Java, C++, C, Python, R, HTML, CSS, SQL, TypeScript
- **Frameworks/Libraries:** ITIL, CSDM, React.js, Angular.js, jQuery, Node.js, Express.js, Mocha
- **ServiceNow Modules:** ITSM, ITOM, ITBM, HRSD, TSO
- **Tools and Platforms:** ServiceNow Studio, Flow Designer, Integration Hub, Performance Analytics
- **Databases:** MySQL, Oracle, SQL Server, PostgreSQL
- **Version Control:** Git, SVN
- **Project Management:** Agile, Kanban, DevOps, Waterfall

Certifications

- Certified ServiceNow Administrator
- Performance Analytics Micro Certification
- Flow designer Micro certification
- Integration Hub Micro Certification
- Welcome to ServiceNow Micro Certification

EDUCATION

Master of Science in Engineering Science (Data Science)

Aug 2022 – Dec 2023

University at Buffalo, The State University of New York, NY

Bachelor of Technology in Electronics & Communication

June 2018 - May 2022

SRM University AP, Amaravati
