Summary

Dynamic Project Manager with over five years of experience leading complex IT and cloud solution projects. Proficient in driving end-to-end project execution, aligning technical solutions with business objectives, and delivering results with measurable success. Specialized in AWS-based architectures, Agile methodologies, and stakeholder engagement to optimize processes and achieve key milestones.

Skills

Core Competencies: IT Project Management, Cloud Migration (AWS), Agile & Scrum Methodologies, Business Process Optimization, Stakeholder Management, Risk Management, Cross-Functional Collaboration, SLA Compliance, Strategic Planning, Data-Driven Decision Making, AWS services

Certifications

Project Management Professional (PMP) – PMI
Lean Six Sigma Green Belt – ASQ
AWS Certified Solutions Architect – Associate – AWS
Certified Scrum Product Owner (CSPO) – Scrum Alliance

Work Experience

University of Texas Systems

Richardson, Texas

IT Project Manager

September 2023 - Present

- Led and managed complex cloud migration projects on AWS EC2 Linux, EMR, and Data Pipeline by bridging technical solutions with business outcomes and improving system uptime by 20% using AWS CloudWatch.
- Distilled customer needs using Quality Function Deployment methodologies, mapping them to technical requirements, which led to a 15% reduction in project errors and aligned AWS-based solutions with key business outcomes.
- Applied AWS Well-Architected Framework to optimize architectures and security protocols, resulting in a 15% efficiency boost and reducing system vulnerabilities by 25%
- Orchestrated a multi-phase cloud migration strategy, leveraging AWS CloudWatch and Lambda to improve system reliability and reduce downtime by 30%.
- Partnered with AWS engineers to cut response times by 25%, improve SLA compliance, and shape cross-organizational strategies and best practices that ensured consistent project success

Accenture

Pune, India

Senior Project Analyst

August 2021 - December 2022

- Managed technical programs applying AWS Cloud Adoption Framework, streamlining cloud adoption processes and reducing implementation timelines by 20%.
- Validated technical solutions against business goals through security risk assessments and compliance audits, reducing security incidents by 18% using AWS Security Hub while improving stakeholder confidence.
- Achieved \$1.3M in annual savings by renegotiating vendor contracts and optimizing underutilized licenses, improving resource allocation across teams.
- Implemented AWS Step Functions to automate workflows, reducing manual interventions by 35%, cutting operational costs by £1M, and accelerating project completion by 28%.
- Conducted security risk assessments and led compliance audits, reducing security incidents by 20% (50 to 40/year) using AWS Security Hub for automated monitoring.

Tata Communications Transformation Services Ltd.

Chennai, India

Project Specialist Manager

August 2021 - July 2021

- Acted as the voice of the customer, advocating for feature enhancements that improved service delivery by 20%, measured by NPS scores in Qualtrics
- Delivered telecom infrastructure projects with 95% on-time completion (up from 80%) through effective prelaunch planning, including resource allocation and timeline optimization in Microsoft Project.
- Dived deep into network performance, improving efficiency by 35% and reducing latency from 100ms to 65ms using AWS Direct Connect, tracked via SolarWind.
- Managed Cloud Connect orders for AWS, Azure, and others, overseeing migration from legacy systems to cloud, improving efficiency by 30% (70% to 100%), validated through AWS CloudWatch.

Education

The University of Texas at Dallas

December 2024

Master of Science in Information Technology and Management

Richardson, Texas

Sathyabama University

March 2016

Bachelor of Engineering in Electronics and Telecommunications

Chennai, India
