

Stan Anyadike

Software & Business Analyst

Houston, Texas | Phone: (832) 812-0504 | Email: Stananyadike@gmail.com

EDUCATION

Morgan State University

Bachelor of Computer Science & Programming / Business Administration

Certified Scrum Master (International Scrum Institution)

PROFESSIONAL SUMMARY

- 6+ years of experience in both software development and business analysis, specializing in process optimization and creating scalable technical solutions.
 - Strong expertise in gathering business requirements, conducting data analysis, and developing software solutions that meet business needs.
 - Skilled in translating complex business challenges into actionable technical solutions, with a focus on business process improvement.
 - Proficient in Agile methodologies (SCRUM, Kanban), the Software Development Life Cycle (SDLC), and project management frameworks.
 - Experienced in designing and implementing interactive dashboards and reports using Power BI to provide actionable insights to stakeholders.
 - Adept at collaborating with cross-functional teams to ensure successful project delivery, driving results with a focus on client needs and expectations.
 - Skilled in SQL query optimization, API development, and backend functionality to improve system performance and reliability.
 - Experienced in leading UAT, providing training, and ensuring smooth implementation of new systems and processes.
-

TECHNICAL SKILLS

- **Programming & Scripting:** Java, Python, HTML, SQL, Visual Basic, CSS, C, Automation Scripting
- **Web Development:** React, HTML5, Node.js, Material-UI
- **Data Analysis & Reporting:** Power BI, Tableau, Excel, SPSS, SAS, Sigma XL
- **Software Development & Testing:** Spring Boot, Microservices, RESTful APIs, Unit Testing, TDD, Jenkins
- **Methodologies:** Agile (SCRUM), Waterfall, SDLC, UML, RUP, Kanban
- **Business Analysis Tools:** Visio, UML, Power BI, JIRA, Azure DevOps, SAP, SharePoint

- **Version Control & Tools:** Git, GitHub, Bitbucket, Jira, Confluence, MS Office Suite
 - **Databases:** SQL Server Management Studio, Oracle DB, Teradata, MS-Access
 - **ERP & CRM Systems:** Salesforce, Oracle NetSuite
 - **Project Management & Collaboration:** MS Project, Rally, Trello, QTest, ALM, JIRA Align
-

PROFESSIONAL EXPERIENCE

AmeriSource Inc. – *Software & Business Analyst*

May 2022 – Present

- Led test case management, test automation, and defect tracking, ensuring seamless delivery using Agile SCRUM methodology.
- Increased database query performance by 38% by implementing SQL query optimization strategies.
- Developed and executed Power BI reports and dashboards to provide real-time, actionable business insights.
- Collaborated with development teams to improve mobile banking application functionality through API testing and defect resolution.
- Conducted user acceptance testing (UAT), resolving issues and ensuring the system met business requirements.
- Facilitated communication between cross-functional teams to ensure alignment on technical requirements and business objectives.
- Implemented automated testing strategies for mobile applications, reducing testing time by 30%.
- Played a key role in streamlining business processes and driving improvements that contributed to operational efficiency.
- Actively engaged in documentation and tracking of project requirements, managing changes throughout the product lifecycle.

Accenture Federal Services – *Software & Business Analyst*

March 2019 – April 2022

- Gathered, analysed, and documented business requirements, converting them into actionable technical specifications.
- Designed and implemented Power BI dashboards that provided real-time insights and KPIs, enhancing decision-making for stakeholders.
- Managed end-to-end process improvement initiatives, achieving a 20% increase in operational efficiency for client projects.
- Collaborated with business and technical teams to develop scalable solutions, ensuring alignment with business objectives.

- Conducted data analysis to derive meaningful insights from complex data sets, driving strategic decisions for clients.
- Led UAT activities, ensuring system functionality met business requirements and was delivered within project timelines.
- Created process flow diagrams and functional specifications to guide development teams in system implementation.
- Optimized business processes, identifying inefficiencies and recommending solutions that reduced costs by 15%.
- Worked in an Agile environment, providing ongoing support to the development team and ensuring continuous alignment with business needs.

JPMorgan & Chase – Software Developer & Engineer (Intern)

2018 – 2019

- Designed and implemented backend functionalities and RESTful APIs using Core Java, Spring Boot, and Spring MVC, improving system performance by 45%.
- Developed scalable, high-performance financial systems by building APIs, microservices, and backend infrastructure to support financial transactions.
- Conducted unit, integration, and performance testing to ensure software reliability and maintainability.
- Optimized system performance, troubleshooting and enhancing the application to handle large-scale financial data.
- Integrated microservices with Spring Data, Spring Security, and Spring Cloud for improved scalability, security, and seamless data communication.

KEY PROJECTS & ACHIEVEMENTS

- **Power BI Dashboards:** Developed real-time interactive dashboards at both AmeriSource and Accenture, providing key stakeholders with valuable insights into business metrics.
- **SQL Optimization:** Improved database query performance by 38% at AmeriSource, significantly enhancing system speed and reducing load times.
- **Process Improvement:** Led initiatives at Accenture that resulted in a 20% increase in operational efficiency through system improvements and process optimization.
- **API Development & Testing:** Spearheaded API testing efforts at AmeriSource, improving mobile banking application functionality and resolving critical issues.
- **UAT Leadership:** Led successful UAT sessions for multiple projects, ensuring the final product met business requirements and exceeded expectations.
