

SOUNDARYA MANJUNATH

.Net Developer | Full Stack | Cloud Services

+1-(971)-294-0402 @ manjunathsoundarya1@gmail.com http://linkedin.com/in/soundarya09 Beaverton, Oregon

SUMMARY

Experienced .NET Developer with 5 years in the industry, specializing in ASP.NET, Angular, SQL Server, and cloud services. Achieved a 40% improvement in system performance at a previous role by leveraging Azure platform.

SKILLS

C#, ASP.NET, TypeScript, SQL Server, Angular, Azure

EXPERIENCE

12/2018 - 04/2022

Bengaluru, India

Full Stack .Net Developer

Tata Consultancy Services

- Mentored team of 3 developers to migrate a legacy system to .NET Core, reducing costs by 30% and increasing efficiency.
- Engineered a custom software solution using ASP.NET, C#, and Angular, resulting in a 20% increase in customer engagement.
- Managed and optimized CI/CD pipelines, which reduced deployment time by 40% while maintaining high-quality standards.
- Collaborated with cross-functional teams to gather requirements and deliver scalable and high-performing applications.
- Conducted over 50 code reviews, enhancing code quality and decreasing defect rate by 15% across the team.
- Successfully integrated Azure cloud services, leading to a 25% faster application response time and improved user experience.

03/2017 - 11/2017

Coimbatore, India

Software Engineer

Flowturb Solutions

- Developed a client-facing web application using .NET MVC and Bootstrap, which resulted in a 35% increase in client acquisition.
- Implemented TypeScript and JavaScript enhancements, which improved the application's performance by 15%.
- Participated in the architectural design and development of a new enterprise solution, enhancing product scalability.
- Analyzed and optimized SQL Server databases, improving query performance by 25% and decreasing database load times.
- Trained and mentored 3 junior developers, providing guidance and improving team productivity by 20%.

11/2016 - 02/2017

Coimbatore, India

Software Developer Intern

MaxVal

- Assisted in the development and support of web-based applications using ASP.NET Webforms and SQL Server.
- Collaborated in a team of 8 developers to deliver new system features, enhancing functionality by 30%.
- Contributed to the creation of SSIS packages and SSRS reports, streamlining reporting processes for the business.
- Optimized SQL queries and stored procedures, resulting in a 20% improvement in database performance.

EDUCATION

07/2014 - 04/2018

Chennai

Bachelor of Engineering in Electronics and instrumentation

Anna University

PROJECTS

Handoff Bot for User and Agent Conversations using .NET

Developed a handoff chatbot using .NET Core and the Microsoft Bot Framework, allowing seamless transitions between users and agents for real-time conversations, improving customer support efficiency.

PROJECTS

E-commerce Platform

Contributed to a niche e-commerce platform focusing on advanced search features in TypeScript.

KEY ACHIEVEMENTS

- **System Performance Enhancement**

Enhanced system performance by 40% through cloud technology optimization resulting in improved user satisfaction.
- **Streamlined Deployment**

Reduced deployment times by 40% through meticulous CI/CD pipeline setup, boosting project delivery speed.
- **Database Optimization**

Improved query performance by 25% through SQL Server analysis and optimization, enhancing overall system use.

PASSIONS

- Tech Innovation**

Passionate about leveraging new technologies to drive innovation and solve complex problems in software development.
- Open Source Contribution**

Engaged in contributing to open-source projects, sharing knowledge, and honing my development skills.
